Written for the Scout.1 OCTOBER ANTHEM.

Is this a time for grief and despair When the winds are whistling their merri-est air; When the leaves so yellow, brown and sere Are ushe ingour the lading year?

Each song form the forest, each tune from the field.

Is now of the richest that nature can yield.
All heurs are happy, and blithe, and gay.
And the fondules of friendship no pen can portray.

Tis the same with seeson and age, The autumn of life youth cannot a suage, So let us be joyons, let not grief impart-One glosmy thought to our blithesome heart in the October of Life, oft chill and drear. When the winds of Time are raging here, And the caves of Memory are scattered

found. Is the time that pleasure should abound And we the through our fading year of life. Its placeful hours, with naught of strife. - B. W. H.

### Island City Items. October 31st, 1887.

Prof. K. llogg says "all these wanting apples bring their two cents and he'll furni h the fruit."

Mrs. Eli Baer, of the Oregon Hotel, has been very sick, but is slowly recovering under the care of Dr. Wirtz. Miss Stella Allen, of Grant county, has been employed to teach the "Cen-

ter Valley" school in District 73. Our neighbors on the North in the Russel district have treated themselves to a twelve bundred dollar brick school house. It is about completed,

We have a "painful remembrance" that after a former attack of this kind a "solitary horseman" might have been seen approaching with a four year old club so at present our name is

The Hamilton and Imbler steam thresher has just finished a very successful season's run, threshing in one day as much as 2500, and in all about eighty thousand bushels of grain. C. W. is as much the right man in the right place around a threshing machine is A. N. is wakening up an old back number" tax payer.

Quite a freak of nature occurred on the Sand Ridge this summer. Mr. A. B. Conley, who put in 2500 acres of grain last spring, found after the hard frost in June that seven or eight hundred acres had been so totally de stroyed that it couldn't even be found where the ground was ploughed. A. B. is on the "rustle" and dont allow a little frost work like that to bother him,

Last week a young man of Island City was induced to swallow an overdose of "Jersey lightning" with an idea that it was "Bible temperance." He nearly threw up his inmost soul before the Dr. arrived. That young chap can probably brighten up an old weather beaten spot on his conscience by joinging the prohibition band. If you think we are all a set of crank-, try to turn us and see.

Notwithstanding that discouraging accounts were given of Island City's future prospects last spring, she seems to have about as much business about her as any of her sister cities, although she is the smallest one of the family. At the large establishment of the M. & M. Co., three clerks are kept continually on the "get there Eli" and to the waiting customers they never seem to get there either.

What so youk low, and how do you know it? "By the books, by the books"
What have you lost a dhow can you how it?
"By the books."

We've been attending Circuit court and our feeble mind has been considerably overbalanced by the "prejon-derance of testimony," and we find ouselves G. W. like trying to hatch out very difficult problems with a very little "hatchet." An old bovine Nov. 1st. To Balance kicked us on the leg, causing us to have the "swing your corner limp" of the District Attorney. At times we have difficulty in getting the impeaching questions in proper shape with time, place, persons, etc., but where the mania chiefly shows itself is in being continually harris-ed by that overwellmingly convincing testimony by the books, by the books. Circulars and hand bills are as plentiful as the leaves of the forest. They expatiate on the disadvantages of prohibition, the results as shown in other states and the loss to barley and hop producers.

Messrs. Conklins, from Iowa are in Cove this week and expect to purchase land in the valley and settle permanently. They express themselves well pleased with the country. Two daughters accompany one of the gentlemen.

The symptoms of Biliousness are unhappily but too well known. They differ in different individuals to some extent. A Billious man is seldom a breakfast enter. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and

furred, it is rough, at all events. The digestive system is wholly out of order and Diarrhea or Constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and eften headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effects cure try Green's August Flower, it crosts but a trifle and thousands attest its
