Wingville Letter.

Wingville, Or. Oct. 22, 1887. EDITOR OREGON SCOUT—

We are and have been very regular readers of your paper. It is at all times looked for with some degree of interest.

We have failed to notice any communications from our little village. We trust you may at some time in the near future visit this point, which is almost on the line of the O. R. & N. R. R.

Our citizens are usually enterprising, sober and industrious people. We are blessed with a good blacksmith shop, a general store, butcher shop and a magnificent Odd Fellows' hall; in fact, all the conveniences necessary for supplying our immediate wants.

The crops of the Powder River Valley are now saved, and proved to be good, even better than was expected in the early part of the season.

We notice in your Poochontas communications that the Nelson mining property has been sold to some California capitalists who will develop the property more fully than it has been heretofore.

They propose and are now at work on their reservoir at the head of the Auburn ditch. We of this valley feel some anxiety as regards the disposition of their tailings when they are running at full blast, as all of our farms and gardens will be completely submerged.

We would respectfully call the attention of this community to the results of this mining, as it is situated at the south end of this valley and there being a natural incline from the diggings to our valley.

Mr. Henry Lee, who has been representing the Auburn Ditch Company, for some months past, paid our citizens a pleasant call this week.

He seems to be head and ears over in business. We failed to get a glimpse of his majesty, as it was a very flying business trip.

We understand that the young man above referred to, has very bright prospects ahead, for the coming year 1888 will be a time for him which will be memorably impressed on his mind in after life.

Yes, the coming union with Miss—will be the most important step of his life. He is a model young man; honest, industrious and economical, to even \$7 worth of corn and canned tomatoes as an appetite appeaser for a month.

He will make a model husband, and we recommend him as a valuable addition to any community he may settle in.

We propose sending him a new hat, (charges prepaid) for a wedding present.

We will not prolong our first letter, as a good beginning is a poor ending.

Yours Respectfully, CLIMAY.

High Valley Happenings.

Threshing all done.

Mr. S. F. Tolly paid us a visit on Sunday.

The annual shooting matches have begun their work.

The common thing—cord wood—is a scarce article with us this fall.

Mr. Wm. Campbell and wife, of Baker City, were down on a visit recently.

Mr. Frank Ross returned from Wood river, where he put in a good summer's work.

Minnick & Davis have finished up their threshing, after a run of forty days.

Our neighbors continue to buy blooded stock; the latest is by Mr. Wm. Wilkinson, two Holstein calves.

Mr. James Galloway, in company with Miss Cooley and Miss McGillis, "took in" some of Mr. J. Davis' big plums, on the 23rd.

Our people have signed a petition to reopen our cross road from Cove to Catherine creek road.

A good move and should receive the approval of all along the line.

The wedding last week of Mr. Merritt Wilkinson and Miss Randall was a very quiet affair.

Mr. Wilkinson is one of the most substantial farmers of our valley, and we feel sure the fair bride he has chosen for a life companion is a woman of real worth, well fitted for a helpmate.

Good wishes for their future prosperity and happiness are those of their many friends in this place.

HOMO.

ENTERPRISE.

A Spicy Letter From Our Regular Correspondent.

Enterprise, Oct. 16th, 1887.

John Shoelin returned from La Grande, to-day.

Mr. Ferrester, of Cove, was in the valley last week.

John Hughes returned from Grande Ronde, Wednesday.

Jack Owenby is in from Grande Ronde, with flour.

Mr. Church expects to go to Island city this week, on business.

Cold frosty nights and looks like rain. Lots of snow on the mountains.

Mr. Eaton has lost his dog. Any-one seeing the animal will confer a great favor by returning him to the owner.

Dan W. Kump, general agent of the Home Mutual Insurance Co., was in the valley on business, the past week.

Several bands of fine sheep are to be seen near town every day. This seems to be a fast increasing industry in this county.

The saloon is now about ready for business and will soon begin dealing out its liquors.

They have a fine billiard table and this will be a good place to while away a few lonesome hours. Their liquors are first class.

Judging from the reports of the mines and tunnel, we have one solid mountain of marble and several of the precious metals.

We hope it may prove true and everyone get their fill of tunnel schemes. We are of the opinion that "a barking dog never bites."

Hardly a day passes but what one can see from one to a half dozen emigrant wagons on their way to the bright fields of the Wallowa.

They go in every direction and but very few return. We have a splendid climate here and good lands at reasonable figures, and the home seeker is taking advantage of it.

We can say with a feeling of pride that the SCOUT is the paper of Eastern Oregon and we are pleased when it comes from the office.

Many times at the post office window we have heard, "What! no SCOUT to-day! It surely ought to have come." The SCOUT is a welcome visitor to our rancho.

The brick work on the M. & M. store is finished and the main room has been plastered and is now receiving the shelving.

The building will soon be completed and it is one we may feel proud of as it is the only one in Wallowa county, although Joseph will soon be possessed of a brick warehouse unless the brick melt again.

BOG TROTTER.

Telocaset Tattlings.

Oct. 26, 1887.

Ice and frost abundant.

Threshing about over with.

Several citizens on hunting expeditions.

A brother of Mr. Chas. Tombleson of the firm of Brooks & Tombleson, of this place, arrived here from England a few days since.

Last Sunday night the pump on Eccles & Co's sawmill engine was bursted by being frozen, and consequently work was suspended this week.

Telocaset presents an elegant appearance now. There is over 200,000 feet of lumber piled upon the yard awaiting shipment.

School in Pyle Canyon will begin Nov. 10th with Mr. Guy Becker, of Caldwell, Idaho, as teacher. Hurrah for Pyle Canyon!

Born.—To the wife of John Cates, Oct. 23rd 1887 an eight pound daughter. Mother and daughter doing well, but John was seen wearing his new hat Monday morning and his neighbors fear an attack of "don't tell it!" 'Twas a bright October morning. Hopes were high, and spirits gay, When another soul was ushered in, To crown the Autumn day.
