Most of the passengers and a number of the crew were in bed at the time. The water poured in through the broken vessel and over her bulwarks, putting out the fires in the furnaces, and extinguishing the electric lights.

#### Nebraska's Rapid Growth.

Nebraska happily escaped those civil and anti-bellum strifes that stained the soil of "bleeding Kansas," so red with blood, that, like the hand of Macbeth, it might, "the multitudinous seas incarnadine, making the green one red." The history of the sister state has been one of peace and prosperity, and her annals contain no such records of violence and crime as in carlier days gave an unenviable notoriety to the land for which pro-slavery and anti-slavery men contended. Though next to the baby state, Colorado, in point of age, having only been admitted to the Union in 1867, Nebraska has already outstripped in population many of the older states, and if the next census returns don't require seven figures to show the number inhabitants she will be as disapof h pointed as was St. Louis when Chicago took a big jump ahead of her and crossed the half million line.

After all, however, the greatness of a State or city does not consist in the number of her residents but in her enterprise and intelligence, and Nebraska stands this test also. She claims as thrifty and brainy a population as any State possesses, and ome recent evidences of popular feeling upon certain important issues of the day tend to support this view. New ideas have been heartily welcomed and merit has re-ceived its due. This will help to explain why Athlophoros, which has been so successful as a cure for rheumatism and neuralgia in more Eastern States, is now meet ng with such favor as it makes its way Westward over the prairies.

Miles Finlan, of Tuckersville, Neb., says: "After using two bottles" of Athlophoros I was enabled to rise from my bed, to which I had been confined for four months. I have not had an atttack since, and it is the ongest relief I have found from that dread disease, cheumatism, for nineteen years. I still have two bottles left that I keep in case I should be again attacked."

I have also recommended it to several other persons.

Some fourteen months ago," says A. Hayward, of Burlington, Ia., "I was at-tacked with inflammatory rheumatism. I tried a dozen different kinds of medicine said to cure rheumatism, but to no purpose. Finally, I procured a bottle of Athlophoros. After using the bottle it did me so much good that I bought another, but did not have to use more than a third of the second bottle before I was entirely cured. From that time up to the present I have never had anything like rheumatic pains, and I thank A\*blophoros for the cure.
