THE WEEKLY OREGON SCOUT. IMPORTANT TO SETTLERS.

UNION. OLEGON, SAT. MAY 1, 1886. -COUNTY POLINICS.

The republicans have placed their candidates in the arena, and, taking them as a whole, have made a very the fitness and qualifications of most of the candidates, but in in the manner of distributing them throughout the various sections of the county. each part being very judiciously represeated. As the democrats did, and as all assemblages of the kind may be expected to do, they nominated, for several of the minor offices, men of narrow views and small calibre, who are utterly unfit for the position, but as these happen to be opposing candidates to dittoes on the other side, we do not feel called upon to waste time or thought upon them, but will endeavor, in 'casting our vote, to tained. choose the least of two evils. We are glad, however, that the more important offices of the county will be filled with good and competent men in the event of the success of either pacty. The office of county judge is the one in which the people are more directly interested than any other, and the afficted. I am now nearly 30 years old, we believe that Litcheuthaler or Goodall will fill it acceptably. The commissioners come next in importance, but as we know nothing about either of them, we are unable at this writing to give an opinion as to their merits. We shall place ourselves in communication with them, however, and will endeavor to ascertain their views on titles to the lands they have honestly various subjects of interest to the Taxpayers, and will acquaint our readers with the sum and substance of the earned. We expect another howl of same. It is to be hoped that they are men of a different stamp from our present commissioners, whose superabundant stupidity has prevented any progress being made during the past two years. Union county has magnificent resources, and is possessed of all the essential requirements of financial success. All that is needed to develop and build us up to a prosperous condition is intelligent action on the part of our commissioners, and we hope the voters of Union county will pay more attention to these than they have been in the habit of doing. and from among the candidates select the men best fitted for the position,

regardless of their politics.

Washington, D. C. March 30 1886. To Registers and Receivers, U.S. Laud Office, Gentlemen :- Hereafter the following rules will be observed in making final proof in pre emption and commuted homestead cases:

The entire final proof, including the final affidavit of the claimant his testimony, and the testimony of good selection-not only in regard to his witnesses, shall be taken before the officer designated in the published notice of intention to make final proof and at the time therein named.

Such final proof shall be taken only before the following officers. The register or receiver of the proper land district, or the clerk of the county court, or of any court of record. of any county and State or district and Territory, in which the land is situated, or before such clerk in some adjacent county, in case the land lies in an unorganized county.

3. Cases wherein notice of intention to make final proof shall have been given under the former practice prior to the promulgation of this circular, shall be in no manner affected by the regulations herein con-

> WM. A. J. SPARKS. Commissioner.

Forest Grove, Gregon, I hereby certify that I have used the One-GOS KIDNEY TEX, and obtained immediate relief. It is God's blessing to humancame to Oregon in 1812 in the employ of the hudson Bay Company, and since 1 begun using the Oregon Kidney Tea. I enjoy good health, DAVID MUSHOE.

THE railroad companies, in order to evade taxes in many States, have never taken their land grants out of the Government's hands. Mr. Sparks is forcing the railroads to take earned, and while settling with them, Sparks discovered that all of them claim more land than they have indignation. We will hear a great deal now about the poor settler, etc.

It is safe to say that not one-fourth part of the voters of Multnomah county will vote, this year, what politicians call a "straight ticket." In a few days the democratic ticket will be presented; and then, with all the tickets before him the voter will begin to deliberate, with a view to making his own nominations. Thousands of voters will hold a convention, each for himself, and the bosses will not be present to "set it up" on them.-[Oregonian.

North Powder,

average country newspaper is looked upon by a great majority of the people, as a kind of necessary nuisance an institution which they readily admit is of considerable benefit, but to which they do not feel inclined to lend any great support-financially. When it comes to soliciting merchants and business men to advertise, is this feeling more manifest than ever Yes, they would like to advertise and support the paper-they would like to have their business known, but they don't really know whether it would be worth the money they would have to pay, or not. They are doubtful neighboring organs. At times, symptoms of and have misgivings, and are afraid indigestion are present, flatulency, uneasythey might lose, etc. etc., etc., and generally wind up by giving the information, with a groan, that they "will see about it." Now there is a cause for all this, and it is to be found in the very averge headpiece of the very average editor of the average country paper. Nine out of ten of them will listen to the idiotic utterances of the above mentioned "business man'' and by way of making reparation, for having burt his feelings, will go and give him a big "puff" and perhaps insert a "dead ad'' for a few months, free of charge, the thought having entered his muddled brains, and warmed up his generally empty maw, that by so doing he is acting the part of wisdom -gaining the good will of the people -and laying the foundation to future prosperity. The sooner such men starve out, and give place to others who not only "know how to write," but are capable of running a business on business principles, the better it will be for the fraternity at large. It is the duty of every man connected with the press to uphold the dignity of the profession on every occasion, and to keep before his mind the cash value of the benefits he is able to confer, the worth of his advertising columns, and to exact payment for every line inserted there-Thus only can the people generally, and particularly advertisers be brought to a proper knowledge of the value of what they receive, and newspaper men be properly recognized, and receive the benefits they deserve. The above suggestions are entirely gratuitous, but may be taken home with good maults by a number of papers in this county and state. Though their advertising columns may not appear so plethoric as they might be for a time, in the long run the result will be increased influence. money and respect. The Scour, at nst, will sink or swim on this tack, and what it advertises of any man's usiness for nothing, could be put a a squint eyed man's optic without wrting it.
