NOTES.

We acknowledge the receipt of a cordial invitation to attend the celebration to be given at Summerville on the Fourth of July, for which we re-

from Wallows county, by Mr. A. H. people here. Phelps, was received to late for inserweek. We lope to bear from the gentleman again, and often.

ways open for the free discussion of all subjects of interest to the people, and we hope that anyone having an earnest thought to express will make use of them for that purpose.

The latest novelty issued by The West Shore is a large birdseye view of Oregon and a portion of Washington. It is printed in four colors, and brings out in bold relief, the mountains, valleys and streams so that one may, at a glance, obtain a comprehensive idea of the topography of this region. Any of information. This is the second valuable supplement issued by that popular magazine this year, either of which is worth the subscription price 82.50.

That the Scorr is considered the head; paper of this section of the state and particulaly of Union county is evidenced by its numerous correspondents, and earnest belpers in every locality. That business men know and appreciate its value, is also shown | head. by its well filled advertising columns, This week, in order to get in the new advertisements received we have bad to take out every superfluous line, and condense as much as possible. Besides this, in addition to our already immense circulation, not a week passes but from six to fifteen new subscribers are added to our list Verily the Scour is the paper for the people, and will remain so.

At the recent municipal elections in Kansas, at which women for the first time voted, the result was not wholly creditable to the sex. Indeed the press of the country has been very leitter in its connecuts on the women vo- patronage of the public ters of Levenworth, in particular. On this point an editorial in the New York Sun, says that "Further partieulars received with regard to the election at Leavenworth, in Kansas, show that the addition of women to the number of voters served to greatly embitter the contest and to introduce eye. into politics new methods of corruption and causes of discord and scandal Instead of giving dignity to the canvas, woman suffrage seems to have made of it a peculiarly exasperating squabble in which gossip and petty malice were brought into pretty general use as weapons of assault."

THIS GOOD OLD STAND-BY accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Lintment is found in its universal applicability. Everybody needs such a medicine. The Lumberman needs it in ease of accident.

The Housewife needs it for general family use. The Counter needs it for his teams and his men. The Mechanic needs it always on his work The Miner needs it in case of emergency.

The Planeer needs it in his house, his stable, The Steambout man or the Boatman needs

it in liberal supply aften and ashere. The Horse-fauctor needs it-it is his best and and safest rellance. The Stock-grower needs it-it will save him; housands of deliars and a world of trouble.

The Rullroad man needs it and will need it so long as his life is a round of accidents and dangers.

The Backwoodsman needs it. There is noth-

ing like it as an antidote for the dangers to life,

limb and comfort which surround the ploneer. The Merchant needs it about his store among his employees. Accidents will happen, and when Keepn Bottle in the House. Tis the best of Keep a Bottle in the Factory. Itsimmediate
