Copp's Land Review.

EDITOR OREGON SCOTT.— The bill introduced by Mr. Holman on August 28th, entitled "A bill to suspend all laws touching the disposal of public lands except the homestead law, and for other purposes," to which reference has twice been made by me, came up for action in the House of Representatives on the 21st ult., and was most thoroughly primed. The entire first section of the bill, as originally presented by Mr. Holman, was stricken out, which removed nearly all of the provision against which objections were directed, leaving only that portion relating to railroad grants. The public land laws will continue to be executed as heretofore. Persons who have made pre-emption filings and timber-culture entries may legally perfect title. Those who made homestead entries with the understanding that they could commute the same to cash at any time after the expiration of six months from date of entry, will be permitted to complete the same in accordance with the terms of their contracts, and persons who accepted pledges of the government redeemable in public land for waivers of valid and valuable claims, may continue to locate their scrip. The people of the great Northwest are to be congratulated upon the escape they have experienced, as nothing could have more seriously injured the growth of their section, than the passage of the bill as introduced. The bill was so changed that the title was found inapplicable and "A bill relating to railroad land grants" was substituted. It simply provides that during the pending of the measures now before congress in relation to the forfeiture of certain lands heretofore granted by congress to railroad corporations and thereafter, no act done or performed by any such corporation shall in anywise enlarge the right or claim of any such corporation to any lands covered by any such grant, or diminish any right now existing in the United States to declare the forfeiture thereof. This provision shall not be construed to in anywise effect or diminish or waive any right now existing in behalf of the United States to declare the forfeiture of any of the lands embraced in any such grant. General News.

There are 309 inmates in the Oregon insane asylum. The U. S. land office at Oregon City, it is said, will shortly be moved to Portland. The Salt Lake baseball club has disbanded at San Francisco. They did not win a game while there. There are 250,000 school teachers employed in the United States. This gives, on an average, 48 pupils to each teacher. The political campaign is waxing warm in Idaho, and the usual amount of printers ink is wasted in heaping political coals of fire on the heads of opponents. McCune, the slayer of James Bewley at Sheridan, was acquitted by the justice in the preliminary examination, as the evidence seemed to show that the killing was justifiable. Twenty-one girls were brought to New York last week by Mormon elders from Europe. These daughters refused to allow them to land and sent them back to the place from whence they came. A writer in the Scientific American says oil cast upon water will cause fog to disappear. Good idea for some Puget sound capitalist to form a company and monopolize the fog business over there. Wheat in the New York market is still looming up, and the chances are favorable for handsome returns to farmers for their surplus. It is quoted at \$1.20 for December delivery, with a slight upward tendency. Tascott, the murderer of Schnell a wealthy banker of Minnesota, has been arrested at Seattle. A reward of \$20,000 was offered by Mrs. Schnell for his capture. A detective has been following him through several states and territories. Thos. Edison offers a cure for the yellow fever which he claims is infallible, and a man named Wm. Kaidman, of Austin, Texas, agrees to enter the afflicted district and cure any case in fifteen minutes to an hour. The government has offered a prize of \$100,000 for an effectual remedy. Work on the Cascade locks will soon begin again, in order to get rid of the \$300,000 recently appropriated by congress. The engineer in charge says that some time in 1900 the work will be finished if the rate of the appropriations is kept up. He believes that Oregon and Washington territory should each make appropriations and keep the work progressing. Dispatches to Portland, Sept. 29th, quote wheat at \$2 per bushel and going up. If this will only be lasting it will be a bonanza for farmers. The N. P. are using their best endeavors to ship wheat over their road, and every inducement will be offered to make it a success. At \$2 per bushel Grande Ronde farmers would receive about \$3,000,000 for their surplus. Ike Newman, a young man recently from Michigan, was swept overboard from the Gen. Miles, while crossing the bay at the mouth of the Columbia, a few days ago. No attempt was made to save him, as it would have endangered the lives of those on board, and also the safety of the vessel. He was told that he was in a dangerous place, but he remarked that he could take care of himself. George Q. Cannon, the most prominent Mormon at Salt Lake City, who has been a delegate to congress several times, and who has for several years been a refuge from justice, because of violating the laws against polygamy, has surrendered, and gone to the penitentiary to serve out his sentence, and Judge David S. Terry, once on the supreme bench of California, is now in jail for contempt of court.

A WARNING.

The modes of death's approach are various, and statistics show conclusively that more people die from diseases of the throat and lungs than any other. It is probable that everyone without exception, receives vast numbers of tubercle germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

THE WEST SHORE

Published by L. SAMUEL, Publisher, 171-173 Second St., Portland, Oregon.

The West Shore is the only illustrated magazine published on the Pacific coast, and aside from its excellent literary features, its object is to cover information, by both pen and pencil, of the great resources of this region, and the progress of their development. Special illustrated articles appear in each issue; also, several pages of notes of the progress being made in every section, Oregon, Washington, Idaho, Montana, Alaska, Utah, California, British Columbia, and the Pacific Northwest in general, are being illustrated. The subscription price is only \$2.50. It is not only the cheapest illustrated magazine in the United States, but contains articles and engravings of great interest to every resident of this region, which can not be found in any other publication. Subscribers for 1888 receive a large supplement every month. The first one is a beautiful octograph of the "Entrance to the Columbia River," printed in nine colors, and each of the others represents some feature of our sublime scenery. The supplements are alone worth more than the price of the magazine. Try it for 1888, and after reading, send it to your friends elsewhere. You will find it both entertaining and instructive.
