CAUSE AND EFFECT.

In the forest's cool recesses,
By the side of mountain stream,
Midst the zephyr's cool caresses,
Here I love to sit and dream.
Where no strife or agitation
Both my sweet retreat invade;
Here in quiet meditation,
Sit I in the pleasant shade.
Here my mind seeks information—
Strive to learn of Nature's laws;
And I find that all formations
Are but the effects of cause.
At my back a pine tree loometh
High above surrounding trees;
By my feet a floweret bloometh,
Casting fragrance on the breeze.
At my right, and adler sappling
Stands on bank of rippling stream;
At my left, with tendrils grappling,
Grows a vine of humble mead.
Each of different form and stature;
Each a different law obeys;
Each wrought by a different mixture
Of commingling gas and clays.
If the elder change and perish,
Which in turn produces cause;
Effect is cause, and cause is effect,
First and last of Nature's laws.
—H. C. EMERY.

COUNTING THE PEOPLE.

Some of the inquiries to be made by the Census Enumerators this month.

The eleventh census of the United States will be taken during the month of June. The census enumerators began their work on Monday, June 2, and will visit every house and ask questions concerning every person and every family in the United States. The questions that will be asked call for the name of every person residing in the United States on the first day of June, with their sex and age, and whether white, black, mulatto, quadroon, octoroon, or Chinese, Japanese, or Indian. Inquiry will be made also of every person as to whether they are single, married, widowed, or divorced, and, if married, whether married during the census year. The place of birth of each person, and the place of birth of the father and mother of each person, will also be called for, as well as a statement as to the profession, trade, or occupation followed and the number of months unemployed during the census year. For all persons ten years of age or over a return must be made by the enumerator as to the number able to read and write, and also the number who can speak English the particular language or dialect spoken by them will be ascertained. For children of school age, also the number of months they attended school will be recorded by the census enumerators. In the case of mothers an inquiry will be made as to the number of children they have had, and the number of these children living at the present time. This inquiry is to be made of all women who are or have been married, including all who are widows or have been divorced. Foreign-born males of adult age, that is, 21 years of age or over, will be asked as to the number of years they have been in the United States, and whether they are naturalized or have taken out naturalization papers. Of the head of each family visited the question will be asked as to the number of persons in the family, and whether his home is owned or hired; also, if owned, whether the home is free from mortgage incumbrance. If the head of the family is a farmer, similar inquiries will be made concerning the ownership of the farm. In addition to these inquiries, all of which are made on the population schedule, the law under which the census is taken makes the provision for special inquiries concerning such of the population as may be mentally or physically defective in any respect, that is, insane, feeble-minded, deaf, blind, or crippled, or who may be temporarily disabled by sickness, disease, or accident at the time of the enumerator's visit. Certain special inquiries will also be made concerning inmates of prisons and reformatories and of charitable and benevolent institutions. Besides this, a statement will be called for concerning all persons who have died during the census year, giving their name, age, sex, occupation, and cause of death.

This official count of the people comes but once in ten years, and every family and every person should consider it to be their duty to answer the questions of the census enumerators willingly and promptly, so that definite and accurate information may be gained concerning the 65,000,000 people living within the bounds of this great country.

THE PARK.

A Condensed Record of Recent Interesting Happenings.

Sam'l Rutledge is in the mines at work.
The recent rains wet the ground in pretty good shape.
The prospect is splendid for good crops of grain and hay.
The measles have about disappeared from this community.
School will begin next Monday, with Miss Kennedy as teacher.
Jack Frost has been in the Park, for it is plain to be seen where he has taken a bite.
Mose and W. M. have got the justice paid; all the trouble now is for them to find the other parties.
Mrs. E. T. Smith, Miss Carrie Rutledge, D. Smith and Dan Van returned Monday from a week's visit to La Grande.
Dick Duncan has got the logging contract and has moved up ready to go to work, but the rainy weather is putting the work back.
Dunham Wright has got over the measles so that he can talk some. Everybody knows that it is a task for Dunham to talk much at any time.
The election passed off quietly. Votes for Union were thick around here. Sanford Shaw came home from the sheep camp in order to vote for Union, and on his way found a mare that he had given up as stolen as she had been gone about a year. Moral—Do the right thing and you will be rewarded.
It is reported that La Grande voted everything in the shape of a human that could be found. Even the passengers on the trains could hardly escape. The ku-klux were honest compared to the La Granderes. We should not blame them however, for according to the doctrine of some creeds it was foreordained from the foundation of the world that La Grande should do just what it has done and is doing.
The mill company have got their boiler and engine home and in place. They will start to raving in a day or two if the weather will permit. When they were bringing their boiler around by way of Telocaset, they lost a four-inch monkey-wrench somewhere between Frazier's place and Lyon's hill. Any finding it and leaving it at The Scout office will be paid for their trouble.
I will make the boy take me to the sheep camp.—S. It will be hard for me to take all that brandy and ginger I got for the measles, but I can if I have to.—I. I think my boy is the best and prettiest there is.—E. If I had known he would deny it, I would too.—B. Oh for a gal—a gallon of good old rye.—W. Oh for a man—a mansion in the skies.—D. If he gets drunk again I will whip him, so help me God.—L. I never was so drunk in my life.—J. I am going to send for my life; I don't like to have a woman and not have her, either.—J. MOIRE.

WOLF CREEK BUDGET.

Plenty of rain.
Crops are growing nicely.
Sunday school every Sunday at 2:30 p. m.
Election is now over and we congratulate Union on her victory.
Jno. O'Brien has moved to his "peach ranch" in the foot hills and is running a dairy.
There was plenty of La Grande whiskey at the election. So much that the streets almost staggered the next day.
Mr. Jas. Ginkinson's son made a flying trip to the Big Creek country this week on a visit to his nephew, Jas. R. Ginkinson.
The school on Wolf creek is progressing nicely with 45 pupils enrolled. Last month the daily attendance was 36. Several of the North Powder pupils are attending Wolf creek school.
The 1st inst. Rev. Douglas, editor of the Baptist Sentinel of Dayton Wash, preached to the good people of Wolf creek. The sermon was good; but we will have to take exception to the latter part, because no true Christian would make the assertion, "unless you are dipped under the liquid wave you will be lost." Such an assertion is not consistent with the teaching of the bible. We are of the opinion that there are other baptisms than water.
