

Wallowa City Warblings.

Mr. Cook, of Yamhill county, was in town Saturday, for the purpose of establishing an agency for the State Insurance Co. at this place. He seemed well pleased with our country.

Mr. Cy. Grogg, of Morrow county, is spending a few days looking over this country, with a view to bringing in sheep.

Mr. McArthur, of Weston, was in town last week and purchased property.

Mr. Eaton, of Union, is clerking for the M. & M. Co. here. They are doing a large business.

Mr. Kirkpatrick tore himself away from us on last Wednesday and went home.

Huckleberries and red fish are about all one can see or hear of.

The frame for Boswell's livery stable was partly raised on Saturday.

The foundation for the main part of Gardner's hotel, is all down.

Charlie Conaway's store is well under way.

Haying is being indulged in by nearly everyone, and the yield is very good for the season.

The run of red fish in the Wallowa river is not very large—only a few to what came up last year.

There has been a surplus of courting done at the county seat the past week.

LOST PUBLIC MEN.

What the Death of So Many Great Men Means—At the West a Nation in Danger.

"America is losing its prominent men very fast," was the remark of a well known Englishman who is now visiting this country, and he was right. Sumner, Wilson, Phillips, Washburn, Carpenter, and a host of others have departed, and John A. Logan has just passed away. But has it never occurred to the reader that the cause of the deaths of these public men was in every case the same? And has it occurred to you that Manning, Butler, Blaine, and a host of others are treating the same road? The great American scourge, the kidney disease, is the cause of the deaths of these public men, and it is by no means confined to public men. There is a class of men who are every day dying from the first publication of this notice.

ADULTERATED FOODS, their parents and do not know it. Immense numbers of women who are delicate are afflicted with it at this moment, and think it is simply "weakness." Little children, whose fathers have been injured by scarlet fever are suffering from it, usually unknown to their parents. Its symptoms are a tired feeling and a desire to sleep, a pale complexion, uncertainty of appetite, flatness of the pit of the stomach, shifting pains, sometimes in the back, sometimes in the limbs, and again in the head, painful or prickly sensations, with the skin on top or on the bottom and back hot in the bottom, a burning sensation in the nostrils, and skin hot as times and distant at others. Any one of these things indicate diseased kidneys, which are the first stage of Bright's disease. They must be checked. Captain Greenwood, of the steamer Kanawha, had these troubles in an aggravated form; he used Hunt's Remedy and is in perfect health today.

Rev. Charles Pike, of Watoubers, Utah, was greatly afflicted in the same manner and was suffering severely. He used Hunt's Remedy and was cured.

Mrs. Alexander J. Nichols, of Provo, R. I., after passing through all the suffering which any woman can undergo, was ever called upon to suffer, was cured by Hunt's Remedy.

The son of Cornelius B. Smith of the State Department at Albany, N. Y., was given up to die by no less than four physicians, but was cured by Hunt's Remedy. These instances could be prolonged indefinitely.

These things are certain. First—Kidney troubles, which always end in Bright's disease, unless checked, are fearfully prevalent. Second—They can be cured by using the medicine above named. With these truths in view, why men and women will be so heedless and allow symptoms to run along until they reach a crisis of death we cannot understand. We certainly advise all to think seriously on this subject, and act without delay.

Nervous Exhaustion. A Few Useful Hints For Nervous People.

"I am so nervous" is a very common expression, used by both old and young; and very few can now be found who are free from nervous troubles. We regret to see that the malady is rapidly increasing. And from what cause? There are various reasons. It may be because of a low condition of the general health; the vitality of the nervous system is depressed; or from a want of perfect digestion and assimilation of food, and the vitilizing power of pure, rich blood, the nerves are not properly strengthened and nourished, and consequently become weak and diseased.

There was a time when "nervousness," and that class of disease known as nervous affections, were apparently confined to ladies; but at the present day it is an undoubted fact that as large a portion of nervous diseases exist among men as among the gentler sex; and their distressing and lasting and enervating results are a thousand fold more serious, as they extend to posterity and are productive of a weakened and enfeebled race. Nervous and physical debility, caused by

Exhausted Vitality

is a frequent and distressing disease, its depressing influence being felt alike on both sexes and all ages. Among the first symptoms of this affection are usually a derangement of the digestive organs. A feeling of languor will be experienced, and a gradual falling of strength, with general weakness and pain in the back. More or less exhaustion is experienced on waking in the morning. There is often a bad taste in the mouth; the vision becomes dim, the memory is impaired, and the patient is troubled with frequent dizziness. Persons thus affected are often despondent, and suffer from gloom and depression of the mind. The nerves become so weakened that the least excitement or shock brings on a tremor or trembling, often attended by palpitation of the heart.

LADIES

Are particularly susceptible to nervous disorders, owing partly to their more delicate nervous organization and partly to their sedentary life and consequent confinement in doors. Such affections are attended by restlessness and nervous excitement, anxiety or depression of the mind, loss of interest in society and the daily affairs of life. There is also loss of sleep; the patient on rising in the morning, feeling tired, languid and unrefreshed. From slight nervous attacks to hysteria, from simple "nervousness" to utter prostration, there are many and varied forms of diseases of the nervous system none of which should exist, and of all of which can be cured by the use of

Dr. Pardee's Remedy

Which first stimulates the liver and kidney's to healthy action, regulates the digestive organs, and from the first dose begins its work of purifying and building up the worn-out system. It produces sweet and healthy sleep, enriches the blood, and insures to the pale and sallow cheeks the glow of health, brings brightness to the eye and elasticity to the steps. More real benefit can be derived from one half dozen bottles of Dr. Pardee's Remedy, than from a hundred dollars invested in any other way.

Ask your druggist for it, and take no other.
