LIVE-STOCK NOTES.

Eight Points for the Consideration of Farmers and Dairymen.

The owner knows his cows and can breed them intelligently and by selecting and rearing the best in the most careful manner will soon build up a better herd than he can buy. He has a sympathy and affection for the animals nursed from early calfhood, and If he be a kind and gentle master his aws have an affection for him which not only renders them docile and goodnatured but more profitable. At times a dairyman or stockman must get new blood into his herd, but this is best done by procuring a bull, and a young calf is the best to have, as it is reared with the herd and becomes acquainted with it, so that there is no disturbance or quarreling when the bull is intro-75 Juced.

2. In buying new stock beware of the hippodrome or so-called "combination sales." No man sells off his best stock. The poorest goes to the sale, There it is boosted by all the arts of the professional auctioneer, and the bidding of agents who are not buyers, but "teasers," as it were, to lead on the too-hesitating purchasers. Many a man has rued his "bargains" thus procured, but to save appearances he bears his cross in silence, or makes his sad complaints-like the song bird-to the silent moon,

3. One can rear calves with much economy. A calf does not need cream; sweet skimmed milk, or whey, with linseed and pea meal to replace the caseine removed from it, will feed as good calves as one need have. Bone and muscle and a large capacity for digestion are required for dairy cows, and, indeed, for beeves if the fattening propensity can be put on to these. But sweet milk and sweet whey are indispensable. These may be secured by a little good management. Deep setting of the milk will secure the one and heating and carrying from the factory in closed cans made perfectly

6. Every young thing about the farm goes to grass naturally, the first thing. The following words, in praise of Dr. Pierce's Favorite Prescription as a remedy for those delicate diseases and weak-nesses peculiar to women, must be of interest to every sufferer from such maindies. They are fair samples of the spontaneous expressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been restored to them by the use of this world-famed medicine.

JOHN E. SEGAR, of Millenbeck, Va., writes: "My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians with relief. She took Dr. Pierce's Favorite Prescription and it did her more good than all the medicine given to her by the physicians during the three years they had been practicing upon her."

Mrs. George Hengen, of Westfield, N. Y., writes: "I was a great sufferer from lencorrhea, bearing-down pains, and pain continually across my back. Three bottles of your 'Favorite Prescription' restored me to perfect health. I treated with Dr. —, for more months, without receiving any benefit. THE GREATEST EARTHLY BOON. TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from heart disease, another from hervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

Mrs. E. F. Morgan, of No. 11 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking Dr. Pierce's Favorite Prescription and using the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stamped-encelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and have earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

JEALOUS
DOCTORS.

A Marvelous Cure.—Mrs. G. F. Sprague, of Cristal, Mich., writes: "I was troubled with female weakness, leucorrhea and falling of the womb for seven years, so I had to keep my bed for a good part of the time. I doctored with an army of different physiciaus, and spent large sums of money, but received no histing benefit. At last my husband persunded me to try your medicines, which I was loath to do, because I was prejudiced against them, and the doctors said they would get me some of your medicines, I would try them against the advice of my physician. He got me six bettles of the 'Favorite Prescription,' also six bottles of the 'Discovery,' for ten dollars. I took three bottles of 'Discovery' and four of 'Favorite Prescription,' and I have been a sound woman for four years. I taken gave the balance of the medicine to my sister, who was troubled in the same way, and she cured herself in a short time. I have not had to take any medicine now for almost four years."

THE OUTGROWTH OF A VAST EXPERIENCE.

The treatment of many thousands of cases of those caronic weaknesses and distressing aliments peculiar to females, at the invalide Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and theroughly testing remedies for the cure of woman's peculiar maided.

Br. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience.
