

GERONIMO IS OUT OF THE WAY.

But Now Come Rumors of Indian Troubles Outside of Arizona.

Washington special: Nothing is known at the war department or Indian bureau of the alleged outbreak of trouble between the Indians on the Great Blackfoot reservation, in southern Montana, of which rumors and specific accounts have reached the western press.

Assistant Adjutant General Kelton said yesterday: "We have three regiments of infantry and two of cavalry about the reservation, and I think if any outbreak were to occur it could be handled without any great difficulty."

It is believed at the war department that the capture of Geronimo has practically put an end to Indian hostilities in that country.

General O. O. Howard, commander of a division of the Pacific, received a dispatch from Lieutenant General Sheridan to-day directing that the Apache and Warm Spring tribes be sent immediately to Fort Marion, Fla., with the exception of Geronimo and other Apaches recently captured.

GERONIMO ORDERED HELD.

San Francisco dispatch: General O. O. Howard, commander of a division of the Pacific, received a dispatch from Lieutenant General Sheridan to-day directing that the Apache and Warm Spring tribes be sent immediately to Fort Marion, Fla., with the exception of Geronimo and other Apaches recently captured.

LEARNING LESSONS FROM AMERICA.

A Graceful Acknowledgment from the Pen of an Englishman. London special: I found on Saturday night and yesterday at the clubs and gossip-resorts but small interest felt in the results of the yacht races.

SUCCESS THAT IS PLEASING. Washington dispatch: The treasury officials are pleased with the success that has thus far attended their invitations to holders of 3 per cent bonds to surrender them for redemption.

At least 30,000 more people are dependent upon the success of the above mentioned bonds, which make a total of 65,000 people who are to-day destitute and will be directly dependent upon the government for subsistence during the fall and winter.

IMPORTANT TO MANY FARMERS.

Disregard of the Atlantic and Pacific for an Act of Congress.

Washington special: A decision by the commissioner of the general land office is made public which may prove of very great importance to many farmers in the west.

The decision of the land office is to the effect that patents for the odd numbered sections in the direct vision route of law, and are therefore void. Upon this ground the claim of Mr. Rogers is sustained.

THE NAVY DEPARTMENT.

A Circular Respecting Designs for New War Vessels. Washington dispatch: A circular to naval architects has been issued by the navy department respecting the designs advertised last week for two armored vessels of about 6,000 tons displacement.

THE FASHIONING FISHERMEN.

Thousands of People in a Destitute Condition. HALIFAX, N. S., Sept. 12.—Alfred B. Morrins, member of the Newfoundland legislature for Bonaville, now here, says the Labrador fisheries are an entire failure.

MEXICO'S NEW LAWS.

The Report Received From Consul General Sutton.

WASHINGTON, D. C., Sept. 14.—A report has been received at the state department from Consul General Sutton at Matamoros embodying a translation of the new law promulgated July 7, relating to the rights of foreigners.

Foreigners shall enjoy all the civil rights reserved to the citizenry of the United States in the same manner and on the same conditions as the citizens of the United States.

MATTERS IN THE OLD WORLD.

Dilke has returned to London and it is announced that he will re-enter public life as proprietor and editor of a London newspaper.

The Pall Mall Gazette is indignant at Sir Charles Dillie's harshness and publishes an article calling upon the queen to vindicate the purity of English homes and the sanctity of the judicial oath.

The cholera is gaining ground in Austria. It is the worst at Lie, a village near Agram, of nine hundred inhabitants in the village, ninety have been stricken down.

"I AM FEELING WORSE."

New York special: Ferdinand Ward was asked at Sing Sing prison about the letter he had written to President Cleveland, giving reasons why James D. Fish should not be pardoned.

THE ISSUE OF MINOR COINS.

Washington dispatch: The director of the mint has issued the following circular in regard to the issue of minor coins: Five cent nickel pieces and one-cent bronze pieces will be forwarded in the order of application from the mint at Philadelphia to points reached by the Adams Express company free of transportation charges.

CORN IN WESTERN STATES.

Indications that the Yield Will Exceed Expectations.

Chicago dispatch: The following crop summary will appear in this week's issue of the Farmer's Review: The corn crop had a week of hot and crowding weather, and the majority of reports received at the close of the past week indicate that the corn crop is well past any serious danger of frost.

In twenty counties of Iowa the general average ranges from 53 to 63 per cent. In Iowa and Carroll counties reports show the crop to be about 100 per cent.

Reports continue to indicate that early planting has produced a heavy yield, while nearly all the late planted potatoes are very poor, indicating generally less than one-fourth the usual yield.

UNION JACK HISTORY.

We are all familiar with the white, blue, and red ensign, and with the union jack which occupies the upper quarter.

Curious Points About the Banner of Great Britain and Ireland.

It was first used by the white, blue, and red ensigns, and with the union jack which occupied the upper quarter.

ADVANTAGES OF POLITICS.

Politics is a career which is at least free from that drudgery of the professions and the anxieties and failures of trade.

WAB PREPARATIONS.

London dispatch: Great excitement has been caused at Chatham by the unexpected receipt of urgent orders from the admiral to expedite the completion of the man-of-war.

BIG FEES.

Eminent English Doctors Whose Incomes Are Enormous—Gladstone's Physician.

"Do London doctors earn more than queen's counsel?" As a rule they do not, writes a London correspondent of The Philadelphia Press but the incomes of the three leading physicians, and those of the three leading lawyers are about equal.

Speaking of fees, there is a tale told of a rich colonial gentleman living in Kent who had the misfortune to take a slight cold.

"I suppose," suggested the local practitioner, "you will pay Gull what you paid Jenner—£75?"

Gull picked up the night-cap, and, cooling down in his brougham, he commenced to rip up the lining.

"You must go to Nice, my lord." "Oh, I can't go to Nice; I'm too busy."

"It must be either Nice or heaven," was the doctor's retort.

Politics is a career which is at least free from that drudgery of the professions and the anxieties and failures of trade.

ADVANTAGES OF POLITICS.

Politics is a career which is at least free from that drudgery of the professions and the anxieties and failures of trade.

EQUAL TO THE EMERGENCY.

Bob Ingersoll recently was talking with an old colored woman in Washington upon religious matters.

HOUSEHOLD HINTS.

Plain Pudding—Two eggs, one cup of sweet milk, one pint of flour, two tablespoonfuls each of melted butter and sugar.

Sweet Potato Pie—When the potatoes are dry and nicely, take a quart after they have been parboiled, boiled and mashed; a quart of milk, four eggs, salt, nutmeg, cinnamon and sugar to taste.

Excellent soft gingerbread is made of 1 cup of sugar, 1 cup of butter, 1 cup of sour cream, 1 cup of New Orleans molasses, 4 cups of sifted flour, 1 tablespoonful of soda dissolved in a little hot water, 1 tablespoonful of ginger, 3 well beaten eggs, the rind grated of 1 lemon. Raisins if wanted.

To Use Canned Salmon—One can of fish rubbed into four tablespoonfuls of melted butter, add four well beaten eggs, one-half cupful of fine bread or cracker crumbs, pepper, salt and minced parsley. Put into a pudding mold (after thoroughly heating together), boil or steam an hour.

Cabbage Salad—Two cabbages chopped fine; sprinkle with salt; let stand overnight. One pint vinegar, half cup of ground mustard, three eggs. Beat eggs thoroughly and add to boiling vinegar; pepper and salt to taste; let all come to a boil. Pour over cabbage and stir thoroughly together.

Fish and Rice—"Pick up" and bake cold fish, be it either salt or fresh. Season and heat in a stew pan with a piece of butter the size of an egg.

To Prepare Corn—Cut off the kernels from six large ears of corn. Boil until tender in salted water, about twenty minutes. Drain and then put in a saucepan with a cup of milk, into which a tablespoonful of cornstarch has been smoothly mixed, add two beaten eggs. Cook until the cornstarch is done, and serve.

A pretty pudding is made by putting bread crumbs of cake crumbs in a buttered mold and sticking among them at intervals either preserved cherries or peaches, or bits of citron or orange. Then pour a plain custard of eggs and milk into the mold, cover with a bit of buttered paper or stiff pasteboard and bake.

Pum Jam—Let your fruit be dry and free from leaves and stalk. Take equal quantities of plums and sugar, put into a clean vessel and boil one hour, stirring it thoroughly. Damsons prepared the same way are very good. Care must be taken when cold to cover all preserves closely and stand in a cool dry place.

Egg drinks are popularly advertised in many tempting mixtures and decoctions at the confectioners', the restaurants and the soda water shops, but it is not generally known that the well kept white of an egg, added to any of the cooling fruit drinks (not to tea) makes them more ready absorbed into the system, doing their refreshing work more quickly.

Browned Butter—Put one-quarter of a pound of butter into a fryingpan over a clear fire; when the butter smokes, have ready and throw into it, one tablespoonful of minced parsley, three tablespoonfuls of vinegar, salt and pepper and simmer one minute longer. Most excellent upon fish either salt or fresh, or as a sauce for clams, quahaugs, lobster, scallops or oysters.

To Pickle Peas and Peaches—Select medium-sized peas and smooth freestone peaches; stick them full of cloves. Boil seven pounds of sugar with one gallon of vinegar, an ounce of mace and an ounce of allspice. When it boils put in the fruit and let it cook till a straw will pierce it. Remove the fruit with a skimmer and boil the syrup down for a few minutes; then pour it over the fruit. Cover close.

A very simple way to fill in the yawning space of an open fireplace is to tear four yards of very coarse unbleached muslin into half yard lengths, and ravel it. When all done, fill your grate with paper and put the ravelings all over and up to the fender. Get three moderate sized white fans. Tie these together in center, letting each of the three be seen. Fasten a variety of the little Japanese insects—loads, beetles, &c.—all over the fans, then put these in the center of the fender or before the grate.

EQUAL TO THE EMERGENCY.
