AGRICULTURAL.

Devoted to the Interests of Farmers and Stockmen.

The Olive.

We take the following from a California exchange:

The culture of the olive is a branch of the fruit-growing industry which is yet in its infancy on this coast, but we believe that in a few years it will become one of the most important as well as profitable fields of horticultural enterprises with us, as it is at present with many countries in the south of Europe, whose chief revenue is derived from the export of olive oil and pickled olives.

The olive tree is distinguished for its great longevity and vitality. A tree in the garden of the Vatican at Rome is said to be a thousand years old. During the Greek revolution the Turks cut down the olive trees and burned over the sumps, with the result that, three years thereafter, the shoots from the scarred stumps commenced to give a crop.

It has generally been supposed that the olive rather prefers a rocky and somewhat barren soil. In Europe it certainly flourishes in places where a cactus would hardly grow, but Major Utt says it is a great mistake to presume that the olive can be grown on a barren soil without fertilizers. Use manure liberally, and use it to an extreme degree, to supplement the lack of irrigation. The olive is a voracious feeder, and will appropriate enough plant food during the months of winter moisture to carry the tree through the dry summer season, provided there is an abundant food supply ready for storage and assimilation. The Mission is generally recommended for oil and the European olive for pickling. The latter, also, is preferable for propagation, as the small limbs will serve for cuttings, and will root where a Mission cutting will fail. European olives will ripen two months in advance of the Mission olives. Trees should be planted in an orchard, and cuttings in a nursery. Plant not less than thirty-six feet apart, or you will regret it in after years; remember in planting that olive root is more sensitive to exposure than orange.

The olive is easily budded or grafted, so there is no trouble in obtaining varieties. Small, one-year-old trees can be bought for 25 cents or less each. The roots of trees should always be puddled before shipping, and great care taken against exposure. The business of propogating the trees should be left to the nurserymen, except in a case where a party cannot afford to buy trees.

When it comes to profits, orange-growers can show figures which should satisfy the most exacting. Major Utt has an olive orchard of twenty-five bearing trees, planted in orchard seven years, to include 1886; the product from ten of them last year was 750 gallons of olives. He sold the surplus crop at 40 cents per gallon, casks furnished, of $12 per tree. Fifty gallons of an average crop to the tree at twelve years from the planting of the orchard would be a low estimate, and this amount would make six and a quarter gallons of oil. Elwood Cooper gets $10 a gallon for his oil. Increased production will lower the wholesale price to $4 per gallon, or at the lowest $25 per tree, equal to $900 per acre. Allow one-half for expenses and interest on investment, and you have the great sum of $450 per acre as net profit. Mr. Loop has been offered 80 cents a gallon for all the pickled olives he can prepare for market.

Of the great future which awaits the culture of olives on this coast there can be no doubt. We are still in the experimental stage. In fact, olive culture stands about where the raisin industry did ten years ago.

Gardening for Pleasure.

Gardening for pleasure, health and knowledge of the vegetable world are the highest inducements that can be set before one to lead to the study and practice of horticulture. The commercial gardener and fruit grower has all the difficulties common to other pursuits to contend with besides the many perplexing ones peculiar to his own. The profits of this industry, in its various branches, have been persistently set forth in a false and alluring light by many journals, and especially by traveling salesmen interested in the sale of various horticultural products. We would not attribute any intentional dishonesty to those who have thus bolstered the commercial horticultural movement for years, but hard facts, as may become known, show the error of their position. For one without experience or training to take up any branch of commercial horticulture is almost sure to be a courting of failure. On the other hand, one will seldom or never be disappointed who turns to the garden for recreation, or who seeks there the building up of overstrained nerves, or who would follow out to discovery some of the innumerable secrets of the vegetable world that are to be found by the earnest and patient observer. It is the place for at least an hour or two every day for women, as a change from household duties; for professional men, editors, merchants, clerks, and all who may be engaged in in-door, and especially sedentry, employments. More or less garden work should be engaged in every day and by every member of the family whenever it is possible.

Farm Notes.

The theory that the sex of an egg can be told by its shape is erroneous.

Millions of weed seeds can be destroyed on almost every farm by fire.

Pickled eggs never pass for fresh eggs among intelligent people. They will buy them only when fresh ones can't be had.

Onion seeds that has no firmness, or that is perfectly dry, is not good. Test on a sheet of writing paper.

Malt, half a peck to a hill, is highly recommended for blackberry bushes. If that cannot be obtained use loam.

Tree-planting for profit or adornment requires care and discrimination, as much as raising crops or flocks and herds.

The Milton *Eagle* says a quart of sage tea given to a horse cured a severe case of bots. It is an easy remedy to give.

Goldsmith Maid trotted more miles below 2:20 than any other animal in the United States. She has 114 heats to her credit in 2:20 time.

Plant cuttings of grape vines, currants, etc., leaving but one bulb on the surface; crowd the soil hard against the lower end of the cuttings.

A well known farmer of Lancaster county, Pa., has just completed sales of his tobacco crop, showing a total yield of $360 per acre for last year.

Branches that were broken during ing the winter should be cut near to the trunk, a smooth cut made and covered with grafting wax or thick paint.

The most efficient and economical mode for using ashes is to apply twenty or twenty-five bushels per acre at two or three different times during growing season.

The practice of washing sheep is becoming discarded. Nothing is gained by so doing, while it is injurious to the animal as well as to those who have the disagreeable work to perform.

Manure is the farmers' savings bank, and if more of them would have large heaps of it every spring to spread upon their lands, instead of money at interest, they would prosper better in the end.

To destroy aphides or plant lice, dip the ends of the twigs into a strong tea made by steeping tobacco stems (which may be procured at any cigar factory) in hot water, or syringe with whale-oil soap suds.

Trees for shelter, shade and ornament, if well chosen, are always worth the planting, and subsequent care required to get them fairly rooted so they will need nothing more than friendly protection.

As a rule, the size of the seed will indicate the depth to plant it, starting with the smallest at one-half an inch, such as celery, parsnip, etc., while peas and beans may be put one and a half inches deep.

Manure is a great stimulent for the garden, therefore put it on plentifully. Better put out only half the usual quantity, and do that well, than run over a large garden but half prepared. Never stir your land when very wet.

We know of no means of pickling eggs so as to pass them for fresh ones. The best means we know of keeping eggs for a few weeks is to pack them in boxes in perfectly dry and sweet oats or bran, so far apart that no shells can touch. Fasten on the cover and place in a cool cellar. Turn the box over every day.

The gooseberry bushes do best when they are well trimmed. They make very rank growth. It is a fruit that does best in partial shade, and if the mildew do not attack it a crop may always be looked for. They are not grown extensively for sale, but every farm or garden should have a space devoted to them.

There still remains of public lands, unsurveyed, about 9,000,000 acres in Colorado, 12,000,000 in Arizona, nearly 30,000,000 in California, 49,00,000 in Dakota, 7,000,000 in Florida, 44,000,000 in Idaho, 7,000,000 in Minnesota, 39,000,000 in Nevada, 74,000,000 in Montana, 41,000,000 in Utah, and more than 20,000,000 in Washington Territory, and so on.

Years ago the Chinese yam, a coarse esculent, with roots running so deep that it is almost impossible to either dig or eradicate it, was widely advertised as likely to supercede the potato. The latest heard of this fraud is its advertisement as a charming and ornamental climber. Farmers who have had this yam once want no more of it under any circumstances.

If you have old trees that have failed to yield profitable crops of fruit, dig the soil up thoroughly and then apply a good dressing of well-rotted stable manure and work thoroughly into the soil. Then, if you have them, apply a dressing of wood ashes. If these fail to revive the tree, after giving a good pruning, it is about past redemption, and should give way to something better.

To show what can be done with early-cut hay, a Mr. Terry, writing to the New York *Tribune*, states that he has a team of heavy work horses that for nearly five years have lived on a diet of early-cut clover and timothy hay. They have not had a single feed of grain during all this time, are as fat as seals, and at no time during the five years could one see a rib on either of them. To take a heavy load of wheat or potatoes to market (twelve miles) is but play for them.

A better plan to make the hens pay well is to have them lay most of their eggs in the cold weather, while eggs are high priced; then when eggs get down to 10 cents per dozen they will be ready to roast. In other words, let the hens strike for higher wages in summer rather than in winter. The average farmer does not take such care of his hens as will allow them to lay eggs in cold weather, then, when they do get started—say in May—the prices are comparatively low.

There is an unwritten law that the President shall not go to the theatre on Good Friday night. President Lincoln was shot on Good Friday, and since then the President has not been seen at the theatre on that day.

TROUBLE AHEAD.

When the appetite fails and the sleep grows restless and unrefreshing, there is trouble ahead. The digestive organs, when healthy, crave food, the nervous system, when vigorous and tranquil, gives its possessor no uneasiness at night. A tonic, to be effective, should not be a mere appetizer, nor are the nerves to be strengthened and soothed by the unaided action of a sedative or narcotic. What is required is a medicine which invigorates the stomach, and promotes assimilation of food by the system, by which means the nervous system, as well as other parts of the physical organism, are strengthened. These are the effects of Hostetter's Stomach Bitters, a medicine whose reputation is founded firmly in public confidence, and which physicians commend for its tonic, anti-bilious and other properties. It is used with the best results in fever and ague, rheumatism, kidney and uterine weakness and other maladies.

Dr. J. William White, Sr., professor of physical science at the University of Philadelphia, has issued an order prohibiting students from using tobacco in any form.

A LUCKY MAN.

"A lucky man is rarer than a white cow," says Juvenal, and we think he knew. However, we have heard of thousands of lucky ones and we propose to let their secret out. They were people broken down in health, suffering with liver, blood and skin diseases, scrofula, dropsy, and consumption, and were lucky enough to hear of and wise enough to use Dr. Pierce's "Golden Medical Discovery," the sovereign blood purifier, tonic and alterative of the age.

Vinegar and salt will clean copper.

Fine Job and News Inks, the only complete stock, will be found at Palmer & Rey's Portland house.

ALWAYS KEEP THE UPPER HAND OF DISEASE.

Changes of temperature are apt to cause dangerous sickness; in the full-blooded apoplexy is to be feared. When you have a pain the head, feel dizzy, feverish, rheumatic or sick at the stomach take at once three to ten of BRANDETH'S PILLS. Such slight affections are only the harbingers of disease or sudden prostration, and the thing to do is to master the trouble at once. Never let a little sickness get the better of you. Drive it out of doors immediately. Let there be no compromise, always have with you a box of BRANDRETH'S PILLS, and you are prepared to fight the worst form of sickness in its incipiency.

"Brown's Bronchial Troches" are an effectual Cough Remedy. *Sold only in boxes.* Price 25 cents.

Palmer & Rey manufacture their own goods, and can sell 25 per cent. lower than any other house.

TRY GERMEA for breakfast.

LYDIA E. PINKHAM'S
VEGETABLE ◊ COMPOUND
WILL HELP
ANY WOMAN
Suffering from Kidney Disease or from troubles peculiar to her sex.

Its purpose is solely for the legitimate healing of disease and the relief of pain, and that it does all it claims to do, thousands of ladies can gladly testify.

It has stood the test of twenty years in relieving periodical pain, promoting regularity of seasons, and banishing weakness, backache and consequent nervous distress.

Probably no other woman in the world receives so many "letters of thanks" as Lydia E. Pinkham, of Lynn, Mass. Mrs. P—— of Enfield, N. H., says: "I will simply say that your Vegetable Compound is all you recommend it to be. *It has done me Worlds of good.*" Another lady writes from Ottawa as follows: "I have just to-day bought the seventh bottle of your Vegetable Compound, have used two boxes of Pills and several packages of your Sanative Wash, and think it but right to tell you how much good I derived from your medicines. *They are a regular God-send.* All the pains and aches have almost disappeared, my stomach is much stronger too and I feel myself improved every way."

Price $1. Sold by all Druggists.

A LETTER

From the Mother of Miss Jessie Bonesteele.

Rochester, N. Y., April 22, 1886.

GENTLEMEN:—It is with pleasure I add my testimonial to the many well-known cures which your most excellent remedy has effected. For more than two years I was a great sufferer with rheumatism, being scarcely free from pain during the time. I found no relief until I procured Dr. Pardee's remedy, and it cured me completely. It is now two years since I discontinued its use and I have had no symptoms of the disease since. I know from my own and from the experience of many others also, that it will cure any case of rheumatism or neuralgia.

I am, very truly yours,
MRS. H. S. BONESTEELE,

Syracuse, N. Y.

GENTS:—I have been troubled with Rheumatism for three years, at times very badly afflicted; was in that condition about two weeks ago, when I got a bottle of Dr. Pardee's Rheumatic Remedy, and in three days time was greatly relieved, and have not been troubled with it since I finished this bottle. I feel like recommending it in the highest terms, as I believe it will do all that is claimed for it.

Yours truly,
JOHN BLODGETT,
62 Madison St.

Lockport, N. Y.

GENTLEMEN:—I think the medicine prepared by the Pardee Medicine Company is in fact the best rheumatic medicine now on the market; its equal is not known. My boy only six years old was confined to his bed with rheumatism; I got a bottle of the medicine and in a few days he was out of bed and playing around the house. I can cheerfully recommend this medicine to all rheumatic sufferers.

J. K. PERRY, Shoe Dealer.

Ask your druggist for Dr. Pardee's Remedy and take no other. Price $1 per bottle; six bottles, $5.

Pardee Medicine Co., Rochester, N. Y.

It is agreed that the finest pork made in the world is that of the Maderia Islands where the swine live principally on nuts.

A BONANZA MINE

of health is to be found in Dr. R. V. Pierce's "Favorite Prescription" to the merits of which as a remedy for female weakness and kindred affections thousands testify.

LIVER, BLOOD AND LUNG DISEASES.

LIVER DISEASE AND HEART TROUBLE.

MRS. MARY A. MCCLURE, *Columbus, Kans.*, writes: "I addressed you in November, 1884, in regard to my health, being afflicted with liver disease, heart trouble, and female weakness. I was advised to use Dr. Pierce's Golden Medical Discovery, Favorite Prescription and Pellets. I used one bottle of the 'Prescription,' five of the 'Discovery,' and four of the 'Pleasant Purgative Pellets.' My health began to improve under the use of your medicine, and my strength came back. My difficulties have all disappeared. I can work hard all day, or walk four or five miles a day, and stand it well; and when I began using the medicine I could scarcely walk across the room, most of the time, and I did not think I could ever feel well again. I have a little baby girl eight months old. Although she is a little delicate in size and appearance, she is healthy. I give your remedies all the credit for curing me, as I took no other treatment after beginning their use. I am very grateful for your kindness, and thank God and thank you that I am as well as I am after years of suffering."

LIVER DISEASE.

MRS. I. V. WEBBER, of *Yorkshire, Cattaraugus Co., N. Y.*, writes: "I wish to say a few words in praise of your 'Golden Medical Discovery' and 'Pleasant Purgative Pellets.' For five years previous to taking them I was a great sufferer; I had a severe pain in my right side continually; was unable to do my own work. I am happy to say I am now well and strong, thanks to your medicines."

Chronic Diarrhea Cured.—D. LAZARRE, Esq., *275 and 277 Decatur Street, New Orleans, La.*, writes: "I used three bottles of the 'Golden Medical Discovery,' and it has cured me of chronic diarrhea. My bowels are now regular."

GENERAL DEBILITY.

MRS. PARMELIA BRUNDAGE, of *161 Lock Street, Lockport, N. Y.*, writes: "I was troubled with chills, nervous and general debility, with frequent sore throat, and my mouth was badly cankered. My liver was inactive, and I suffered much from dyspepsia. I am pleased to say that your 'Golden Medical Discovery' and 'Pellets' have cured me of all these ailments and I cannot say enough in their praise. I must also say a word in reference to your 'Favorite Prescription,' as it has proven itself a most excellent medicine for weak females. It has been used in my family with excellent results."

Dyspepsia.—JAMES L. COLBY, Esq., of *Yucatan, Houston Co., Minn.*, writes: "I was troubled with indigestion, and would eat heartily and grow poor at the same time. I experienced heartburn, sour stomach, and many other disagreeable symptoms common to that disorder. I commenced taking your 'Golden Medical Discovery' and 'Pellets,' and I am now entirely free from the dyspepsia, and am, in fact, healthier than I have been for five years. I weigh one hundred and seventy-one and one-half pounds, and have done as much work the past summer as I have ever done in the same length of time in my life. I never took a medicine that seemed to tone up the muscles and invigorate the whole system equal to your 'Discovery' and 'Pellets.'"

INVIGORATES THE SYSTEM.

Dyspepsia.—THERESA A. CASS, of *Springfield, Mo.*, writes: "I was troubled one year with liver complaint, dyspepsia, and sleeplessness, but your 'Golden Medical Discovery' cured me."

Chills and Fever.—Rev. H. E. MOSLEY, *Montmorenci, S. C.*, writes: "Last August I thought I would die with chills and fever. I took your 'Discovery' and it stopped them in a very short time."

"THE BLOOD IS THE LIFE."

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, and bodily health and vigor will be established.

Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially has it proven its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

INDIGESTION BOILS, BLOTCHES.

Rev. F. ASBURY HOWELL, *Pastor of the M. E. Church, of Silverton, N. J.*, says: "I was afflicted with catarrh and indigestion. Boils and blotches began to arise on the surface of the skin, and I experienced a tired feeling and dullness. I began the use of Dr. Pierce's Golden Medical Discovery as directed by him for such complaints, and in one week's time I began to feel like a new man, and am now sound and well. The 'Pleasant Purgative Pellets' are the best remedy for bilious or sick headache, or tightness about the chest, and bad taste in the mouth, that I have ever used. My wife could not walk across the floor when she began to take your 'Golden Medical Discovery.' Now she can walk quite a little ways, and do some light work."

HIP-JOINT DISEASE.

MRS. IDA M. STRONG, of *Ainsworth, Ind.*, writes: "My little boy had been troubled with hip-joint disease for two years. When he commenced the use of your 'Golden Medical Discovery' and 'Pellets,' he was confined to his bed, and could not be moved without suffering great pain. But now, thanks to your 'Discovery,' he is able to be up all the time, and can walk with the help of crutches. He does not suffer any pain, and can eat and sleep as well as any one. It has only been about three months since he commenced using your medicine. I cannot find words with which to express my gratitude for the benefit he has received through you."

A TERRIBLE AFFLICTION.

Skin Disease.—The "Democrat and News," of *Cambridge, Maryland*, says: "MRS. ELIZA ANN POOLE, wife of Leonard Poole, of *Williamsburg, Dorchester Co., Md.*, has been cured of a bad case of Eczema by using Dr. Pierce's Golden Medical Discovery. The disease appeared first in her feet, extended to the knees, covering the whole of the lower limbs from feet to knees, then attacked the elbows and became so severe as to prostrate her. After being treated by several physicians for a year or two she commenced the use of the medicine named above. She soon began to mend and is now well and hearty. Mrs. Poole thinks the medicine has saved her life and prolonged her days."

Mr. T. A. AYRES, of *East New Market, Dorchester County, Md.*, vouches for the above facts.

CONSUMPTION, WEAK LUNGS, SPITTING OF BLOOD.

GOLDEN MEDICAL DISCOVERY cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Asthma, and kindred affections, it is a sovereign remedy. While it promptly cures the severest Coughs it strengthens the system and purifies the blood.

It rapidly builds up the system, and increases the flesh and weight of those reduced below the usual standard of health by "wasting diseases."

Consumption.—MRS. EDWARD NEWTON, of *Harrowsmith, Ont.*, writes: "You will ever be praised by me for the remarkable cure in my case. I was so reduced that my friends had all given me up, and I had also been given up by two doctors. I then went to the best doctor in these parts. He told me that medicine was only a punishment in my case, and would not undertake to treat me. He said I might try Cod liver oil if I liked, as that was the only thing that could possibly have any curative power over consumption so far advanced. I tried the Cod liver oil as a last treatment, but I was so weak I could not keep it on my stomach. My husband, not feeling satisfied to give me up yet, though he had bought for me everything he saw advertised for my complaint, procured a quantity of your 'Golden Medical Discovery.' I took only four bottles, and, to the surprise of everybody, am to-day doing my own work, and am entirely free from that terrible cough which harrassed me night and day. I have been afflicted with rheumatism for a number of years, and now feel so much better that I believe, with a continuation of your 'Golden Medical Discovery,' I will be restored to perfect health. I would say to those who are failing a prey to that terrible disease consumption, do not do as I did, take everything else first; but take the 'Golden Medical Discovery' in the early stages of the disease, and thereby save a great deal of suffering and be restored to health at once. Any person who is still in doubt, need but write me, inclosing a stamped, self-addressed envelope for reply, when the foregoing statement will be fully substantiated by me."

GIVEN UP TO DIE.

Ulcer Cured.—ISAAC E. DOWNS, Esq., of *Spring Valley, Rockland Co., N. Y.* (P. O. Box 38), writes: "The 'Golden Medical Discovery' has cured my daughter of a very bad ulcer located on the thigh. After trying almost everything without success, we procured three bottles of your 'Discovery,' which healed it up perfectly." Mr. Downs continues:

Consumption and Heart Disease.—"I also wish to thank you for the remarkable cure you have effected in my case. For three years I had suffered from that terrible disease, consumption, and heart disease. Before consulting you I had wasted away to a skeleton; could not sleep nor rest, and many times wished to die to be out of my misery. I then consulted you, and you told me you had hopes of curing me, but it would take time. I took five months' treatment in all. The first two months I was almost discouraged; could not perceive any favorable symptoms, but the third month I began to pick up in flesh and strength. I cannot now recite how, step by step, the signs and realities of returning health gradually but surely developed themselves. To-day I tip the scales at one hundred and sixty, and am well and strong."

WASTED TO A SKELETON.

Our principal reliance in curing Mr. Downs' terrible disease was the "Golden Medical Discovery."

BLEEDING FROM LUNGS.

JOSEPH F. MCFARLAND, Esq., *Athens, La.*, writes: "My wife had frequent bleeding from the lungs before she commenced using your 'Golden Medical Discovery.' She has not had any since its use. For some six months she has been feeling so well that she has discontinued it."

Golden Medical Discovery is Sold by Druggists. Price $1.00 per Bottle, or Six Bottles for $5.00.
