The appointments of Prof. Bell to lecture in this county are as follows: Union. Sep. 8th; New Bridge, 10th and 11th; Summerville, 12th and 13th. The milling company at Summerville have

purchased of Staver & Walker a 35-horse power engine to be used in conjunction with their water power. We understand that another restaurant

will be opened in a few days by Mrs. Eva ; Newberry and Mrs. Lizzie Baird in the building adjoining the postolice, The brick company have completed the

burning of one kiln of brick and the work of building will not be again retarded for want of this necessary material. The Farmers' Institute which convenes

in this city next Wednesday promises to be a very interesting affair, and no doubt there will be a large attendance. The institute at Meacham, which was

among the most successful ever held in Eastern Oregon, closed last week, and the teachers have left the Mountains.

It is said that the late discovery made by White and Buckland at Paddy's Paradise. near the road from this city to Cornucopia, is turning out large quantities of rich ore. The owners have an arastra in operation

and are meeting with great success. The game of baseball last Sunday between the Nodine and Shirley nines, resulted in the defeat of the former, the score standing 18 to 15. Another game will be played at 2 o'clock p. m. next Sunday, on the Lennington grounds in this city, between a nine selected from the two teams

mentioned above and the Union nine. Harney valley is overrun with frogs. The Items speaking of them says: "The least excuse of a shower brings countless numbers of them into action. They are a new kind of frog for this locality, and no one has yet been able to ascertain where they came from. And it goes without saying that nobody cares where they go, so long as

Our readers will remember the account given in The Scout last spring of the drowning of the seven-year-old son of Mr. Bassett in Pine creek, Pine valley. The body was not secured at that time, although diligent search was made for it, and it was thought it was carried on to Snake river. This was not the case, however, and a few days ago the body was discovered partly covered up in the sand and debris. It was taken home and properly burried.

At Cornucopia there is ore enough on the dump of the Red Jacket mine to keep the large 20-stamp milling plant of the company running steadily for a year, not estimating the amount of ore in sight in the mine. The tramway injured by the snow slides of last winter has been repaired and Superintendent Cochran takes hold of the management of the company's interests under very favorable circumstances, and is determined to push things in a businesslike manner. The starting up of the mill will be the commencement of a new era of prosperity for the entire section.

"There Will be a Big City."

A Portland paper says: "The mining products of Oregon during 1889 is given a total value of \$1,393,838.37 in the annual report of W. H. Diamond, superintendent of the San Francisco mint. Union county leads the list, both in number of mines and value of products. The mining camps of Cornucopia and Sanger, in Union county, are yet in their infancy and need bu the magic influence of capital to place them on the list of prosperous producers of a golden stream of bullion. Baker county through the product of the Conner creek mines, owned by Sim Reed, of Portland, is fortunate in finding a second place. Within a few years, mining operations will be conducted on such a scale (in Eastern Oregon as to attract the attention of all interested in such pursuit, and somewhere in that locality there will be a big city spring into existence as the base of mine supplies for all the surrounding country," The above is true in every respect and it does not require a great deal of penetration to see that Union is the proper site for the big city that is to be. The time is coming, slowly, but if our citizens possessed proper enterprise it could be hurried some.

Proceedings of the Council.

At a special meeting of the council last Saturday evening all the members were present. The meeting was called to order by the mayor.

It appearing that by reason of the inompetence and stupidity of former county officers and the parties who laid off and recorded the town site, that the location of Union is not shown on the records, neither the township or section in which it is located being given, the city attorney was instructed to immediately take such action as is necessary to remedy the defect and anchor the town and its additions.

On motion the marshal was instructed to notify the saloon keepers to close their premises on Sunday. Ed E. Cates was appointed special policeman. On motion the council adjourned till the next regular meeting on Saturday next.

There they met Mr. Lee Wilson, formerly of the Cove. They also visited Mr. and Mrs. Dr. O'Connor of Pine Valley, and returned home through Eagle valley. They brought home some very fine specimens of

The most enjoyable event that has taken place for some time was the "Conversation Party"given by Miss Francis Wright last Priday evening. The novel features of the entertainment added zest to the occasion and it was a late hour before the guests dispersed to their homes. During the evening choice refreshments were served. Those present were Misses May Stevens, Ida Davis, May Miller, Hettie Dobbin Myrtle Squires, Beatrice Lowe, Mamie Baker, Sadie Corey, Maud Summers, Nettie McComas, Jennie McGillis, Lora Warren, Kitty Miller, Mollie Foster, and Messrs. Jack Oliver, E. J. Couper, L. J. Davis, M. F. Davis, Brownlow Chancey, Frank Hall, Fred McComas, Geo. Benson. Chas. Bean, Fred Ballard. and Geo. Beidleman.

In a Bad Fix.

Mr. Geo. Shinn, our Bake: City correspondent, instead of sending a communication this week as we expected him to do. writes a private letter and excuses himself in this way:

"Baker City rather dull at present. My best girl shook me some time ago and I am all broke up and not responsible for my future actions. Witness the following: O fair! O vain! O vain! O fair!

Noted Lecturer Coming.

Prof. W. S. Bell, of Chicago Illinois, will lecture at the court house in this city next Monday evening and a rousing reception should be given him. The Prof. is said to be among the most brilliant speakers on the liberal platform. The Denver (Col.) Republican says of him: "He is an eloquent and forcible orator and can win his way into the hearts of an audience as quickly for \$4.50. as any one." The Sandusky (O.) Evening Jeurnal says: "Sunday night's lecture at \$1.50 per annum. Anyone sending us the Fisher's Hall, by Prot. W. S. Bell on "Lib- names of 10 new subscribers, with the cash, erry and Morality," was fairly attended by an appreciative audience. The lecture was argumentative and humorous, delivered in good taste, well illustrated with ancedotes and adorned with allusions to the Bible and Shakespere as the two most marked and least understood works of this or any other age. The proffesor is as sincere now as church, and affords a very interesting evening's sitting to his auditors."

A CASE IN POINT. In our forefathers' days, pimples were attribu ted to diseased blood. But modern medicine has demonstrated that rich food does not create erup tions by fouling the blood, but retards digestion which makes the stomach torpid, and the circu lation sluggish, and in turn causes an enfeebled action of the pores which congest or become pimply. The modern theory therefore is not to treat the blood, but the stomach and liver, and it is under this new idea, that Joy's Vegetable Sarsaparilla was conceived. It has wiped out the "blood disease" theory of pimples, of the old sar saparillas. A case in point "I have had for years spells of indigestion and dyspepsia and tried nearly everything. Finally I took one of the leading sarsaparillas. It did not help me, but caused pimples to break out on my face, which I was told was caused by the potash it contained. Bearing that Joy's Vegetable Sarsaparilla did not contain mineral and might act differently, I sent for it. The pimples disappeared immediadely and I have now after months had no return of the old spells. It is a cure for indigestion and dyspepsia and the attendant face eruptions."
