

TO ADVERTISERS.

The SCOUT has a much larger circulation than any paper in this section of the state, and is, therefore, the BEST ADVERTISING MEDIUM.

Brief Bulletins.

There will soon be a demand for ice beverages. Joe Wright is selling squirrel traps for \$2.50 a dozen. The patent hay ricker and rake is being well observed.

Billiard table for sale cheap. Enquire at this office. Grande Ronde valley presents a beautiful appearance now.

A new assortment of ladies dress goods just received at Saunders'. Howland & Lloyd are putting up an addition to Miles Beard's residence.

Several families passed through Union, this week, en route for Harney valley. The political atmosphere is not charged with electricity, to any great extent.

Put up awnings in front of your places of business, and make things pleasant. Bona.—In this city, Wednesday, May 22nd., to the wife of S. O. Swackhamer, a son.

There will be two non judicial days this term of court. Decoration, and election day. Dr. Strange returned from his trip to Wallowa, last Tuesday, and is now to be found in his office.

We forgot to mention, last week, that Howland & Lloyd were the builders of Mr. Summers' fence. This office acknowledges a pleasant call from Mr. D. D. Fagan, general traveling agent for the West Shore.

Several communications received too late for this issue. Correspondents should send in their communications earlier. The owners of the Whitman offer \$150 an acre, to have ten acres of land, adjoining their mine, cleared of timber.

Fruit trees are not so much injured by the recent frosts, as was expected, and the yield will probably supply the demand. Every farmer should take a look at those hay rickers on exhibition by Mr. Morr. It is a machine every farmer needs.

N. H. Orgreen conducted his own side of the case, in the case of W. B. Campbell vs N. H. Orgreen, and did remarkably well. Buy one of those fine Wheeler & Wilson sewing machines of J. E. Tuttle, office back of the State Land office. No trouble to show them.

The gentlemen of Union have a yellow striped appearance, during the rage of I don't know what you call them, but they are quite nobby. The Republican Central Committee, last Saturday, nominated Wm. T. Burdette of Cornucopia, to fill the vacancy occasioned by the resignation of Rand.

A brother of Louie Corbett arrived here, this week, from Cambridge, Ohio. He will probably establish a cigar factory somewhere in Union county, soon. The article on Union county, to be found on our editorial page is from the pen of Prof. Tuttle, who has our thanks for valuable assistance in getting out the two last issues.

L. J. Rouse, candidate for county clerk, is foreman of the grand jury. We hourly expect to hear that several of the opposing candidates have been indicted for political bribery. If Marshal Cates would take an occasional walk over in North Union, and look a little after the stray hogs, the people of that section would be less annoyed, and he might replenish his funds somewhat.

Attorney Holman, of Baker, has a new pipe racket. He can smoke an ordinary pipe without any tobacco in it, and make the smoke roll out voluminously. For ways that are dark and tricks that are vain, the average lawyer is peculiar. The ball given by the I. O. O. F. last night in their hall in this city, was largely attended, nearly every section of the county being represented. It was a splendid affair, and we believe was a source of unalloyed enjoyment to everyone in attendance.

Mr. Samson, an English stock dealer, shipped from this place forty head of horses, and four mules, on Saturday last, and on Monday shipped twelve hundred head of cattle, purchased of Mr. Shirley. He will take them by rail to Helena, Montana, and drive them from there to Canada. The Union baseball club went to Baker city, last Sunday, and played a match game with the Baker boys. They were, as usual, badly beaten, but had a good time, and are lavish in their praise of the manner in which they were entertained, and the courtesies extended to them. Should the Baker boys see fit to return the visit at any time, they will meet with a hearty welcome.

The road meeting which was called by order of the Board of the Pine creek road, was an entire failure, as far as the presence of subscribers and other citizens were concerned, except a few who went to the court house, but found the door locked. This was unfortunate, for it was necessary that important business should have been transacted. It was at least very annoying to the Board.

And our cry is water, water.

Republican speaking to-night. Immigrants are beginning to arrive. Court is grinding out justice slowly. We vote one week from next Monday.

Smoke the "Conqueror," at Jones Bro's. The canvass has commenced in earnest. Decoration day the last day of this month.

Shaw & McLeod are pushing work rapidly on the Pine creek road. All kinds of paints, oils, glass and brushes at the Cove drug store.

Mitchell's Kidney Plaster for sale at Wright's drug store. Try it. Union presents a lovely appearance this week. Courting you know.

Don't forget the road meeting next Monday evening at Wright's hall. Efforts are being made to organize a Mechanics Union at La Grande.

There will be preaching at the Presbyterian church, Sunday, at 11 o'clock A. M. Smith & Hale have a Seven mile railroad contract, over in the Spokane county.

The Fourth of July celebration committees are hard at work. We may expect a good time. The Teachers institute, for the sixth judicial district, will be held in Pendleton on the 27th, 28th, 29th and 30th of December.

There are a great many cases on the docket at this term of court. More, probably than will be disposed of. The usual number of grass widows will be made.

Lo, the poor Redman of the forest, has been in town, during the week, with his band of poises which he was disposed to part with for cash or the "skootum" fire water.

We do not wish to go back to the time of freight wagons, but it really looks home-like to see the great six and eight horse teams, with their mammoth wagons, passing through our streets.

Mrs. Malson's little girl while swinging, last Sunday, was thrown from the swing, and knocked senseless. Dr. Cromwell was sent for and succeeded in bringing her to in the course of a half hour.

Jesse Alberson, who came down from Pine Creek last Wednesday, says that Cornucopia is building up rapidly, and predicts that within three weeks it will be the largest town in Union county.

The jurymen, on service, attorneys, and officers of the court were served with fans, with which to cool their noble brows. If anyone in God's great universe should have any luxury given them, it certainly is those who have to attend the tribunals of justice, during hot weather.

Dr. Capps, of Albany, has permanently located in this city, and opened an office adjoining Jones Bro's store, where he may be found at all times ready to attend to those desiring his services. The doctor comes well recommended. Read his card, which appears in another column.

Mr. J. F. Hall, father of the Hall Bros. of this city, accompanied by his daughter, arrived here from California, Thursday last, on a visit to the boys. Mr. Hall will return to California in a few weeks, but it is the intention of Miss Hall to remain here permanently. She will probably be employed as assistant in the postoffice.

The republican county committee has made arrangements for "public speaking" at Cornucopia, Sparta, North Powder and La Grande. Union is left out, and our people will not be permitted to listen to the words of wisdom and patriotism which are liable to be heard at the speaking. We feel sad whenever we think of it.

We are in receipt of an extremely well written, and pointed letter from Joseph, concerning political matters, and the action of various candidates, which on the whole meets with our approval, but as we are not taking part in this campaign, to any considerable extent, the writer will excuse us for its non appearance in the SCOUT.

We learn that Mr. Bennett, road overseer of Indian valley precinct, got into a dispute with one of the workmen by the name of Legore, on Saturday last, and while lying on the ground was assaulted and kicked in the face in a most brutal manner. His injuries are extremely painful. Legore lit out and has not been heard of since.

The scribe of the Sentinel was misinformed, when he stated, recently, that a dance was given at the residence of Miss Miller, in this city. The party alluded to, was a social gathering of the friends of Miss Miller, and no dancing was indulged in. As the lady is very much opposed to the Terpsichorean art, she requests us to make the above correction.

Sylvester Penoyer, democratic nominee for Governor, and N. L. Butler, nominee for congress, addressed a large audience at the court house, last Thursday evening, and were listened to with marked attention. Both these men seem to be conscientious, and no doubt would serve the people acceptably in the position to which they aspire.

Frank Bro's Implement Co. have on hand a full line of Farm Machinery and Implements, at Island City, which was received under the cut rates on freight, thus enabling them to give much lower prices than ever before. Full line of extras, for their line of goods, always on hand, and every implement or piece of machinery fully guaranteed. Give them a call before purchasing.

Pine Creek Mines.

A gentleman who just arrived in our city a few days since, states in answer to an inquiry as to what was going on in the Pine Creek District, and as to the richness of the mines, says that the wealth of the camp is an assured fact. As fast as the snow disappears, the owners of the mines commence active development and are working night and day to show up their discoveries. In that respect, the Whitman mine is steadily progressing with the most flattering prospects. Mr. Love, manager of operations, is very sanguine as to the result of future explorations. A very rich body of ore was struck on the south end of the "Whitman," claim a few days before the gentleman left the camp. It is really the extension of the "Whitman" lead, but outside of its boundaries. "The Allen & Cox" mine is being pushed forward to active development, and fully last week and exceedingly rich strike was made. All the prominent mines in the camp, of which so much was said last fall in their praise, are keeping up their reputation even better than at that time. As development progresses the leads show more conclusively their permanence, widening out and as rich as ever. A great many mining men are in the camp awaiting developments with a view of buying or buying many of the claims. The snow yet lingers in places, but a few more days will see the whole district will be on the high road to progress and prosperity.—Sage Brush.

What are You Going to do?

A meeting was called by the Pine creek road commissioners, to take place on Monday evening last, at which, it was stated, important business would be transacted and a full attendance of all those interested in the road, was requested. The time arrived, and the commissioners repaired to the hall, but not another man made his appearance. Now, we say, that the road is not completed by any means, and the amount already subscribed is about exhausted. If the citizens of this city and valley desire to connect themselves with that portion of the road now being laid by state, and which will be finished in a few weeks, they will have to wake up and take some action in the matter. The commissioners, and especially Mr. Carroll, who deserves great credit for what he has done and is willing to do, feeling that to drop the work at this stage of the game, have called another meeting to take place at Wright's hall next Monday evening at half past seven o'clock, and if it is the desire of our citizens to have the work continue, it will be their duty to attend, and should they think they have got enough road, they can stay away and the work will be suspended.

A. T. Nell.

We acknowledge a pleasant visit from Mr. A. T. Nell, democratic nominee for county clerk, with whom we had a long talk on matters political, social and domestic. We are ever ready to give credit where credit is due, and candor compels us to say that our preconceived notions of this gentleman, and the ideas which we believe are entertained of him by many in this section of the county, are entirely erroneous. Instead of being a reserved, exclusive snob, we found him to be a plain, modest, and unassuming gentleman, whose career has been a hard struggle against adversity. His honesty, integrity, and eminent fitness for the position he aspires to, is not denied by any of his political opponents, and we cannot help but think that it will become any of his democratic brothers, who may have thought of doing so, to refuse him their support, on account of their displeasure at the actions of older and less conscientious members of the party. We do not believe they would do so if they were acquainted with this man, and should the words we have spoken serve in any degree, to set him right in the minds of our readers, he is entirely welcome to them.

Wallawa Mines.

We were shown this week, by Mr. M. E. Legore, of Wallowa, some extremely rich specimens of ore taken from the "Little Giant" and "Pine Leaf" mines, which are situated about three miles south of Joseph. Various assays have been made, and those from the former runs from \$25. to \$50. to the ton, and the latter from \$25. to \$50. to the ton, and the snow has been too deep for much work to be done on the mines as yet, but operations will commence now that the snow is about all gone, and the mines will be developed as rapidly as possible. Other locations in the Wallawa region are to be extremely rich, and in all probability there will be almost as much of a boom there this summer, as in the Pine creek region.

Hard Questions.

Ma. Editor.—Please tell us, the riff raff, what is Jim Turner, of Unamilla county, doing over here at this term of court? We used to know "old Jim," years ago, and it strikes us as very peculiar that he is here now at the time an election for Judge is on the tapis. There are a number of men here, here of so many fights, etc. Please let "Jim" tell us where he was, in the fight of Byars' mill, at Pendleton. Jim, don't compel us to tell your record.

Do You Know Me.

Eagle Creek Lumber Mines. From Mr. John Denney, who is just down from Pine and Eagle valleys, we learn that there is considerable excitement over recent discoveries of placer mines on Eagle creek, near the new bridge, and that quite a number have went in and located claims, and are now at work, getting in many places 50 cts. to the pan. The mountain streams will be thoroughly prospected in the next few months, and doubtless numerous other placers of value will be discovered.

Fire at Evening.

Weston, Or. May 27.—Last evening at 9 o'clock the Weston flouring mill, owned by Praelstrel Bros, was discovered to be on fire, and was burned to the ground, together with two large warehouses adjoining, filled with flour ready for market. Several hundred cords of wood was also destroyed. Estimated loss, \$30,000 to \$35,000; insurance, \$7,500. Evidently the work of an incendiary, as there had been no fire in the mill for a week. W. R.

Gold Bricks.

Tuesday last Dunham Wright brought down from Clough & Duncan's mine, and deposited in the First National Bank, three enormous gold bricks, weighing 22 1/2 ounces, amounting to nearly \$4,000. The clean up was the result of 2 1/2 days work, and we presume is about the usual yield from that mine. There are other mines equally as good in the adjacent mountains, waiting to be brought to light by the skillful prospector.

Read Meeting.

A general meeting of the citizens, and especially the subscribers to the Union and Pine Creek Wagon Road, is called to take place at Wright's hall, next Monday evening at 7:30 o'clock, for the purpose of electing two commissioners and transacting business of vital importance. Everybody is requested to be in attendance.

The coyote which I saw go into a hole, and which was captured after much labor, proved to be a badger. Never mind, I am just from the east.—Frank. The "Scout's" Park correspondent says that Walter South killed a deer, recently. If the grand jury were so disposed, Mr. S.'s fun might be assessed at \$300, and six months imprisonment.
