THE OREGON SCOUT.

AMOS K. JONES. EDITOR.

The Oregon Scout has as large a circulation as any two papers in this section of the State, combined, and is correspondingly valuable as an advertising medium.

Notice to Delinquents.

We recently sent out statements to a number of our subscribers who are behind in their subscriptions for several years, offering a liberal discount if they paid at once. Most of them responded but some have paid no attention to the matter, whatever. We will say to those that on the 10th day of April their accounts will be placed in the hands of an attorney with instructions to collect or institute suit at once. After the 10th, settlement can only be made at the rate of \$2 per year on subscription. The accounts of our Wallowa delinquents will be placed in the hands of H. F. Burleigh, who will be in Enterprise on the 15th of April.

Sparta Mines.

The mines at Sparta are giving a very encouraging outlook and it is not unlikely that one or more mills will be erected there the coming summer. The Del Monte group have very recently been experted by a representative of New York capitalists and it is said that a very favorable report was made and a sale is almost a certainty. The Little Pittsburg, Big Pittsburg and four other mines, all included in a group and in the hands of an incorporated company of Walla Walla parties are being developed extensively and are showing fine bodies of high grade free milling ore.

Another Discovery.

In connection with the reported discovery of mines near Telocaset on Powder river we will say that Mr. Wm. Gates visited us, Monday, and stated that he had also discovered what he believes to be an extremely rich ledge, some three or four miles from the line mentioned by our correspondent. The vein is about three feet wide, of bluish gray quartz, with five or six feet of iron ore on either side. It is thought by experts to be richer than the ore in the other localities. Specimens of the ore from both of these discoveries are to be seen at this office.

Show Your Colors.

Subscribe to the railroad subsidy. Don't hold back because some close-fisted neighbor of yours does so. If every man acted on that principle the world would relapse into barbarism inside of twenty-five years. Come up now to the center, you property owner; the eyes of the community are upon you. You cannot afford to shirk a responsibility of this kind. You cannot say that it will not profit you ten times over the amount invested by your subscription. You know it well. Then put down your name.

His Business Booming.

Probably no one thing has caused such a general revival of trade at Brown's drug store as his giving away to his customers of so many free trial bottles of Dr. King's New Discovery for Consumption. His trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Another Dramatic Treat.

Mr. John S. Lindsay and his talented company will appear in this city, one night next week, in that popular drama, "The Lady of Lyons." That a crowded house will greet them is beyond a doubt, for they proved themselves masters of their profession when they appeared three nights in this city a month ago. The evening of their appearance has not been decided on yet, but the date and further particulars will be given in small bills.

A Shooting Scrape.

News comes from Weiser City of a shooting scrape having occurred at the mouth of Brownlee creek, on Snake river, Washington county, Idaho, on the 23d inst, in which Walter Gergrich shot and supposed fatally by James E. Goodman. The shooting was the result of a quarrel over a water right. Goodman surrendered himself and was acquitted on preliminary examination. —Baker Democrat.

Another Murder.

At a dance given at Hamilton, Grant county, a few evenings since, J. M. Hamilton, son of Senator Hamilton, was killed by Cate Hinton, a 17 year old boy, who stabbed him in the breast. Hamilton was about forty years old. There was no provocation for the killing.

Tourists.

Whether on pleasure bent or business should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 5c and \$1.00 bottles by all leading druggists.

The La Grande Journal says: "The Hunt road can do no one any harm and will do the valley in general much good. Moreover, the Journal would intimate to the people of La Grande that if a small fraction of the spirit of 'set up and move' were shown in La Grande that is displayed in other parts of the county, there would be no danger of our supremacy being wrestled from us. It is a sad state of affairs when the citizens of any place 'suss' their own town."

An effort, we understand, is being made to organize a rod and gun club in Union.

We understand that quite a number of the boys "went broke" on Faro this week.

A man by the name of Apple is justice of the peace, Union county. He may be found, but how can he be square?—E. O.

It is said that the Looking Glass valley is being settled quite rapidly. This is probably in anticipation of the Hunt railroad going that way.

Circuit court is in session. Up to the time of going to press but little has been done. Full proceedings will be given in our next issue.

Mr. J. C. Shields, dentist, of Baker City, is in town, and will remain about a week. Those desiring work will call on him at the Centennial hotel.

The latest news from Judge L. B. Ison is to the effect that he is steadily improving and his physicians are hopeful of a permanent recovery.

Through the death of James B. Stevens, of East Portland, the other day, Frank Dick, of La Grande, falls heir to property amounting to \$10,000.

The U. H. & L. Co. have just had a neat and attractive seal made, with which to embellish and give importance to their official documents.

The public school will close on the 19th inst. Seven pupils will graduate. Preparations are being made for public closing exercises which will take place at Wright's Hall.

Ladies do not fail to call at the millinery store of Mrs. Rinehart to take a look at those new shapes in bonnets and hats just received from Fashion's headquarters.

Mr. Hunt is still in Chicago. His boy is very sick, and he will probably not be here for a week or two. This will give us longer time to work on the subsidy, and it is needed.

Mrs. Corbin, the most popular milliner in Union county, can be found at Mrs. L. B. Rinehart's millinery store where she will trim hats and bonnets in elegant style to suit the most fastidious.

Mrs. L. B. Rinehart has employed Miss Minnie Bloom, of the Cove, to sell millinery goods. Parties living in that vicinity wishing to purchase fine hats or bonnets will do well to call on Miss Bloom.

Quite a number came up from the Cove recently, to see the nigger show and probably wish they hadn't. If they will come up next week when Lindsay and his company appear here they will not regret doing so.

Reformed tramps and gamblers have found a profitable business in the lecture field. They are becoming numerous along the lines of railroad just now, and seem to be the particular pets of the Women's Christian Temperance Union.

The trial of F. P. Baker, for bigamy will take place at Boise City this week. Several witnesses were subpoenaed from this place and took their departure the fore part of the week. Among them were county clerk Nellie, George Beideman, Mrs. T. H. Crawford and Mrs. Corbin.

Messrs. Baird & James have decided to give another social dance to-morrow night at Davis' hall. It is not necessary to state that it will be an enjoyable affair, as these gentlemen are too well known as to their ability to manage an affair of this kind. Everybody invited. Tickets \$1.00.

A story and-a-half frame building in the Arlington block, Baker City was totally destroyed by fire, last Thursday evening. A disastrous conflagration was narrowly escaped. The fire was the work of an incendiary, Wm. Kobeson was arrested and charged with the crime.

The Texas Siftings ranks first among American humorous papers. It and The Scout will be furnished one year for \$2.75, or any of our subscribers who are not behind on their subscription, can have the Siftings for \$1.25. The regular subscription price of the Siftings is \$4.00 per year.

The professional card of Col. James C. Dow attorney at law, of Cornucopia, appears elsewhere in this paper. He will attend promptly to land business before the U. S. courts. He will also buy and sell mining claims on commission and furnish any information concerning mining properties desired. The Col. has had many years experience in this line of business and will be found thoroughly reliable.

Some of the La Grangers ask the reason of our statures on their town, as if they did not know. We are trying to conduct THE SCOUT in the interests of the whole county, but Union is our home, and when the La Grangers tread on Union's tail they tread on our tail, also. Union's tail has been trod on. That is the whickness of the wheeler and the reason we protest. As we said before, to all intents and purposes, it is our own individual narrative that they are monkeying with.

Floes! Floes! Floes!! Latest improvements and lowest living prices. Simplest and most convenient method of adjusting beam and line of draft, making plow run lighter and do better work. A Vast Quartz Deposit Found Near Telocaset.

A RUSH TO LOCATE CLAIMS.

Rich Assays, a Visible Ledge and Enthusiastic Owners.

TELLOCASET, April 1, 1889.

Last week while on a hunting and prospecting trip down the hills skirting Powder river, on the eastern side, about three miles south of this place, Mr. Wm. Ashby, who resides on the Starks rancho where the road first strikes Powder River valley after passing the Telocaset divide, found what proved later to be one of the richest quartz deposits that has been discovered in this vicinity for many years.

The ledge is traceable for two or three miles, cropping out here and there along the ridges of the Powder river divide. It is located in the richest parts, about three miles from Telocaset, on the south bank of Powder river, in easy access to this station. The quartz is of a reddish brown color, porous composition, and specks of free gold are visible on the outside of nearly every piece [one can pick up]. The ledge, where visible, is from four to seven feet wide, and holds its width splendidly as the shaft being sunk goes down.

For miles on all sides of this place stray pieces of good, genuine, first-class quartz have been discovered from time to time for several years, but this last strike has located beyond any reasonable doubt, what is the ledge, and one of the best kind of ledges yet found in Eastern Oregon. It is a burnt rock, and as some prehistoric volcanic action down in the bowels of mother earth has reduced the gold to a molten state, and it has doubtless all been run or moulded down, as the natural result of a molten metal. Consequently the farther down the ledge goes the richer it gets.

From the present outlook this new find will develop into something not equaled since the discovery of the Sacramento find in 1849. It has been a known fact that gold was to be found down on the banks and sand bars of Powder river. Some two or three men made from \$2.00 to \$4.00 per day with only a pick, shovel and pan. It was free, sead gold, and this ledge proves that here in the barren hills of Eastern Oregon lies yet what may be an '89, and not a '90.

Mr. Ashby took some of the medium valuable pieces of rock to the assayer at Baker City, which assayed from \$42.75 to 223.90 per ton. As yet six men have located valuable ledges on the scene and could not be bought off now for a good sized fortune. Mr. Ashby is an experienced miner and understands thoroughly the workings and appearance of the mine. He has faith in it. Mr. C. F. Hineckley, a man of many years' experience, has located a claim and is going to work at once.

An Omaha man offers to take the ore and reduce the gold from it for the sulphurates of iron the rock contains. It looks flattering now, and perhaps the insignificant city of the summit may bloom out yet in the richness and wealth of a new found Eldorado.

In Memoriam.

WHEREAS, It has pleased Almighty God to remove from among us, by death, Mrs. J. W. Minnick, wife of our beloved Brother, John W. Minnick, and

WHEREAS, By this sad bereavement which our Brother sustains, we are reminded of the uncertainty of life, and that although in the prime, yet we are within the care and subject to the call of Him whose eye is ever upon us. Therefore be it

Resolved, That Union Lodge No. 39, I. O. O. F. extend to our Brother our deepest sympathy and condolence in this his great loss,

Resolved, That this offering be spread up on the records of the lodge, and a copy be given to Brother Minnick, and a copy furnished to each of the city newspapers for publication.

The Baker Democrat says: "Gum Warren, a stockman of Union county, is at Haines buying yearling cattle and has thus far received 250 head, paying therefor from \$10 to \$12 per head. It is said he is buying for an eastern firm who want at least 1000 head."

Mrs. Rinehart returned from Portland, last Wednesday, where she has been to purchase a fine line of millinery and fancy goods, in the latest novelties, to add to her already large stock of goods which she will sell cheap for cash. Call and examine goods and prices before purchasing elsewhere.

The Oregon and Washington territory engineers returned to Walla Walla Saturday. They claim to have found a practical route to the Grande Round via Milton and Linkton mountains. A fully equipped party left on Thursday to continue work.
