How the Hardy Ironworkers Initiat New Hands in the Business.

"Iron mills are hot places to work in. but the men have lots of fun, with all their hard work;" said a retired iron man to a reporter of the Washington Star.

"The other day I took a walk through several mills over in Pennsylvania that I am interested in. As I was going through one the superintendent asked me to wait and see a little fun. I did aud potted plants, and the entire so, and I will tell you about it.

house presented the appearance of "A new man had come to work that ummer rather than a day in autumn, morning, and the men were about to and the cheriness was enhanced by the initiate him into the mysteries of the sunny faces of the hostess and he business. You know it is so warm that the men strip their bodies to an undershirt. When the trip hammers come down they produce myriads of sparks,

> "The newcomer had been told that he was in danger of being seriously burned. and that if he felt a spark anywhere about him the only sure way of helping himself was to jump into a big vat of water, which stood a few feet away. "Finally one of the big trip hammers came down with great force, and as it did so one of the men sneaked up behind the newcomer and dropped a small piece of ice down his back. You never saw such squirming and agony in your

"Thinking of what had been told him, he took a run and jumped headlong into the vat of water. The men guth ered around him and talked of an ambulance, but he soon found he was only the victim of a joke." - Washington Star.

MAN OF SCIENCE TO THE CATS.

Germany has made another im portant contribution to the field of invention. This time a man of science, who, presumably, occupies a bedroom in the rear of a city house, has invented a bomb to be thrown at nocturnal cats. The bomb is of about the size of a baseball and will explode with a loud noise upon foreible contact, but is warranted perfectly harmless.

racket.

Bomb Invented by a German for the Benefit of Victims of Nocturnal Concerts.

The innovation promises great relief and satisfaction to sufferers, and a mighty saving in books and crockery. Many a tooth mug has been shivered into bits on the back fence, and there are persons who are afraid to keep small books in their rooms because of the tempting fitness of such volumes for missiles. Apples or oranges covertly stolen from the dinner table are first-rate ammunition; but, unquestionably, the bomb fills a long-felt want. Even if one's aim is inaccurate and one doesn't hit the cat, the bomb is bound to hit something and make a
