Did you ever notice the man in the switching-tower? Does it ever occur to you that the lives of every living person on a train frequently depend on the promptness and intelligence with which he moves the switch levers under his control?

If men could only realize how small a thing may act at the critical instant to switch them from a dangerous track on to one of perfect safety, the yearly deaths from lung diseases would be less by many thousands.

from lung diseases would be less by many thousands.

"I had a regular consumptive cough, of which I was afraid, and everybody cautioned and warned me concerning it," says Mr. A. F. Novotny, P. O. Box 1437, New York, in a significant letter to Dr. R. V. Pierce of Buffalo, N. Y. "When I started to take your medicine I was losing weight rapidly; I was very pale and had no appetite whatever. I used three bottles of Dr. Pierce's Golden Medical Discovery and now my condition is changed entirely. I do not cough at all; I have gained eight pounds in weight, have gained my healthy color; and my appetite is enormout. I can and will recommend your medicine to everybody who may be in need of it; as it is a sure cure, and no humbug as so many other patent medicines are. It is by far the superior of all."

One chapter of Dr. Pierce's great thousand-page illustrated book, The People's Common Sense Medical Adviser tells of nearly one hundred men and women thus promptly switched from the track of death by this matchless remedy. This book is sent free for the bare cost of mailing, 21 one-cent stamps or cloth-bound for 31 stamps. But only one copy to one family.

A LOYAL AMERICAN GIRL.

Gladly Gave the Flowers from Her Hat to Remind the Boys of Home and Mother.

When the soldier hove left for the south there was one bright-looking girl standing on the depot platform, says the Denver Times. She wore one of the fashionable hats which appear like a garden of flowers. As she stood there, with the tears coursing down her cheeks, she saw the other girls burying the brave boys in literal forests of flowers. One of the soldiers stepping up to her asked:

"Please, may I have one of those flow ers on your hat?" She took his hand, and in a voice most womanly said: "Yes, sir, and may God

Then she told them all to come and se lect a flower from her hat. The boys with hands grim and bronzed from camp life, carefully culled them from the straw frame until they were all gone. Then she put on what was left of it, and, stepping back toward the car, said with "Boys, I wish there were more, I

hope you will come back again, and that those flowers will remind you of the pleasant scenes of home, and guide you as your dear old mother would have taught you to go." There were several girls standing close

by who whispered: "I wouldn't ruin my hat that way," but the wiser heads remarked: "There is a loyal American woman — God bless her." — Denver
