CAUSE, PARALYSIS OF THE BRAIN.

Indianapolis, Nov. 25 .- Hon. Thomas A. Hendricks, vice-president of the United States, died very suddenly at his residence in this city, at 4:45 this evening, under circumstances that were particularly distressing to his family and friends, insomuch as they had not anticipated a fatal termination to his brief illness, and nobody was with him when death came. He returned from Chicago last Saturday, and since then had been complaining somewhat of pain in his head and breast, but nothing serious was thought of it. He slept restlessly last night, until about 8 o'clock this morning, when he grose, dressed himself and ate a hearty breakfast, saying he felt much better. Just before noon he had a relapse, however, and the physician was again summoned and administered the usual remedies, besides bleeding the patient, and Mr. Hendricks again expressed himself as being greatly relieved, About 4:30 Mrs. Hendricks, who had been at his bedside all day, went into the parlor to see a caller. Tom, a colored servant, and Harry Morgan, Hendricks's nephew, and a page in Washington, remained with him. The servant went out, and Mr. Morgan stayed with Mr. Hendricks, who tossed uneasily in his bed, and complained of great pain, but suddenly it seemed to cease, and he said to his nephew: "I am free at last. Send for Eliza," (meaning his wife), and those were his list words, for the young | place. man, not realizing the urgency of the message, did not deliver it at once. Just before 5 o'clock Mrs. Hendricks came into the room and found that her husband was dead.

### COUNTY CLERK WILSON.

Bonies the Charges Mate Against Him ty Expert Outhouse,

A PLAIN AND POINTED LETTER

Ep. Scour

The fact that J. T. Outhouse has seen fit to make his report on the financial condition of the county the mediam of a direct attack upon my official character as clerk of this county, is sufficient reason for demanding space in your valuable paper to refute the base charges and inuendoes

To Mr. Rell he gives the credit for the debt statement and the work generally that his appointment called for, the balance of the report he says is his own, and we submit that almost every sentence of it bristles with the malice, spicen and venom of

therein contained.

its author. Facts are perverted and the law misstated, for the sole purpose, it would seem, of getting a lick at the present incumbent of the clerk's office; for

what reason we leave your readers to sur-Suffice it to say that since the county has been cursed with his presence, he has ever been the personal enemy of the democratic inclumbent of the clerk's office. Perhaps much of this part of his report is explained when it is known that he openly asserted that he would dig Wilson's political grave, when he failed to get the deputyship under him. It would seem from this report that the enormous debt of the connty has all been occasioned by the exorbitant and illegal fees charged by the pres ent incumbent of the clerk's office. The first charge of illegal fees is for making assessment rolls and tax lists. He says there is no law for counting each name with the figures opposite, a folio. But unfortunately for Mr. Outhouse, the law and the decisions of the courts of this state say there is law for it, and that gach name with the figures set opposite on an assessment role and tax list shall be counted as a folio. This explains our charges for assessment rolls and tax lists, which are nothing more than a copy of the assessment roll for the road district, and we submit that all of our charges therfor are both within the letter and the spirit of the law, potwithstanding the base assertion of the wonderful expert to the contrary. So in the name of the immortal outhouse, we leave the tax-payers to draw their own conclusions from this portion of the report. Again, we are charged with the offense of charging for filing bills against the county, for which he also says there is no law, in the face of store, and will attend to the wants of the statute to the effect that for any services rendered by an officer of the county where no compensation is provided, such compensation shall be allowed as the court may deem just and reasonable. For this work we make out our bills and present them to County court, they see fit to allow them such compensation as they deem reasonable. In the face of this statute, what right or authority has a man, who is employed by the County court to expert the reaords of the county, to step outside of his duties and charge the County clerk with malfeasance in office for thus demanding a reasonable compensation for his services to the county? Again, he says that we have charged for liquor licenses from \$1, to \$1.00, when we are only entitled to 66% cents. We are entitled to 13% cents for filing petition, 13% cents for filing bond, 13% cents for filing affidavit of

posting notices, 1314 cents for taking affidavit of posting notices, 50 cts for writing affidavit of posting and 66% cents for issuing the license and 40 cents for justification of bond, making a total of \$2.10. In some eases affii lavit of posting and justilication of bond are made outside the clerk's office, which would reduce the fees to about \$1, in case of liquor license, Again, we are accused of charging \$16.00 for issuing 80 warrants, for which he says the legal fee is only \$4.00. This bill was presented and allowed in april last, and was for issueing and abstracting 80 warrants at the statutory fee of 20 cents per. warrant, making \$16.00. The bill perhaps was not so explicit as it might have been was not so explicit as it might have been in stating that it was for both issuing and abstracting. But Mr. Outhouse's attention was called to the fact that the bill was for issuing and abstracting 80 warrants, not that no separate bill had been put in for abstracting the same; and the only reason why he should place this item in hi ine of mens' overcoats, also duck lined sport and comment upon it, is a wilful disposition on his part to pervert the facts to my injury, if possible. And a mar who will thus misstate the facts wilfully for the purpose of injusting an imaginar enemy, is lost to all deconey, and is an ene ny to the best interests of the pu Again, we are accused of charging \$11.73 for abstracting 78 warrants, when he says the legal fee was only \$7.80. See again, the doven fact of the beast. He does not give the date of this bill in order to suppress the truth. The bill was presented and allowed in September, 1884, for work done under the old law, and was for issuing and abstracting 78 warrants, at 15 cents per, war-cant, of which fact, to my personal knowl-edge, he was cognizant of at the time he wrote this report, for I had taken particufar pains to explain the bill to him in per-son. The same explanation and com-ment would show the falsity and unjust-ness of the other items of my illegal charzes referred to in his report; but I deem it innecessary to refer to them Item by item, arther, except as to the item of charging

for cancelling warrants. By this report he would lead the tax-payers of this county to believe that I have been in the habit of charging the county for all warrants cancelled by me, which he knew at the time was absolutely false. On July 25th, 1885, I was occupied the whole day in cancelling warrants, I remarked to the County court hat as there was an extraordinary number of warrants to be cancelled. I ought to be allowed something for it, and I put in a sill of one cent each for cancelling war-cants, which the court allowed. Perhaps this charge was not strictly within the statute, but owing to the extra work occadoned at that time by the cancellation of hese warrants I thought and the court oust have thought the bill eminently just

and proper.
With these comments upon the references of Mr. Outhouse, in his report to my-elf, I leave the public to judge of the mo-tives that have prompted these unjust insinuations against my official character. As to my official conduct, I challenge the the most careful investigation. I may have made mistakes, it would be strange if from my inexperience and youth at the time I entered the clark's office, I did not make a few mistakes, but I venture the assertion that the county is more gainer than loser by these mistakes so far as fees are conwronging the county or the people out of one cent. Yours, etc. B. F. Wilson.
