#### A Remarkable Accident

A pacific coast paper records the following remarkable accident; "On Saturday, the 18th inst., a 250 pound fragment of a stump that was blown out of the ground with giant powder, near Tacoma, W. T., flew past Mr. F. Frazier, who was witnessing the process from a standpoint 420 feet away. It struck the ground close by him, just grazing him, yet so graet was its force that it tore his clothes from his body, rent his boots so that his feet were left bare, crushing the bones of both feet. Mr. Frazier, who is 60 years of age, was completely paralyzed by the blow, and was insensible for twenty minutes. With the excep-tion of being partially crippled in his feet, he will suffer no serious inconvenience from the accident,"

### A Big Bakery.

A monster bakery is about to be erected in Moscow, which, it is stated, when in working order, will reduce the present price of bread in that city by something like 25 per cent. This enterprise is in the hands of a company disposing of a capital of 400,000 roubles, raised in shares of 1,000 roubles each. The cost of building the necessary premises, together with the requisite steam appliances for the company. is estimated at 250,000 rou-The quantity of bread to be baked daily is set down at 65,000 Rye as well as wheaten bread will be baked and daily dispatched to forty different commodious shops in the city to be sold. "Malaria," as it states, is the cloak wounds itself, which shows that jeal- with which superficial physicians cover More than one han has, astride of to not understand, and do not much his hobby, paraded it up and down, care to investigate. It is also a cover To swear will not help on your When they advise their patient to plans. Fickle appetite, frequent headnones, severe colds cramps, sleeplessing a Hame collar. It prevents chaing and ness, irritability, fired feelings, and positively cures sore necks. It is manufactured by Dexter Curtis, Madison, Wis, reeded in due time by alarming attacks of rheumatism which flits about the body regardless of all human feelings.

It is muscular—in his back. Articular in his joints. Inflammatory, my! Most people are good theorists, but how he fears it will fly to his heart! few profit by theory, and they are the Now off heceoes to the springs. The doctor sends him there, of course, to It seems to be a sort of soothing get well; at the same time he does not really want him to die of his hands!

That would hurt his business! Better for a few days. Returns. After a while neuralgia transfixes hir. irmable; is pale and flabby; has frequent chills and fevers, everything be faithful at present work, so that about him seems to go wrong; becomes "Great heavens!" he cries, "why

bave have you kept me so long in ignorance?" "Because," said she doctor, "I read your fate five years ago. I thought best to keep you comfortable and ignorant of the facts."

He dismisses his doctor, but too late! His fortune has all gone to fees.

But him, what becomes of him? The other day a well known Wall street banker said to me, "it is really astonishing how general Bright's disstring, and know how to produce upon ease is becoming. Two of my personal it its fullest note, than one with a friends are now dying of it. I regret to note that ex-President Arthur is said to be a victim of this terrible disease. He ought to live but the probabilities are that since authorized remedies can not cure him, his physicians will not advise him to save his life, as so many thousands have done, by the use of Warner's safe cure which Gen. Christiansen, at Drexel, Morgan & Co.'s, told me he regarded "as a won-

derful remedy," Well, I suspect the hero of the book cured himself by the same means. The

internal evidence points very strongly to this conclusion. I cannot close my notice of this book better than by quoting his advice to his

readers: "If, my friend, you have such an ex-

perience as I have portrayed, do not put your trust in physicians to the ex-clusion of other remedial agencies. They have no monopoly over disease and I personally know that many of them are so very 'conscientious' that they would far prefer that their patients should go to heaven direct from their powerless hands than that they should be saved to earth by the use of any unauthorized means." And that the author's condemnation

is too true, how many thousands duped, and yet rescued, as he was, can personally testify?

#### The Doctor's Advice.

T. G. met an old friend, who was formerly a prosperous young lumber-man up North, but whose bad habits of drinking resulted as they often do, though he has since reformed and is trying to do better. "How are you?" said T. G. "Pretty well, thank you, but I have just been to a doctor to have him look at my throat." "What's the matter?" "Well, the doctor couldn't give me any encouragement. At least, he couldn't find what I wanted him to find." "What did you expect him to find?" "I saked him to look down my throat for the sawmill and farm that had gone down there." "And did he see anything of it?" "No, but he advised me, if ever I had another mill, to run it by water."

The distinguished U.S. Senator from Indiana, Hon. Daniel W. Voorhees, certifies that in a case of rheumatism in the back, he obtained instantaneous relief from St. Jacobs Oil. He says it is a remarkable remedy.

A Japanese Festival.

The tide of progression has rapidly advanced in Japan, and its women are being emancipated, both socially and domestically. The Tokio Times thus describes a recent festival on the grounds of the Emperor's palace: "Many ladies were present, Japanese and foreign-the former, it was pleasant to note, as completely at their ease and as keen for enjoyment as if participating in a Thames picnic-as several of them had, doubtless, done. Some, indeed, were actually unattended by their husbands, and yet the earth did not heave with indignation nor Fuziyama roar in eruptive protest. The sun shone and the trees nodded approvingly in the light breeze just as if no social marvel were manifesting itself in that an-tique stronghold of tradition and im-

movable routine." "Maleria," as it states, is the cloak with which superficial physicians cover up a multitude of ill feelings which they do not understand, and do not much care to investigate. It is also a cover for such diseases as they cannot cure. When they advise their patient to travel or that he has overworked and needs rest and is probably suffering from malaria, it is a confession of ig-

So man schemes are put before the public for the increase of newspaper circulation, which seem to be plausible and yet are fraudulent, that when a legitimate, honest effort is made to build up the circulation of a legitimate, honest paper, by legitimate, honest means, people who have been so many times duped are very slow to respond to the genuine scheme. We are led to this train of thought by a perusal of the advertisement of The American Rubal Home, of Rochester, N. Y., published in this issue of our paper, to which we call the attention of our readers. We are acquainted with both paper and publishers and take pleasure in recommending it as one of the very best farm and family journals in this country. Billous Complaints are caused by torpidity, congestion, or the ulceration of the liver.

The symptoms are dark, greagy, yellow skin, a brown or whitish coat to the tongers, appetite irregular, often a dry cough at night.

The skin sometimes breaks out into pimples and sores, and the whole system is out of order. Wright's Indian Veggrable Pills are one of the very best remedies known for any form of these troubles, and will certainly relieve the sufferer. They are purely vegetable, made from the best drugs by competent hands, and give satisfaction. They are very gentled in their action, causing no griping or unpleasant feeling to the most delicate.
