It is to be hoped, says the Sunday Mercury, that the Brown Squard elixer is a glittering fraud. What would become of this country if the mossbacks of Oregon were to live always? Let the mossback of the coast go where he belongs and his place be filled with men whose hearts can be found without the aid of a microscope.

An exchange says that an editor once applied at the door of Hades for admission. "Well," replied his sable majesty, "we let one of your profession in here many years ago, and he kept up a continual row with his former delinquent subscribers, and as we have more of that class of persons than any other we have passed a law prohibiting the admission of editors."

Correspondents must sign their true name to communications to guarantee their publication in THE SCOUT. We have lately received a few articles with no signature and the mistake is a great annoyance to the publisher. This rule is universal in journalism and should be remembered. Of course the name need not be published, but it is essential for us to know the author of every article in our columns.

At the regular meeting of the firemen last Monday evening considerable business of importance was transacted. One thing that will interest the public is that it was decided to call the regular meetings by ringing the fire bell. This will be done by tapping the bell three times, then after an interval three times again, and after another interval, three times more. This will be readily distinguished from the fire signal and need not occasion alarm.

Rather Peculiar.

A few days ago the remains of a fat steer, supposed to be the property of Hon. L. B. Rinehart, was found near his place on Catherine creek. Some thief had killed it and carried off a quarter after cutting a piece out of the hide containing the brand. The perpetrator of this outrage is not known. It is whispered around town that A. T. Neill and Gum Warren were cumped in that vicinity about that time. Rinehart says that he is confident it was a democrat who killed the steer, because if it had been a republican he would have taken it all. There is no disguising the fact that Neill and Warren are both democrats.

The attention of farmers and grain dealers is called to the superior facilities and advantages offered by Frank Bro's Implement Co. for the purchase and handling of all kinds of grain at their large warehouse and elevator at La Grande. They will furnish farmers sacks for the hauling of grain free, and having unlimited facilities for storing and roasting advances on wheat, can offer superior inducements to those who may desire to hold their wheat for better prices, or they will pay the highest market price in cash.
