The fiction accomplished its purpose. After many strange and solemn experiences in the routine of government. Constantine XIII ascended the throne of the Eastern Empire, in 1448, the last tottering fragments of what had been the Imperial.

In 1451 Mohammed II succeeded to the Ottoman throne and at once began TURRISH MANNERS AND CUSTOMS to undermine the crumbling ramparts of the Eastern capital-Constantinople. He made treaties of peace with Constantine, and at the same time sent forces to erect a fort within sight of the capital. Vain were the solemn protests of Constantine. In April, 1453, a large Turkish force was conveyed across the Bosphorus and the ple were totally destroyed. The inva-
