City and County Official Paper.

WILL SETTLE IN COURT.

It seems that the Wallowa county magnates are so much displeased with the conclusions arrived at by the board of commissioners appointed by the legislature to adjust matters between Union and Wallowa counties, that they have concluded to leave it to the arbitrament of the courts of law, and last Saturday filed their papers appealing the case to the circuit court It was not expected here that they would do this, as it was felt that the proposed settlen-ent was most liberal toward Wallows county, and that more was granted them than they could justly claim, in order that no unpleasant feelings might be engendered, and that all might be settled amicably, Concessions, in this spirit, have been unavailing, and we now learn from Attorney Shelton, whose firm has charge of the case for Union county, that the case will be tried on its merits and to that end they have also appealed from the decision of the board of commissioners. The papers were served by Sheriff Hamilton this week, and the case will come up for hearing at the July term of court. We understand that Piper, Burleigh & Gowan are the attorneys for Wallowa county,

It is not necessary for us to enter into a recapitulation of the figures in this attempted settlement, as they have already been published in this paper. We also refrain from express- phy of their perusal. ing our opinion in regard to this matfully, lest it should raise the bile of our friend, the editor of the Chieftain, but we imagine, if he will allow us to do so, that when this suit is ended, it will be found that Wallowa county five thousand dollars more indebtedness than it would have had to, had It seen fit to abide by the settlement suggested by the board of commissioners.

AMOTHER MISTAKE.

The wisdom of the average Oregon legislator is so profound, and the acts passed by the body to which he belongs so far-reaching and mysterious in their workings, that it takes the ordinary citizen about six wonths af- planted, but he must work and that ter adjournment to get quieted down, hard too. This is no place for one wno and rid himself of the haunting fear desires to gain a livelihood without that something is liable to drop on him at any minute with out giving warning of its approach.

It is now some months since the adjournment of the last term, and people were beginning to think the worst had passed, and to feel easier, but as will be seen, entirely too soon, so far as the people of the Wallowa are conthat county was not provided for in per thousand. the act redistricting the state into senatorial and representative districts, and consequently will be without representation in the next legislature, Sec. 4 of the act creating Wallowa county, which was approved Feb. 11,

1887, provides that, "The legal voters of Wallowa county shall be eatilied to elect at the general election of 1888, and thereafter until otherwise provided by law, one member of the house of representarives while Union ocarty shall be enti-tled to elect one; and the said Wallowa county shall, for senatorial purposes, be an-nexed to the eighteenth senatorial district, and be entitled with said district to one sen-ator until otherwise provided by law."

The redistricting act, however, which was approved six days afterward-Feb. 17th, provides that Union county shall have one senator and one joint senator with Umatilla, and three representatives, but no provision or mention is made of Wallowa county. As the quota of members allowed-thirty in the senate and sixty in the house, is already full, it would seem that Wallowa county fis left out in the cold. Malheur and other new counties may be similarly situated so far as we know. That this is true indicates a remarkable absence of mind on the part of the representathe interests of the districts they represented.

OWN YOUR OWN HOMES

Every man, whether he is a workman in the common acceptation of the word or not, feels a deep interest in the management of the affairs of the city, county, and State in which he Hves whenever he owns a home. He is more patriotic, aptly says the Industrial Gazette, and in many ways is a better citizen than the man who simply rents, and who has but little if so, recognizing the game at once. any assurance of how long it will be Wallowa City, will and must have the before he can be orderd to move; to which may be added in many cases the saving of more money. Of course it

THE OREGON SCOUT. is acquired, may be the instrument of furnishing the means to commence and EDITOR, prosceute a business upon your own responsibility. True, in some cases it will require more economy, perhaps, than we are now practicing. But the question with every man, and especi-Saturday, June 18th., 1887 ally if he is the head of a family, is, Can be afford it? That is, can be afford to live up his wages as fast as he earns them, without laying up anything for the future? If he is the head of a family, he is obliged to pay rent, and it does not require very many years of rent paying to make up an amount sufficient to purchase and pay for a comfortable home. You have to pay the rent. This you say you cannot avoid and be honest. Well you cannot be honest with your family unless you make a reasonable attempt to provide them a home of their own in case anything should happen to you. And the obligation to do this should be as strong as the one to pay rent or provide the other necessaries for the comfort of your family. When you own a home, you feel a direct interest in the public affairs that otherwise you might consider were of little in-

few Gentle Hints and Truthful Reis from a Stranger in the land, but one Who has fars and Eyes.

WALLOWA COUNTY AND RESCURCES.

Wallowa Valley, June 6, 1887.

ED. Scoat:-Thinking maybap a short letter from this section would be acceptable to many of your numerous readers, I will endeavor to say a few words concerning the Wallowa Valley and its resources and advantages wor-

The valley is divided into three secter, although we have looked into it tions-the Upper, Middle and Lower valleys, and consists of several thousand acres of excellent farming and stock land, a great deal of which is already taken and considerable improvements made. Hundreds of nice, abundantly producing farms dot the will have to assume between four and valley and adjacent feethills. Many small creeks and valleys are tributory to the Wallowa, on all of which is found fine grain producing land easily available and easily fenced. Fine stock range is found on the low hills and table lands where already hundreds of horses, cattle and sheep graze several months in the year.

The soil in the bottoms and valleys is of an excellent and very productive nature and easily demesticated. This only remains. A person coming here to start must not think that he can sit down in a corner and that his land will be fenced and plowed and the crops any effort. The climate here is as good as the state is blessed with, and no one need complain it it don't inst meet their ideas of what it ought to be.

Immense quantities of fine timber, pine and tamarack, abound on the mountain slopes and is not hard of access, and several good saw mills are situated in the valley where as fine a variety of lumber as is seen in the state can be found. Lumber is at a very cerned. It is now discovered that reasonable figure, averaging about \$13

Joseph, the present county seat, is the main town of Wallowa county, at present, but it is in a fair way to be left in the rear ere long, for the people have chosen a more central location and started a town for the purpose of locating the county seat at the next general election, some time next year. WALLOWA CITY

is to be the future county scat and metropolis of Wallowa county, and, although it is in its infancy at present, good men have been ; secured to take hold and the work of building a town has alrea y begun. One of, (if not the located here and well under way toward completion. A large store building was raised a few days ago and will be rushed to an early finish and immediately be ocupied. The foundations for several more business houses, as well as residences are down and everything comes with it an air of business. A printing office and blacksmith shop will be the next additions to Main street, and will probably be erected during the next ten days. The townsite is on what is known as Bennett Flat, and is as admirably a located site for a city as one could find in a month's travel over Eastern Oregon. The soil is of a gravelly nature and very productive aren properly tended. A re- Laterary exercises at the Occidental port has been circulated that alkali tives whose duty it was to look after | abounds here in unlimited quantities, but such is not the case at all. Excellent water can be secured by wells or by a main taken from the river a short distance above town. There is a great deal of opposition to the new town on account of the county seat question, as the owners of the other town and the parties interested in dividing the county at the last legislature were directly connected with the view of securing the county seat at Joseph, but the people, as a majority, think that a more central location would be more advantageous and also desire to have, at least, a word to say as to the management of the county affairs, they, al-

COUNTY SEAT. Again Joseph has a newspaper owned and edited by one of the same company who own the townsite and it very requires some economy to lay up a seriously objects to anything which sufficient amount of money to purchase | will not in some way lead right up to and pay for a home; but this very fact, Joseph, and will not speak encouraging-If properly earried out after the home by of anything, imprecements or other-

wise, which is not in some way thus connected. It is not our intention to say anything derogatory of Joseph or any of her ways and schemes to gain let it hit where it may.

Another paper is soon to be started at Wallowa City and we are told it will stand up for the rights of the people instead of a chosen few.

One, if not the greatest disadvantage to this county, is the fact of having to haul everything over the Grande Ronde mountains from La Grande, the nearest milroad station and supply point. The means of access to the valley is by stage from La Grande. Stage leaves La Grance at 2 o'clock every afternoon and reaches Joseph at about 4 o'clock the next day. The road traverses the entire length of the Wallowa valley and a good portion of the breadth of Grande Ronde valley, passing through some of the finest country that lies out of doors. The regular fare is \$7.50, but on account of Joseph's opposition stage line the fare is sometimes cut

Many hundred head of cattle and horses are annually shipped out from here, as also many hundred pounds of the finest of Eastern Oregon wool. One of the greatest needs of the Wallowa Valley is a

FIRST CLASS GRIST MILL. which can find an excellent situation at Wallowa city with all the advantages and power needed to run a large mill. Neither of the mills here make very good flour and the people are erying for a good, first class mill to locate here. Ground for a mill can be very easily secured at that place by applying to Mr. R. F. Stubblefield. A limited number of lots, either for basiness or residence can be secured gratis by beginning to put up a house worth at least \$250, at once. Lots can also be purchased very reasonable. Good ranches and stock farms can be taken up or bought at very low figures, and lumber and provisions being cheap it is a splendid place for immigrants to locate if they can escape the clutches of the real estate agents in Grande More anon. Ronde Valley. A. H. PHELPS.

Cracks. THIS GOOD OLD STAND-BY

accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applies bility. Everybody needs such a medicine.
The Lumberman needs it in ease of accident. The Housewife needs it for general family use. The Canaler needs it for his teams and his men. The Mechanic needs it always on his work

The Hiner needs it in case of emergency. The Plencer needs it in his house, his stable,

The Steambout man or the Boutman needs

ti in liberal supply attential ashore.

The Horse-functor needs it—it is his best friend and safet reliance.

The Stock-grower needs it—it will save him thousands of deliars and a world of trouble.

The Rullroad man needs it and will need it so ug as his life is a round of accidents and dangers. The Buckwoodsman needs it. There is noth-teg like it as an antidote for the dangers to life, limb and comfort which surround the ploneer. The Merchant needs it about his store among his employees. Accidents will happen, and when

these come the Mustang Liniment is wanted at once,
