MATOR KENNEDY'S EFFUSION. Mayor Kennedy in last week's issue

of the lickspittle organ across the way

comes out with an article in which he

attempts some apologies for his dis-

creditable acts as mayor. He evidently got his son-in-law, Wilson, the blooming councilman, to write the article for him as it contains the same shameless distortion of facts, pitiable attempts at palliation of what he knows is wrong, and the same imbecile reasoning that characterized the article written by that worthy the week previous. With a brazenness unparalelled he asserts that his call for a special meeting (in which the object was not stated) was in "violation of no city law." Will anybody believe him when he says it? His other assertions are equally absurd and equally false but he reaches the climax of falsehood when he says that we "absolutely refused to vote although carnestly requested to do so by the mayor and members of the council." He knows that the vote had been taken before we came in, that we were not informed that only two of the councilmen had voted, and he well knows that he did not nor did any of the councilmen "earnestly request" us to vote or intimate that we would be allowed to take part in that ballot. But, allowing that the mayor's statement in regard to us is true, it does not excuse the gross illegality of his acts nor make him any the less culpable. Mayor Kennedy cannot show any authority of law for many of his acts and the acts of the council. Last week we published portions of the charter and ordinances relative to street improvements, repairs, and the construction of sidewalks. If any taxpayer of the city will take the trouble to compare what, in these, the mayor and council are authorized to do, with what they have taken it upon themselves to do, it will require no further writing on our part to place them-particularly Mayor Kennedy and Councilman Wilsonin the proper light. We will now leave this matter with the people. election will take place in a few weeks | men. when Mayor Kennedy's case can be passed upon by them at the polls, as he will doubtless be a candidate for reelection.

It is asserted by the trio, Kennedy, Wilson and Davis, in reference to the of American monoply by shutting out street improvements now being made foreign goods, contains a remarkable at the crossing of Catherine creek at provision of reciprocity in trade. A petition is being circulated in Crook county to ask the legislature to trade altogether. enact a law to tax church property. Every county in the State should do likewise, and assist in securing the article declaring that some sinners will passage of such a bill. It is not only an injustice to exempt such institutions from taxation, but is indirectly, in the McKinley bill.-Washington taxing the many for the few.

EDITORIAL NOTES.

WHAT nonsense for Mr. Blaine to be telling his party that Reciprocity is not Free Trade! The proposition is: Let our flour and pork in free, and we EDITOR OREGON SCOUT: will let your sugar and hides in free.

Get money and you will be respected whether you deserve it or not." This cold blooded philosophy saddened us for a long time and we have been wondering if there is any truth in it. We knew of men who follow that course implicitly and they seem to prosper.

In an eight line editorial, recently, we called attention to the absurdity of a young chump interrupting the counsels of men and talking about "mossbacks," when he owed his schooling to the generosity of the State, and had never paid a cent of taxes in his life, nor let go of a ten cent piece without getting full value for it. This, the acorn-headed sprig of pusillanimity and littleness who has charge of the Whangdoodle takes entirely to himself and afflicts his two dozen readers with an article nearly a column in length in which he tries to prove that he is "a no such a thing." He seemed to recognize the picture readily enough, which we did not suppose he would have sense enough to do, and from the manner in which he kicks it is evidently a good likeness. He says that he has spent lots of money on his eddeation and has received the degree of A. B. (A Blockhead, we presume) and knows a great many things. We think, however, that those who wade through his "piece" and catch on to all those exclamation marks, interrogation points. dashes, etc. will conclude that there are a great many things about editing a newspaper that he doesn't know, and the lines of the immortal Burns, written to fit just such upstarts, will occur to their minds:

"Whats a' your colleges and schools If honest Nature made you fools?"

THERE appears to be room for form for refractory city councilmen in other places besides Union. The following from the Olympia Tribune is a case in point: Councilman McBratwithin the fire limits without asking permission of anybody. Others, who did not belong to the city council, who attempted to do the same thing and who had commenced the erection of frame buildings before they were taken into the fire limits, were arrested and put to the expense of the court to be released. Councilman Williamson on Saturday, who happened, for a wonder to be present at the meeting, moved that Charles Grainger be allowed to proceed in the erection of two one-story frame shacks on Main street, covered with corrugated iron. About an hour before he made his motion, he objected to George A. Barnes erecting two frame buildings at the corner of Fourth and Adams street. These are the peculiar kind of city councilmen who are taking care of the interests of Olympia at present and trying to make a beautiful looking thoroughfare of Main street. One of these days the people will elect business men to the city council, then we will probably have the city ordi-Fortunately the annual municipal nance enforced, even against council THE CRY OF MILLIONSI

If we are correctly informed then you should have directed your enquiry to him without connecting us with the matter directly or indirectly. All we know about the cases or their

dismissal is that our firm was a subscriber to the fund to be used by your committee in defraying expenses and paying atterneys fees, and that two of our clients subscribed something over \$100 for the same purpose. Two of the contestants employed us personally in their cases. Our names were on all the papers but beyond the two, we were not personally employed. The attorneys names were so arranged that we could not control any contested cas without permission of the counsel retained by your committee. Shortly after our employment we secured sufficient evidence from reliable citizens to have seated the two contestants who employed us and one of the others represented by your committee alone, as above suggested. We understand, indirectly, from H. J. Geer that at some time just before or during our late term of court two hack loads of people came to Union from La Grande and that upon their return reported a settlement of these cases. Mr. Geer could probably give you some information on the subject of the terms or facts of settlement. We understand that Mr. Geer is righteously indignant about the matter.

as the defendents paid the costs.

We heard the cases called twice, later on, and the same answer given by Mr. Crawford and as we had no knowledge of the terms of settlement by our clients or the other parties we rather cumstances asked the court to strike our names from the docket thereof, which was done. On a subsequent ney crected a two-story frame building Mr. Crawford suggested that the clerk day the cases were again called and was making more out of it than anyone else and that he (Crawford) would see that matters were settled with the clerk and thereupon the cases were dismissed without the costs having been paid. Look among your own archives and complain at your own photograph if complain you must for you have none coming at us.

We have other contest cases, in which junority or seniority of counsel will have no bearing, and you might have reasonably held your pent up wrath against us until you see what

THE attorneys employed in those Shelton & Carroll who had but little to do with them, have as yet failed to throw any light on the manner of their dismissal. We again say that our columns are open to them.
