Times-Mountaineer.

SATURDAY DECEMBER 16, 1899

TEMS IN BRIEF.

From Saturday's Daily. S. B. Driver, of Tygh Valley, was in the city today.

I. D. Driver is in from Wamic and reports everything flourishing in that Pat Fagan and Mike Curran returned

last night from an extended visit to A. J. Borie, formerly division sup-

erintendent on the O. R. & N., is in the city today. Messrs. R. E. Fewel, J. Wright, T.

Sally, O. G. Chamberlain and W. B. Cole, of Hood River, are in the city. The price of oysters has advanced 25 cents per sack, and the price will be correspondingly raised by the dealers

Mr. and Mrs. James Kennedy, of Wamic, are in the city visiting Mrs. Kennedy's parents, Mr. and Mrs. T. J.

The Spokaue city council has adopt ed an ordinance which will close every saloon in that city from midnight to 5:30 o'clock each morning.

The funeral of the late E. D. Ramsey was conducted from the family residence at 1 o'clock this afternoon under the auspices of Columbia Lodge. No. 5, I. O. O. F.

The electrical alarm system will be put in and The Dalles is to have a reduction in insurance rates. Now i we could have a reduction in taxes i would be a fine thing. An interesting time was had at the

meeting of the Students' Literary Club last night. The mock trial afforded much amusement to spectators. The case was tried with as much interest as if it had been a reality.

James Connolly, one of the heavy sheep raisers of Wheeler county, is in the city today. Mr. Councily says be has never seen a more favorable outlook in the range country than the present. Stock is in fine condition. and there is an abundance of hay everywhere, and he does not anticipate there can be any material loss of stock no matter how severe the winter may

John Schoetzise, proprietor of the distillery at Hood River, is in the city. Mr. Schoetzlae has with him some samples of prune brandy made at his distillery that when it gets age, will be a first rate quality. He says fruit was not plentiful enough this year to justify him doing much at distilling, but of years when there is an abunance of apoles and prunes he expects to do a good business.

The action of the city council in accepting the proposition of the Seufert & Condon Co. for putting in the electric fire alarm system will meet G. D. Woodworth has the model farm practically connect the system with every portion of the city. This company has some 400 telephones on its being operated from their central with 400 boxes, as alarms can be turned into central from every phone on the

Sheriff Kelly returned last night from Gresham, having in charge Harvey Kotzman, who was arrested on a charge of having passed two forged checks here last October. Young Kotzman was accompanied by his father and Judge Hayes, of Oregon city. His examination will probably be held before Justice Bayard next Monday. As Mr. Kuck, one of the parties on whom he is accused of passing a check, is out of the city, it will be a difficult matter to determine whether or not he is the party wanted.

From Monday's Daily

Frank Reynolds, of Lyle, was in the city last night.

Hon. W. H. Biggs and wife are visiting in the city. J. T. Peters went down the river the Dalles City today.

Miss Grace Hobson went to Portland oday to visit friends in that city. Mrs. De Huff went to Cascade Locks oday to spend a few days visiting with her daughter, Mrs. D. L. Cates.

Hon. J. F. Moore returned vesterday afternoon from a trip to Mitchell where he went on legal business.

The Builders' Exchange, of Spokane preparing to take the initative in establishing the wage scale for the building trades of the city next year. The commissioners of Walla Walla county have reduced the salary of the

leputy sheriff from \$100 to \$80 per month, and the price of boarding prisoners from 50 to 40 cents a day. Mrs. Weatherred arrived this morning from the upper country where she has been organizing cabins of Vative Daughters. She instituted cabins at Huntington, Baker City, La Grande Pendleton and Fossil.

The Oregonian states that an addiional train will be put on the O. R. & N. early next spring to run between Portland and Huntington. It will leave Portland in the morning, and will give The Dalles three trains

Hon. N. B. Brooks, of Goldensale was in the city today. Mr. Brooks says the railroad company that proposes to build down the Columbia from Walla Walla to the sea is begining condemnation proceedings for right of way through Klickitat county.

Detective Joe Day, of Portland, was in the city last night and interviewed Brown and Wilson, the two supposed highwaymen confined in the county jail. He is convinced they are the men wanted in Portland for several different robberies and holduns.

According to the Hood River Glacier of that valley. It is at Belmont and ern buildings and machinery, a water works system, a blacksmith shop and local service, and the alarm system every convenience that could make work easy. An eye to beauty as well office is equivalent almost to a system as utility has directed the improvements, making it a delightful home as well as a profitable ranch.

A novel enterprise was established at Outlook, Yakima county, the past fall. A Mr. McIntyre, who worked as time, collected 90 dozen turtles from lough's along the river and planted them in a pond. He fed them on fish caught in a trap, and shipped them in burlap sacks in the fall to Seattle, where he obtained \$3.50 per dozen for

In all probabilities the water commissission will feel justified in prospecting for artesian water on the hill south of town, as a large majority of the water consumers and taxpavers who have been interviewed by Super-Intendant Crossen have signified their desire that the commission make the experiment. It will cost about \$3000 to sink a well, but should artesian water be found, it would be a splendid invest-

The financial statement of the First National bank, published elsewhere in this issue shows a healthy increase in the business of that institution as compared with the last statement published n September. Then the loans and discounts were \$151,041 and the total deposit \$294,646, while now the loans and discounts are \$159,855 and the total deposits \$305,366. Such an increase in the business of the bank speaks well

for the business of the town. They Tossed the Captain At the regular weekly drill last light the members of the militia company made "Rome howl" in the armory. They had prepared for a

'smoker" and they had it with a vengence. After the regular drill was through and the officers had ceased to exercise authority over their men, sandwiches, pipes and tobacco were supplied and a general good time was entered into, but the boys of the company had something more interesting to spring on the officers. They had a good, stout blanket, and were experts in its use. Captain Bartell was seized and put through a drill that is not designated in Upton's manuel, but it is ne that is necessary to harden the 'raw recruit" for soldier life. He was ossed and tossed until the boys manpulating the blanket gave out, then it ame lieutenant Spivey's turn and the men gave him several tosses skyward. Others were favored with the drill. but that part which most amused the

boys was when the captain and lieutenant were being sent up. At the meeting six new members were added

The Double Eagle Mining Co. Today articles were filed with the county clerk incorporating the Double Eagle Mining Co., whose principal place of business is to be The Dalles. The incorporators are J. S. Fish, T. J. Seufert and J. C. Hostetler, and the capital satock is \$35,000 divided into shares of \$500 each. The purposes of the corporation as set forth in the articles of incorporation are to acand sell mining property, water and to the state for expenses incurred in Tommorrow Pat Fagan will open a merchant tailor establishment in the company has been found for the purrooms next door to the Roseleaf cigar pose of developing mining property in states that the state military to be one of the best tailors ever in The Dalles, and all will be pleased to know that he has determined to restore. physician.

"Because I've been
doing it every day for years," said the man.
There are physicians who say in good
faith to those whose lungs are worn by disease "It is impossible to help you." And
yet thousands of these impossibles have
been helped and healed by Dr. R. V. Pierce
whose "Golden Medical Discovery" has
cured them, when the hollow cheek,
the rasping cough, the burning flush,
and night-sweats have all pointed to
consumption.

and night-sweats have all pointed to consumption.

Ninety-eight out of every hundred such impossible cases can be cured says Dr. Pierce. What makes him so sure? Because he has been curing just such cases for more than thirty years. "Golden Medical Discovery" is strength to the stomach, life to the lungs, nourishment to the nerves. It makes new blood and the new breed builds a new body—a fit temple of health. There is nothing just as good as "Golden Medical Discovery," so let no one deceive you into accepting a substitute.

"I beg to state that I have used three bottles of

you into accepting a substitute.

"I beg to state that I have used three bottles of Dr. Pierce's Golden Medical Discovery since my correspondence with you and find great improvement in my case," writes Mr. A. F. Novotny, of New York, N. Y., (Box 1437). "I feel that I am in need of no more medical assistance. When I started to take your medicine I had a regular consumptive cough, of which I was afraid, and every body cautioned and warned me concerning it. I was losing weight rapidly, was very pale and had no appetite whatever. Now my condition is changed entirely. I do not cough at all, have gained eight pounds in weight, have recovered my healthy color, and my appetite is enormous. I can recommend your medicine, as it is a sure cure, no humbug, as are most other patent medicines."

ARRESTED Clever Work of Sheriff

Howell. Convicts and All Around Crooks Taken in by Deputy Howell.

Kelly and Deputy

One of the cleverest arrests that has been made in the county for some time was made at Davis' place, seven miles beyond Shearer's bridge, yesterday morning by Deputy Sheriff Dell Howell, of Antelope, when he, single handed and alone captured Robert Wilson and Hugh Brown, two as tough characters as have been allowed to run at large in this section lately.

Last Saturday Wilson and Brown hired two horses of Mr. Everett, a ivery man at Dufur, pretending that they wanted to go after some horses they had in a pasture near The Dalles In the afternoon Mr. Everett learned that they were going toward Deschutes bridge, and before reaching Nansene had offered to trade one of the horses to James Moore. Mr. Everett notified Sheriff Kelly, by telephone and re quested that he look after the men, who were headed south.

The sheriff at once telephoned to his deputy in Antelope, Dell Howell, to hold himself in readiness to go in pursuit of the horsethieves as soon as they The strangest bird known, so far as its habits are concerned, is the mallee should cross Shearer's bridge, and also telephoned to Mrs. Shearer to notify huge mound, which is really a cooperahim of their arrival there. About six tive incubator, being built by many o'clock in the evening he was notified pairs of birds, and serving to hatch the by Mrs. Shearer shat they had passed eggs of all the hens. Each year the and he at once telephoned Howell to ame flocks repair to the same mounds, come this way and undertake to intersome of which measure 50 yards at the cept them if possible. Howell came to base and are 150 feet in circumference The eggs are deposited about six inches Dead Dog that night, and by daylight below the surface. While each hen lays next morning was on the road. Arrivher eggs in the family mound, no hen ing at Davis' place he found his men drops her egg closer than 20 inches to And after they had eaten their breakthat of her neighbor. These eggs are fast he informed them they were his deposited in a cavity made by them in prisoners. Brown went for his pistol, vertical position, carefully covered, a 32-calibre American bulldog, and and the surface smoothed over by the hen before she quits the nest, says the started to run, but Deputy Howell's 44 presented too threatening an ap-The eggs of the mallee hen are out of pearance and he gave up. Howell had all proportion to her size. They are as only one pair of handcuffs so he put large as those of a goose, and those of them on Brown, who seemed to be the large hens are very much larger.
The eggs thus laid and covered in this great sand oven in the hot districts are never again disturbed by the hens. The eggs are hatched by the heat the sun akes into the soil where they lay. It

Howell, as soon as he was notified, gave chase, but they were out of range of his pistol before he could bring it to bear upon them, and a lively chase took place up the moun-It appears that the smoking of origtain. Mr. Howell overtook them arettes has of late years spread almost about two miles from the bridge, when as rapidly in Persia as in this country, Wilson dropped off his horse and be says the London Mail. Cigarette to gan picking up rocks with which to pacco was first introduced as an acresist the officer, but the 44 that ricultural product into the province of

> Howell again telephoned to the sheriff, and was instructed to hire a team and driver, bandcuff the prisoners togethor, tie their other hands behind their backs and bring them to The Dalles. This Mr. Howell did and arrived here at 12 o'clock last night. Mr. Howell had a description o Wilson and Brown, who are wanted by the Portland police for a number of holdups in that city, and are the men who escaped from the police about ten days ago by jumping out of their boarding house window and were shot at several times while making their

escape. He recognized them when he

found them at Mr. Davis' place and

realized that he was encountering two

desperate characters.

When they were brought to the jail they stoutly denied their identity and when Sheriff Kelly asked them which one was the man who was shot (he having been notified by the Portland chief of police that Wilson was shot in the fracas with the police) they insisted that neither of them was injured, but on examination it was discovered that Wilson had three gunshot wounds on his body, one through the calf of the right leg, one through the fleshy part of his right arm between the houlder and elbow, and one entering the back just below the left shoulder plade and lodging in the point of left shoulder. Dr. Logan was called this morning and removed the bullet from Wilson's shoulder and dressed his other wounds. He said that from appearances the wounds had been inlicted a week or ten days ago, hence it is quite evident Wilson was one of the parties shot by the Portland police while escaping. Another evidence that they are the men wanted in Portland is that when ar ested they had six or seven watches on them which they threw into Deschutes river when Deputy Howell brought them across the bridge. One of the watches was a heavy gold, open face gentleman's watch and another was a small lady's watch either silver or nickel. The

other watches Mr. Howell did not ex-Certainly Sheriff Kelly and Deputy Howell deserve much credit for the effiient work they did in capturing these rooks, as do all the people along the ine who assisted in conveying messages and giving information as to their

Wilson and Brown are both ex-convicts, having been sent from here to the penitentiary for two years each at the November, 1897, term of circuit ourt, they having plead guilty to obbing or attempting to rob a lot of Indians in the suburbs of The Dalles. They were discharged from the pententiary on September 25th last, and since that time until the past few days had been operating in Portland. The police of that city believe they were engeged in a number of holdups and robberies. They are a bad pair, and it Cures Impotency, Night Emissions and is indeed fortunate that they have wasting diseases, all effects of selfbeen intercepted.

FRICTION OF RAILWAY TRAINS A Large Amount of Air Is Dragged Along by the Rapidly Mov-

ing Cars.

Prof. F. E. Nipher has recently measured the frictional effect of moving trains upon the air near them, reports stus consisted of a hemispherical cup. which he could fix at distances up to 30 inches from the window of a railway carriage. The mouth of this collector was turned toward the direction in which the train was moving at the time of observation, and the pressure due to the motion was conveyed to a pressure guage by means of an India rubber tube attached to the back of the collecting cup. The results obtained showed that a large amount of air is dragged along with a rapidly moving train, the motion being also communicated to air many feet away. The air not only possesses sufficient power to cause one to topple over, but it also communicates a spinning motion, tending to roll a person under the train if the nature of the
