

At present the proportion of men who are non-producers and drones is fully one-fourth; the other three-fourths have not only to maintain those dependent upon them, but also the non-producers and all those dependent upon them. Therefore, it follows that the non-producers receive about as much as all the producers.

FRANK C. BAKER, of Multnomah county, candidate for State printer on the republican ticket, was visiting his many friends in Union county, this week. We acknowledge a pleasant call. Mr. Baker is a pleasant, affable gentleman, and is possessed of all the qualifications requisite in a State printer. As he was formerly a resident of this place, and well liked by every one, he will doubtless receive many votes, regardless of party affiliations.

We were very much pleased to note the interest manifested by our business men at the road meeting, last Monday evening. By a united and intelligent effort, almost any object may be attained, and it remains for the business men of any community to take the lead in all movements of this kind. In doing so they will never fail to receive the aid and cooperation of the people at large, and important and beneficial ends will thus be secured, which otherwise would have failed.

ONE section of the law by which the election next Monday is to be governed, is to the effect that "In all incorporated cities and towns, no person shall approach or stand within one hundred feet of the polls when opened for the purpose of receiving votes, and but one elector shall be permitted to approach the polls within one hundred feet at the same time." These idiotic provisions of the law will, in all probability, be disregarded, as it will be a matter of impossibility to comply with them unless the place of voting is located out in the suburbs of the town, somewhere.

MONDAY next, the voters of Union county will be called upon to select their State and county officers, and it is to be hoped they will do so intelligently, according to their judgement of the fitness of the various candidates, and the best interests of the country at large, unbiased by personal feeling, or a mistaken loyalty to party, or self-constituted party-leaders. The contest will be a very close and hard one, and it is impossible at this time to foretell, with any degree of accuracy, the result, but it will, in all probability be a survival of the fittest, in which case we will have occasion to rejoice.

An interesting phase of the industrial question now agitating the country is the growth of sentiment in favor of preventing further immigration. Several newspapers have advocated the adoption of this policy. The outbreak of the anarchists and the revelations made concerning the importation of laboring men to Pennsylvania, seem to have inspired a good many people, foreign born as well as native, that perhaps the country is choked and needs a little time to absorb its present foreign population. It will be instructive to watch the spread of this feeling.

SENATOR DOLPH'S Wagon Road Land Grant forfeiture bill passed the Senate on the 21st. The Attorney General is directed by the bill to bring suit against all persons claiming to own any part of the Eugene City, Dalles, or Albany Wagon Road land grants. This action will no doubt involve a large amount of litigation and end in the restoration of a very large body of land to the public domain, which has been withheld from settlement for many years, to the great detriment of the several counties through which these fraudulent wagon road land grants are located.

Now that the Cullum Interstate commerce bill has passed the senate it may be relied upon to pass the house and become a law. It must be admitted that there is a strong public sentiment in support of the measure or it would never have passed the senate. This fact will have its weight in inducing the president to give his assent to the measure if he is not already favorable to it. It will be the first experiment of the government in an attempt to regulate railroad transportation, and the results will be watched with interest. If the provisions are strictly enforced it will produce a revolution in the transportation business of the country. But whether or not the change produced by it will be a public benefit remains to be tested. There are so many ways of whipping the devil around the stump that it is not altogether impossible that the measure may be perverted so as to be of more benefit to the railroads than to the shippers. At all events the people are likely to have a chance to test its merits and prove to their satisfaction what benefits are to be derived from it.

Tamar Treatment Prescribed by the Leading Physicians. Read What They say: St. Louis, Mo., Feb. 10, 1880.

"For more than three years I have used TAMAR TREATMENT with the best results. I recall now several cases of seminal weakness and debility with all its evil consequences I have treated during the past year, which have been cured by the use of the TREATMENT, and several of these cases were in the last stages. The composition of the different medicines contained in the TREATMENT indicate, and its effects prove it to be a specific restorative of nerve and sexual power. You are at liberty to use my letter in any way that will contribute to your pleasure or profit. There are so many nearly worthless proprietary medicines of this kind on the market that every day is adding to their number that when one is found to be necessary for over one month's treatment, with full and complete instructions how to exercise, diet, bath, etc.; price, TAMAR TREATMENT, per package \$2.00; three packages \$5.00; sent prepaid and securely sealed on receipt of price.
