#### A TALK TO THE BOYS AND GIRLS

#### The Progress to be Made During the Next One Hundred Years.

#### EDITOR OREGON SCOUT :---

A por ion of this letter is written for the boys and girls of Union, who are supposed to be unacquainted with the early history of their town, public school and surrounding country, so older people must not read it.

Union was located in the dark days | ton, one of the founders of the school, of our great civil war. Those were the days that tried men's souls, for the Union army, through the incapacity of their generals was losing battle after battle. At the disastrous battle of Balls Bluff on October 21, 1861, Colonel Baker, United States Senator from leading on his troops. Two years lafor him. Judge Pyles, whom Pyles canyon was named after, was a memcounty. Then there was no Union county, it was all Baker county, and death, the farm now owned by William Huffman.

The little band of settlers on Catherine creek were about all for the Union and so was Judge Pyles, and at done towards civilization. Many of one session of the legislature he managed to have Baker county divided, hard earned wealth has been squanand to show their love of country the dered by our heirs, wish we had given people gave the new county the name of Union. There were only a turn in our graves in agony of spirit, few southern sympathizers here at that we can only mourn in our silent antime. One of them was a traveling guish." He will also notice headers preacher of the Methodist Church, and header wagons running in the South, who, in the middle of his sermon, has been known to stop and hurrah for Jeff Davis and the Sunny South. the air, carrying (but that is another He hurrahed once too often over in story,) and wagons, buggies, plows Walla Walla, for the star spangled banner was still waving over the fort, though he allowed it would not wave there long. What a prophet he wasa second Wiggins. I came through he will be amazed, until an angel Walla Walla last January on my way standing by his side whispers in his New Discovery and am sound and well, home from Fort Colville, and noticed ear, "Electricity," and says to him, that the starry flag was still flying over the works. He left Walla Walla in the night for the Boise country, on the hurricane deck of a cayuse, with a howling gale of wind of outraged public opinion blowing on his back to help him along. If the boys in blue had caught him he would have hung higher than Gilrov's kite ever flew. I have been informed that the preacher wanted the town called Davisville, but Mr. Champan, who laid off the town, swore that no town of his creating should be named after such a traitor to his country, and gave it the patriotic name of Union. Union forever, girls, and when you grow up and become mothers, teach it to your children. In 1863, Bennington and Craig built the Catherine creek saw mill. Clark, Coffin and Hinckley took the logging contract to cut and deliver the logs in the pond at the mill for \$70.00 per thousand feet. Think of that, you him to worry and fret. Did you? loggers, who only get about \$4.00 now for the same work. All travel then went by way of Ladd canyon. There was no road in Pyles canyon, only an Indian trail. Clark, Coffin & Hinckley brought the first wagon down Pyles canyon into Grande Ronde, a logging wagon that they bought at Aubura. At two rocky points in the canyon they had to lower the wagon over with ropes. They had a tough time of it. Afterwards, Judge Pyles hired men and built a road, such as it was, and petitioned the legislature for a charter for a toll road, and got it, and for many years after, all travel in Pyles canyon had to pay for the privilege. How different it is now. The Union Pacific winds its way on the west side of the canyon, and many think that the O. & W. T., after leaving Union next fall, will go up on the east side. Pyles canyon and the Antelope country have fine cops this year-about 20,000 bushels of grain and 1,600 tons of hay. The Tombleson Bros. fly the flag with 4,100 bushels of grain and 135 tons of hay. THE SCOUT reporter went up to help the boys a couple of days, but they treated him so well he stayed five. Mrs. Charles Tombleson prove it and you will grow up well or money refunded. Price 25 cents per and the baby and Mrs. Ollie Hanson nee Miss Ollie Prescott, were the cooks. And what cooking ! (Oh my !) We had to run the boys off with clubs, for they did not like to go, and said it was the best place they had found up to date. Mr. Jasper Mitchell threshed 2,900 bushels of grain and has several hun- rendered during our late bereavement. dred tons of hay. Mr. J. S. Hinckley & Son have over 3,000 bashels of grain

## Campbell & Dalton are doing good work with their thresher. They have Interesting Account of its a good crew of men. You hear no growling, and that is something unusual around a threshing machine.

You boys and girls of Union do not pay one year's subscription in advance, realize how hard some of the citizens | for \$4.50. of Union worked to provide you with your present fine school building.

The best way to repay them for the money, time and labor they have expended for you, is to be industrious and grow up to be gool men and women. The Union public school is clubs.

a fine two story brick building and has able teachers. The town has recently voted \$15,000 for a new brick annex to accomodate the increased demand for admittance. Mr. Abe Ea-

subscribed largely in money, time and labor several years ago to erect the building. I believe he gave \$500, but am not sure, at any rate he gave a large sum, and other citizens helped nobly. If he ever dies and becomes an angel in heaven, and looks down Oregon. was killed while gallantly on Union one hundred years hence when she is a large city of 300,000 inter Baker City was laid off and named habitants, the city limits extending on the north to what was once Forest Cove and on the west to the fashionaber of the Oregon legislature from Baker | ble resort of the Hot Lake, and notices the thousands of well dressed, happy, industrious and well educated people, Auburn was the county seat. Judge who received their education at the Pyles located, and lived on until his Union public school, he will say to himself, "Well this beats me. I always was in favor of helping the public schools, but never realized so strongly before the good they have us after we are dead and see how our more while living, and as we toss and fields and being propelled without horses, and flying ships sailing through and machinery of all kinds running without horses, and various other improvements and inventions too numerous to mention in this article, and

Webster's Unabridged Dictionary which formerly cost \$10 and 12, will be given to all new subscribers to THE OREGON SCOUT, and old subscribers who will renew and

The subscription price of THE Scour is \$1.50 per annum. Anyone sending us the names of 10 new subscribers, with the cash. will receive one of these superb dictionaries free of charge. This is the best chance for securing a good dictionary ever presented and should set the boys and girls of the country to work with a will in getting up

The wants of the people-of the great mass of the people at least-do not require for their satisfaction an investment of \$10 in a dictionary. In most cases that amount can be better expended in the purchase of articles more urgently needed. The reprint edition of Webster's Dictionary offered by THE Scour serves as a reliable guide for spelling and pronunciation. It contains, besides, more than 100,000 ,words. a complete vocabulary of mercantile and legal terms, scriptural and historical proper names, Greek and Latin proper names, an apendix of more than 10,000 uncommon words, 1,500 cuts and other useful and in structive matter in great quantity. It is in short an indispensable book for every student and family, and costs so little that every family can afford to have it. The paper and binding are both good, and the book will bear examination. Call at this office, see sample copy and be convinced.

#### Why all this Blowing?

Our contemporary in La Grande, the Gazette, is constantly blowing about "big real estate transactions" in that burg, and as the alleged sales nearly all end in smoke. such a useless waste of wind is certainly be coming very monotonous to the readers of that paper. In the last issue it speaks of \$150 per front foot being paid for a lot on Adams avenue. It may be so, for we have not at this time any facts to refute the statement, but while at work recording these transactions why not mention the sale by Sheriff Bolles of lot 3 in block 121 and lots 1, 2, 3 and 4 in block 116, all for the magnificent sum of \$25, and still this property lies near the "\$150 per front foot" property. Five lots for \$25! Just think of it! 'Wouldn't it kill you." The incumbrances on the property amounted to but little. R. E. Bryan was the lucky (or unlucky, as the case may be,) purchaser.

# DANGEROUS PURGATIVES.

#### A City Policeman's Experience.

Mineral pills and drastic purgatives so irritate the mucous coatings of the stomach and bowels. that they often leave the system in worse condition than before. In fact their cathartic action is due to their irritation. The danger attending their steady use is apparent. The new axative principle in Joy's Vegetable Sarsaparilla rets its cathartic action by increasing the muous secretions and gently stimulating the stomach. It is purely vegetable, does not lose its effect, is effective and absolutely safe to be taken occasionally or continously by the most delicate

Gus Videau, the well known police officer of No. 1826 Howard St., San Francisco, writes: "After my own experience I firmly believe that Joy's Vegetable Sarsaparilla will cure the most obstinute cases of constipation. Although cured I am still tating it, and never had my system so thoroughly

egulated. By increasing or diminishing the tose one has absolute command over himself with this valuable remedy."
