## THE CROWN OF THORNS.

A Popular Error Which Has Been Sanctioned by Artists.

I know the masters of painting from Guido in his wonderful "Ecce Homo" down to the present time have depicted the crown that rested upon the head of our crucified Saviour as a twisted branch of bare thorns, and that is, so far as I k low, universally accepted as the true grown.

Some years ago an incident that occurred in the Holy Land caused me to think that this popular belief may be a mistake. A party of us who were journeying toward Jerusalem at this season of the year, which is identical with the passion and death of the master, had stopped to rest and lunch just after entering the hill country, some miles beyond Remleh, when a lady of the party who was gathering the beautiful flowers that covered the landscape on all sides wreathed an exquisite spray, and | and never allow the fowls to go thirsty.

In raising poultry or stock of any kind it should be the aim of every one to keep it healthy and improve it. You can do it very easily by adopting some systematic rules. These may be summed up in brief as follows:

1. Construct your house good and warm so as to avoid damp floors and afford a flood of sunshine. Sunshine

is better than medicine. 2. Provide a dosting and scratching place where you can bury wheat and corn, and thus induce the fowls to take the needful exercise.

3. Provide yourself with some good. healthy chickens, never to be over three or four years old, giving one cock to every twelve hens.

Happy Recovery.

There is nothing I now enjoy that I do not owe to having used Dr. David Kennedy's Favorite Remedy of Roundout, N.Y., at a that when I was suffering all that a human being could endure. My troubles began in my kidneys, from which I never expected to recover. My physician said I had Bright's disease. Later I had a bad attack of gravel. Six years ago last June—how well I remember that day—I saw Dr. Kennedy's Favorite Remedy advertised in our paper. After using three bottles I was well, I have never had a return of the disease, and though I am over sixty years of age I am vigorous and strong, as I was in my prime. What physicians and the many remedies I had taken could not do, Dr. Kennedy's Favorite Remedy did: it staved the disease and made me a well woman.—Mrs Emiline F. Mizner, Burg Hill, O.
