A WARNING.

The modes of death's approach are various, and statistics show conclusively that more people die from diseases of the throat and lungs than any other. It is probable that everyone without exception, receives vast numbers of tubercle germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup, it will give you immediate relief.

Local Lines.

The click and rattle of the festive mower is now heard in every direction. The men who build up a new country are the men who work. The great body of consumers are laboring men and women. They are entitled to the first and best considerations. Many efforts have been made, sometimes by themselves, sometimes by others, to better their condition. That these efforts have failed in part is no reason why they should be abandoned altogether.
One of our western revivalists requested all in the congregation who paid their debts to rise. The raising was general. After they had taken their seats, a call was made for those who didn't pay their debts, and one solitary individual arose, and explained that he was the editor, and could not pay because the rest of the congregation was owing him their subscriptions.—Ex.
The senate committee on appropriations agreed to an amendment on the Pacific appropriations as follows: For Oregon, to increase the Cascade locks appropriation from \$175,000, to \$300,000; for the mouth of the Columbia river, from \$350,000 to \$500,000; the lower Willamette and Columbia, from \$80,000 to \$100,000; the upper Willamette from \$15,000 to \$29,000, and for the Coquille river from \$22,000 to \$25,000, making in all \$954,000 for Oregon, if passed as agreed on.
The Northern Pacific has instituted suit against the King county tax collector to restrain him from levying on property of the company for taxes. The company gave in a list and valuation of their property, which the assessor refused to accept, and placed what he thought to be the true valuation. The railroad claims the levy void, as the taxes were paid for 1887 under the gross earnings law. The matter will be fought in the courts.
Women may not have a great head for a great many things, but they have for secreting valuables. There is a woman in Colfax who possesses some handsome diamonds. She puts them in a box, puts the box in a rag bag, and at night puts the watch dog in the closet on top of the rag bag, locks him in there, and every night hides the key in a different place. Her husband says that if she had her way she would arm him to the teeth and put him in the closet with the dog.—EX.

The West Shore is the only illustrated magazine published on the Pacific coast, and one from its excellent literary features, its object is to convey information, by both pen and pencil, of the great resources of this region, and the progress of its development.
Special illustrated articles appear in each issue; also, several pages of notes of the progress being made in every section. Oregon, Washington, Idaho, Montana, Alaska, Utah, California, British Columbia, and the Pacific Northwest, in general, are being illustrated. The subscription price is only \$2.50. It is not only the cheapest illustrated magazine in the United States, but contains articles and engravings of great interest to every resident of this region, which can not be found in any other publication.
Subscribers for 1888 receive a large supplement every month. The first one is a beautiful map of the "Entrance to the Columbia River," printed in nine colors, and each of the others represents some feature of our sublime scenery. The supplements are alone worth more than the price of the magazine. Try it for 1888, and after reading, send it to your friends elsewhere. You will find it both entertaining and instructive.
