

### "Should Critics Be Gentle?"

Mr. Fawcett in the last number of *Lippincott* asks the question, "Should critics be gentlemen?" and in his reply attempts to prove not only that the critic should be a gentleman, but that, being a gentleman, he cannot be a critic. He holds that neither author, publisher, nor reader reaps any benefit from the ubiquitous book reviewer, and thinks the time will shortly be when Othello's occupation will be gone. But even while he rails he cannot resist the temptation of usurping that gentleman's function and criticizing the critic. There is much of merited severity in Mr. Fawcett's somewhat florid tirade, and while we cannot agree with him that the remedy lies in the total annihilation of the critic, for that would be to annihilate the human race, we give a fervent amen to the original proposition that only gentlemen should be critics. The *Lounger*, in the *Critic*, after ridiculing Miss Cleveland's poem, "The Dilemma," at some length, says: "I hope Mr. Fawcett won't read what I have just written. Such words about the work of a lady would go far to confirm his low opinion of the irritable and ungovernable race of critics whom he scathes in the same magazine in which 'The Dilemma' appears. Mr. Fawcett is very amusing when he is angry; now and then he is amusing even when he keeps his temper; the only time you can depend on his not being amusing, is when he tries to be. He takes life very seriously, and nothing in life so serious as himself, his verses, and his stories. A review not altogether laudable sets his teeth on edge and sends a cold shiver down his back; a really severe notice of his work offends him beyond the limits of endurance." This is the sort of criticism against which all persons with the instinct of fair play protest. Ridicule is not argument, nor is it criticism. A critic should be honest, and, therefore, it cannot be at all times favorable, but surely it need not descend to rudeness and injustice. No man or woman who is capable of doing good should object to sincere though adverse criticism but all rebellion when the reviewer's pen is wielded only to point a witless smile, and mangle the tale. Miss Cleveland has suffered much from this so-called criticism. While the fact that she is a woman and the sister of the man whom our nation most delights to honor should not entitle her to more generous treatment at our hands, it certainly should not preclude her from fair and courteous treatment. If her work is bad, she has no right to expect fulsome praise, but she has a right to expect that the manner of the adverse criticism shall be dignified and gentlemanly. A man whose personality is hidden behind a reviewer's mask has no more right to address Miss Cleveland as Rose than he would in a personal interview, and yet the penny-a-liner whose keener shaft is tipped with this witless smile would never dream of offering this indignity in person. A man may be incapable of writing a poem, an essay, or a story, and yet possess the ability to discover merit, or the lack of merit, in the work of another, but a boor has no more business in the columns of a newspaper or magazine than in a drawing-room, and the time will come when such will be a recognized fact, to the relief of the public and the advantage of the author. "It takes more refinement of soul to discover beauties than to detect flaws."—*The Current, Chicago.*

### Among the Gas-Works.

A group of burning wells north of Washington, Pa., has presented many grand and beautiful night-scenes. Though several miles apart, they appear at a distance, to be close together, and their light intermingles. On a dark night, with all of them burning, they make a great show. These wells in full blast—with those flanking them on the right and on the left, with the broad glare of those at Wellburg, W. Va., showing twenty miles to the northwest, and with those at Murraysville, Pa., thirty miles to the northeast—make a scene which would terrify a stranger, if he should come upon it unaware of the existence of such things as burning gas-wells. It would only need columns of fiery lava to convince him that the whole region was full of volcanoes. And his terror would doubtless be complete when he saw a great fiery column shoot skyward, unless he was made aware of the real cause of the phenomenon, when he would remain to admire what a moment before had filled him with alarm. The explanation of the sudden burst of flame is that it is necessary often to "blow out" the wells and the pipes leading to the regulator, to keep them from being clogged by the salt which gathers in the pipes from the salt-water thrown up by the gas. The flow of the gas is stopped for a moment; and when again released, the gas drives everything before it into the open air. This escaping gas is burned at the regulator. The effect of the suddenly increased pressure is to shoot a tongue of flame, hissing and roaring, high up in the air. On a misty night, when the light is broken up and diffused, the snow-covered hills sometimes adding their reflection, the whole sky is brilliantly illuminated, and the scene is grand and beautiful.—*Samuel W. Hall in St. Nicholas.*

### Some Other Day.

Old Dinky (to gentleman)—Cud yo' help a poo' ole cullud gen'men sah? My gran'mother wuz nu'se to Christ'fer Klumbus sah.  
Gentleman—Christopher Columbus?  
Old Dinky—Yes, sah. She cum over unde May flowah wif him when he fast discovered Amer'ca, deed she did.  
Gentleman—Not to day, uncle.—*Life.*

### There She Had Him.

He hadn't quite come up to her standard and she refused his escort to the picnic. He said:  
"Why, you're as full of airs as a hand-organ to-day."  
"Maybe I am," she tossed out.  
"Anyhow I don't go with a crank."—*Sunny South.*

### "I would Take a Big Dam."

Some of the professors of De Veaux college have figured out a singular fact. It is two miles from the Horseshoe Falls to De Veaux college, down the river. Supposing an enormous stop-gate to be placed in the river opposite the college, in such a manner as to stop the water, how long do you think it would take for the water to fill up that immense gorge to the top of the high banks? Less than a minute! This seems like a big story, but it figures won't lie, that would be the result of the experiment. I don't think, however, that it is in any danger of its being tried in the near future. —[*Rochester Post-Express.*]

### The Best Stimulant.

The best stimulant for persons who have been exposed to cold is champagne. Owing to its diffusive quality, it acts more quickly than brandy or whisky. It is a more powerful effect is wanted brandy and champagne should be taken alternately. But this remedy should never be used except by persons actually suffering from a shock. If taken under ordinary circumstances a scene is apt to follow.

### Gems in Paris.

Amethysts are coming in again. Crosses made of these stones were worn during Advent as half-mourning by very scrupulous Catholics; while the prejudice against opals seems to have worn away. I have seen many of these stones recently mounted with diamonds in rings. A new and fashionable way to wear cat's-eyes and moonstones is to have them set in little gold rings with four tiny loops of the metal, by which means they may be seen on black velvet bands for the throat. —[*Paris Correspondence Jewellers Weekly.*]

### Overwork.

A petted boy in New Hampshire was sometimes invited to bring in an armful of wood and sometimes to go to the post-office for the mail, one-eighth of a mile distant. He rebelled one day and broke out in the most excited manner: "I don't care; my father may kill me if he wants to, but I won't go to the office and bring in wood the same day!" Another urchin 4 years old, was requested by his mother to pick up a basket of apples under the trees. His response was: "No, I shan't do it. I have to read in school and I want to save my strength for that."—*Shoe and Leather Reporter.*

In the United States senate, during a recent debate, Senator Vest of Missouri, paid a high tribute to the merits of St. Jacobs Oil. Other prominent men have also found it prompt in its cure of rheumatism and neuralgia. Price, fifty cents a bottle.

### There Is Something Lower.

"From dudes down to loafers," was the expression uttered by a commercial traveler, as he vainly essayed to separate the ligaments of a just-done breakfast. The listener did not catch the rest of the remark, but the words that came to his ears were very suggestive. "From dudes down to loafers!" Then the dude is the lowest specimen of the man species.—[*Buffalo Express.*]

Throat troubles yield promptly to Red Star Cough Cure, as vouched for by U. S. Architect Clark. Its ingredients are purely vegetable and free from opiates. 25 cents.

### Willing to Quit.

A good story is told of an interview with W. H. H. Bingham with one of the state boarders at Windsor. Some of the prisoners were at work lathing the guard-room during a recent official visit of the Governor, and the latter was inspecting the progress of the work. After contemplating the process for a few minutes, Gov. Bingham remarked: "See here, my man, you are laying those laths too near together; that sort of work will never do." The prisoner calmly laid down his implements and said: "Governor, I am willing to be turned off and discharged if my work don't suit; I never applied for this job or the situation, and if my work isn't satisfactory I am willing to quit." The offer was not accepted.—[*Montpelier (Vt.) Journal.*]

"There is no place like home," but every home should be supplied with a bottle of Dr. Bull's Cough Syrup—the great family remedy for all cases of Coughs, Colds, &c. 25 cents.

### FAVORED BY FORTUNE.

People Who Invest Small Amounts and Secure Large Returns.

San Francisco Call, Jan. 26.  
Scarcely a month passes but what the papers are called upon to record what might be termed the luck of some Californian in acquiring large sums by means of small investments. It is an old saying that "nothing risks nothing gained," and the practical application of this time-honored maxim to every-day life is a sufficient explanation of the so-called "luck" of many business men. For several years past the daily papers have periodically contained items, detailing the manner in which well-known residents of this city and state have won prizes in the Louisiana State Lottery. The drawings of this admirably managed institution occur every month, and with the same regularity as the rotation of months the announcements are made of people who have risked a trifle and won large sums, frequently a fortune. The last drawing occurred on December 14th last, and as usual a resident of San Francisco won a tenth part of the capital prize of \$150,000. The fortunate holder of a coupon of ticket No. 93,174, which won that prize, was Nat. M. Raphael, the well-known jeweler, at 732 Market street in this city. To a reporter the gentleman said: "I have been buying a few coupon tickets every month for the past seven or eight years. In the last drawing I held a coupon which was a tenth of the ticket No. 93,174, and on the day following the drawing when I read in the telegraph columns of the morning Call that one of the numbers I held had drawn the capital prize I was almost dazed with surprise. I could hardly convince myself that I had at last become one of the fortunate ones of whom I had so often read. However, I finally realized that I was actually entitled to the money, so I immediately went to the London and San Francisco bank and deposited my ticket for collection. Eleven days later I received the full amount of \$15,000 in gold coin."

Another lucky man was Fred R. Brown, a shoemaker, living on Birch street. To a reporter he stated that he had very frequently bought coupons in the Louisiana State Lottery, but had never won a dollar. He had almost given up in despair, when he bought one-tenth of ticket No. 93,174, which drew one-tenth of the third capital prize of \$20,000. During the holiday week he received the money, and he rejoiced that he had persisted in his efforts until success came to him.

### INJUSTICE CORRECTED.

Convincing Verification of Widecast Public Statements.

To the readers of this paper: In common with many publishers and editors, we have been accustomed to look upon certain statements which we have seen in our columns as merely adroit advertising.

Consequently we feel justified in taking the liberty of printing a few points from a private letter recently received from one of our largest patrons, as a sort of confession of faith to our readers. We quote:

"We have convinced ourselves that by telling what we know to be true, we have produced at last a permanent conviction in the public mind. Seven years ago we stated that the national disease of this country was, and that it was rapidly increasing. Three years ago we stated that a marked check had been given it."

"The statistics of one of the largest life insurance companies of this country show that in 1883 and 1884, the mortality from kidney disorders did not increase over the previous years; other companies stated the same thing. It is not presumptions for us to claim credit for checking these ravages."

"Seven years ago we stated that the condition of the kidneys was the key to the condition of health; within the past five years all careful life insurance companies have conceded the truth of this statement, for, whereas, ten years ago, chemical analysis to determine the condition of the kidneys was not required, to-day millions of dollars in risks are refused, because chemical examination discovers unsuspected diseases of the kidneys."

"Seven years ago we stated that the ravages of Bright's Disease were insignificant compared with other unsuspected disorders of the kidneys of many misleading names; that ninety-three per cent. of human ailments are attributable to deranged kidneys, which fill the blood with uric acid, or kidney poison, which causes these many fatal diseases."

"The uric acid, or kidney poison, is the real cause of the majority of cases of paralysis, apoplexy, heart disease, convulsions, pneumonia, consumption, and insanity; over half the victims of consumption are first the victims of diseased kidneys."

"When the recent death of an honored ex-official of the United States was announced, his physician said that although he was suffering from Bright's Disease, that was not the cause of death. He was not frank enough to admit that the apoplexy which overtook him in his bed, was the fatal effect of the kidney poison in the blood, which had eaten away the substance of the arteries and brain; nor was Logan's physician honest enough to state that his fatal rheumatism was caused by kidney acid in the blood."

"If the doctors would state in official reports the original cause of death, the people of this country would be alarmed, yea, nearly panic stricken, at the fearful mortality from kidney disorders."

The writers of the above letter give these facts to the public simply to justify the claims that they have made, that "if the kidneys and liver are kept in a healthy condition by the use of Warner's safe cure, which hundreds of thousands have proved to be a specific, when all other remedies failed, and that has received the endorsement of the highest medical talent in Europe, Australasia and America, many a life would be prolonged and the happiness of the people preserved. It is successful with so many different diseases because it, and it alone, can remove the uric acid from the blood through the kidneys."

Our readers are familiar with the preparation named.

Commendation thereof has often appeared in our columns.

We believe it to be one of the best, if not the best ever manufactured. We know the proprietors are men of character and influence.

We are certain they have awakened a widespread interest in the public mind concerning the importance of the kidneys. We believe with them that they are the key to health, and that for their restoration from disease and maintenance in health, there is nothing equal to this great remedy.

The proprietors say they "do not glory in this universal prevalence of disease, but having started out with the purpose of spreading the merits of Warner's safe cure before the world, because it cured our senior proprietor, who was given up by doctors as incurable, we feel it our duty to state the facts and leave the public to its own inferences. We point to our claims, and to their public and universal verification with pride, and if the public does not believe what we say, we tell them to ask their friends and neighbors what they think about our preparations."

As stated above, we most cordially commend the perusal of this correspondence to our readers, believing that in so doing, we are fulfilling a simple public obligation.

The Indian reservations of the United States contain 200,000 square miles.

No Opium in Play's Cure for Consumption. Cures where other remedies fail. 25c.

A high license bill has been introduced in the New York legislature.

If Sufferers From Consumption, Scrofula, Bronchitis, and General Debility will try Scott's Emulsion of Cod Liver Oil with Hypophosphites, they will find immediate relief and permanent benefit. The Medical Profession universally declare it a remedy of the greatest value and very palatable. Read: "I have used Scott's Emulsion in several cases of Scrofula and Debility in Children. Results most gratifying. My little patients take it with pleasure."—W. A. HULBERT, M. D., Salisbury, Ill.

Fred Douglas and Theodore Tilton were taken for brothers in Paris.

The Iowa Seed Co., of Des Moines, Iowa, is a western institution, conducted by practical men, who study the needs of western producers. Their advertisement appears in another column. New illustrated catalogue just out. Send for a copy, free.

Dr. Laura Weld, once of Boston, has a handsome practice in Dresden.

If You Cannot Sleep at Night, Use CARTER'S LITTLE NERVE PILLS. No opium.

All the high school girls in Galt, Cal., play ball.

The Egyptian army is being reduced to a force of 10,000 from a force of 30,000.

The French navy numbers 67,666 men.

Dr. Pierce's "Pellets" cure sick and bilious headache, sour stomach, and all bilious attacks.

Sand paper is at present made of pounded glass instead of sand.

The Housekeeper's Complaint.  
"I am discouraged. I have too much to do, I am tired. I am sick. I suppose I was put into this house to keep it clean, but it is too much work. I won't try. I will go to sleep. I don't care what becomes of the house."

The above is an allegory. The discouraged housekeeper is the liver, which, indeed, is often called "the housekeeper of our health." If it does go to sleep as it threatens, a crowd of diseases are all ready to spring up as a consequence. Dr. Pierce's "Golden Medical Discovery" acts upon the liver and assists it in its work of housekeeping and house-cleaning. It is the great liver remedy and blood cleanser, and cures all the long train of chronic maladies resulting from a torpid or sluggish liver, such as sick-headache, scrofulous diseases, as ulcers, "fever-sores," "white swellings," hip-joint disease, consumption of the lungs (which is really only scrofula manifesting itself in the delicate tissues of these organs), also all skin diseases, as blotches, pimples and eruptions, and all blood taints, however acquired.

New York consumes, weekly, 5,268,455 cans of milk of 40 gallons each.

Favoritism  
is a bad thing, but Dr. Pierce's "Favorite Prescription" deserves its name. It is a certain cure for those painful maladies and weaknesses which embitter the lives of so many women. Of druggists.

Wounded Kneecap is the name of a new postoffice in Shannon county, Dakota.

### War Ahead.

There is great danger of war with Mexico in the near future, but at present we can pursue the arts of happiness, prosperity and wealth. Wherever you live, you should write to Hallett & Co., Portland, Maine, and receive free, full information about work that you can do, and live at home, earning thereby from \$5 to \$25 and upwards daily. Some have earned over \$50 in a day. Capital not required; you are started free. All is new; both sexes. All ages. Pay, as above guaranteed, from first start.

Emma Abbott will sing in Paris soon. This is cheerful news for America.

"Strictly Vegetable" is Strictly True. When applied to Carter's Little Liver Pills. No mercury.

Last year \$600,000 worth of flowers were sold in Paris.

No SOPER REMEDY can be had for Coughs and Colds, or any trouble of the Throat, than "Brown's Bronchial Trochies."

Telegraph and telephone wires are rapidly being put under ground in New York.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children, she gave them Castoria.

The emperor of Germany wants to see Victoria during her jubilee year.

The Public Interested.

When manufacturers of an article are asking the public to consume their wares, it is indeed refreshing to know that they are reliably endorsed, as illustrated by the united endorsement of Dr. Harter's Iron Tonic and Liver Pills by the druggists of St. Paul.

There will be no Wagner festival at Bayreuth this year.

Prevent crooked boots and blistered heels by wearing Lyon's Patent Heel Stiffener.

Mme. Genet lives quietly in Paris, and rears the baby in the way that it should go.

Excursions to the Winter Resorts of the South.

The Wabash, St. Louis & Pacific Ry. are now selling round-trip tickets, good until June 1st, 1887, at greatly reduced rates, to Mobile, New Orleans, Pensacola, Jacksonville, Cedar Keys, and all the principal points in the south. For further information and tickets, call on or write F. E. Moore, Ticket Agent, or G. N. Clayton, Northwestern Passenger Agent, 1502 Farnham Street, Omaha, Neb.

The best and surest Remedy for Cure of all diseases caused by any derangement of the Liver, Kidneys, Stomach and Bowels.

Dyspepsia, Sick Headache, Constipation, Bilious Complaints and Malaria of all kinds yield readily to the beneficent influence of

**PRICKLY ASH BITTERS**

It is pleasant to the taste, tones up the system, restores and preserves health.

It is purely Vegetable, and cannot fail to prove beneficial, both to old and young.

As a Blood Purifier it is superior to all others. Sold everywhere at \$1.00 a bottle.

### Giving the Business Man a Chance.

According to the newspapers they have erected a business man a monument down in Boston somewhere. Think of it—in Boston! He was not an orator, nor a warrior, nor a lyric artist, but an honest man of affairs. The pedestal of literature and art seems dying a natural death under the full glare of nineteenth-century wisdom. —[*Chicago Elite News.*]

Whatever tends to increase usefulness, by banishing pain and suffering, will certainly secure notice and approval. We allude to Salvation Oil.

The Japanese make beautiful and durable carpets from leathers.

Life is burdensome, alike to the sufferer and all around him, while dyspepsia and its attendant evils hold sway. Complaints of this nature can be speedily cured by taking Prickly Ash Bitters regularly. Thousands once thus afflicted now bear cheerful testimony as to its merits.

Mrs. Sarah A. Jones, of St. Louis, is 100 years old and never heard of Chicago.

Take one of Carter's Little Liver Pills after eating; it will relieve dyspepsia, aid digestion, give tone and vigor to the system. They make one feel as though life is worth living.

Gen. Pleasanton was in 105 engagements and never received a scratch.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Has stood the test of twenty years as a Remedy for Female Diseases, relieving periodical pains, promoting a healthy regularity of seasons and curing weakness, back-ache and consequent nervousness.

It is the most reliable and safe remedy for all the female troubles of the day. It is the only one that can be taken by the most delicate and nervous.

Pittsburg, Pa., Nov. 5th, 1885. Mrs. Lydia E. Pinkham: "As I frequently have been troubled with a great deal of nervousness, and have been a great sufferer for years from a complaint incident to married life, I have tried the skill of a number of physicians and the virtue of many medicines without relief, and as an experiment I concluded to try yours. I can assure you that the benefit I have derived from it came not because of any faith I had in it, for I had but slight hope of any permanent good. I am now a better and stronger woman, and I want to tell you that I have been wonderfully benefited by your medicine. I am now using my fourth bottle and it would take but little argument to persuade me that my health is fully restored. I should like to widely circulate the fact of the wonderful curative powers. F. H. C. ROOF, THE KANSAS DISTRICT WHOLESALE DRUGGIST, PITTSBURGH, PA."
