

WHAT THE DRUGGISTS SAY.

MARCH 24, 1880.

Manufacturers of the Great Sierra Kidney and Liver Cure.

GENTLEMEN: It pleases us to state that in our judgment California productions are coming to the front very rapidly. In the case of your remedy as in proportion to sales of any other kidney and liver cure or medicine for the cure of kidney and liver disorders, *The Great Sierra Kidney and Liver Cure* is the best-selling article on our shelves, and is rapidly on the increase daily. Respectfully yours,

COPPIN & MAYHEW, Druggists,

Twentieth and Mission streets, San Francisco, Cal.

It is natural enough that a man who fills himself with wine should get a grape-vine figure when he walks.

"Had a splendid time. I ran across a lake up in—"
"Ran across a lake? Come, come, Bluffs, don't lie so transparently."

AN ELEGANT PACKAGE OF FINE CARDS.

Including 15 rare novelties, shapes and artistic imported photographic and chromatic collection sent by mail to any one who will do this. Buy a box of the genuine Dr. C. McLane's Celebrated Liver Pills from any druggist, price 25 cents, and mail us the outside wrapper with your address, plainly written, and 4 cents in stamps. The genuine McLane's Pills are prepared only by Fleming Bros., Pittsburgh, Pa., and have been in constant use for over sixty years. They are superior to all others in purity and effectiveness. A certain cure for indigestion and sick headache. Address, Fleming Bros., Pittsburgh, Pa.

When a woman says anything mean about a man she always winds up her remarks by saying: "And the men are all alike."

SHAKEN OUT OF GEAR.

By malarial disease, the human machinery cannot half perform its duty. Digestion, secretion, evacuation are disordered, the blood becomes watery, the nerves feeble, the countenance ghastly, sleep disturbed and appetite capricious. Terrible is this disease, but its consequences are not. There is, however, a known antidote to the malarial poison and a certain safeguard against it. In malarial regions of our South and West, in South America, Guatemala and on the isthmus of Panama, as well as in transmarine countries where the scourge exists, this infallible preventive and remedy, Hostetter's Stomach Bitters, has during the last thirty-five years been constantly widening the area of its usefulness and demonstrating its sovereign value. Liver complaint, dyspepsia, constipation, kidney trouble, rheumatism and debility are all remedied by it.

"How long was Bronson's speech?" "I don't know. I didn't have my meter with me."

Sufferers from coughs, sore throat, etc., should try "Brown's Bronchial Troches."

"When does a Parliament dissolve, papa?" "When it gets into hot water, my son."

Why not save your clothes by using the best, purest, most economical soap, Dobbin's Elect? Made ever since 1861. Try it once; you will use it always. Your grocer keeps it, or will get it. Look for the name, *Dobbin's*.

The melancholy days have come—hotel bridal chambers are in demand.

RUPTURE AND PILES CURED.

We positively cure rupture and all rectal diseases without pain or detention from business. No cure, no pay, and no pay until cured. Address for pamphlet, Dr. Porterfield & Lacey, 318 Market Street, San Francisco.

Uses of the Willow.

It is an interesting fact that not only is the presence of extensive growths of the willow found to be anti-malarial in its influence, but that from a certain species of this same beautiful tree, or its bark, is derived the comparatively new but well known antiseptic preparation called salicin; it is of a pure, bitter taste, highly febrifugal in quality, is largely used in various solutions, and is in surgical operations, and is the most effective preventive of putrefaction in the system yet known. For these purposes the willow is now being extensively and systematically cultivated. At the end of two years the switches are from four to seven feet long, and are cut and gathered into bunches like sheaves of wheat; in the stripping building they are steeped in water and the bark at the larger ends loosened for a couple of inches by machinery; one by one the switches are placed in the mechanical stripper and with a pair of pliers are pulled through with a sudden jerk, being then wiped off with a wooden cloth, bundled, and laid away to dry. All the leaves and bark are dried and baled, the average yield being a ton to the acre, the willows commanding, when dry, \$200 per ton.—Frank Leslie's.

How the Grouse "Drums."

I have had some experience with the ruffed grouse. The peculiar noise made by them while drumming is usually made while the bird is standing upon a log, but the log has nothing whatever to do with the sound produced. The bird while drumming assumes an upright position and droops his wings until the flight feathers almost or quite touch the log or other perch on which he stands. He then, by an intense muscular effort, makes quick, spasmodic beats with his wings. In doing this the ends of the wing feathers may, and perhaps sometimes do touch the log; but it is the intense quiver of the flight feathers, as they come in contact with the still air, in the short and intensely rapid beats that produce the soft, yet powerful and far reaching sound. No impact of a feather or feathers with a solid substance—especially a moss covered log—could ever make a sound capable of being heard for a quarter of a mile. The air seems to be filled with the sound, soft as it is, and it seems to come to you from every direction, so that it requires a quick and practiced ear to locate it correctly. This is proof positive that it is produced by vibratory action in the air, and not by the impact of two solid substances.—Cor. American Field.

Facts About Berlin.

A lover of the "curious in number" has arrived at some interesting facts about Berlin. The city has 210 miles of streets, so that a person might walk ten days in the capital without retracing his steps. If the 1,400,000 inhabitants marched in double file they would form a line nearly 750 miles in length. If the citizens determined to start upon a journey at the same time, all the cars of Germany would accommodate but two-thirds of the number.—New York Tribune.

New Pension Law.

Gives all widows and disabled soldiers and sailors a pension; no evidence to furnish; no discharge papers required; advice free; no advance expense or fee. Authorized registered U. S. Pension Attorney (21 years experience), CARL E. H. SHEPARD and MARY W. E. SHEPARD, 319 Pine Street, Room 67, adjoining U. S. Pension Agency, San Francisco, Cal. Informations, a booklet, Commander A. H. Dept. of California, and other department officials.

KISSING.

Use the SMALL BEAN (40 little beans to the bottle). They are the most convenient, safe and sure. Price of either size, 25 cents per bottle.

At 7, 17, 70. Photo-graph, showing small size of this picture for 4 cents (copper or stamp).

J. F. SMITH & CO., Makers of "Bile Beans," St. Louis, Mo.

NATIVES OF PATAGONIA.

Dress of the Men—Women Do All the Manual Labor—Ornaments.

Four years ago Chili and the Argentine Republic divided Patagonia between them, the former taking the Straits of Magellan, the key to the commerce of the west coast, and the latter the pampas. Thus in the partition the Indians fell to the Argentines, but they kept as far away from their owners as possible, for fear of being impressed into the army. Their numbers have been so much reduced that there are not more than 3,000 of them left, and these remain around Puente Arenas, where they find the society of the Chilianos more agreeable than that of the Argentines further north. They are still mindful of their tribal relations, and have similar customs to those of the Sioux. The term Patagonian is unknown to them and was given by the early explorers because of their large feet. Those who formerly inhabited the lower latitudes had the tribal name of Tehuelches, while further north they were called Chennas.

The native dress of the men is a chirpa or breech-clout; a shirt of calico, which is a modern innovation; leggings of horsehide or the skin of the puma (the pampa lion), and over all a splendid robe of guanaco fur fit for any king. These robes, like the blanket of the North American Indians, are never laid aside, and are worn like the celebrated breeches of Bryan O'Leary. The leather side is painted in bright colors, with symbol and tracery to represent the achievements of the owner in battle or in the chase, and some of them bear fantastic designs. A well tanned robe is worth half a dozen horses, and is much prized by the owner, who will not part with it unless he is very drunk or thirsty. The best ones are made of the skins of young guanacos, sewed together with the sinews of the ostrich, so that the shape of the animal will appear. The fur is soft and silken, the backs and sides being of fawn color, and the belly of the purest white. One can buy them of the traders at Puente Arenas, but they seldom go to market, as people on passing vessels pick them up for curiosities.

The Indian women dress as the men do, and it is difficult for a stranger to distinguish the sex of a Patagonian native, except from the difference in stature, as the women are short and stumpy, and generally have a baby slung over their backs. They do all the manual labor, pitch the tents or toldos, as they are called, skin the game that they are caught in the chase, make the robes, cook the meals and everything else in the way of drudgery, for their lords and masters are opposed to every form of work that cannot be done in the saddle. Both the men and women are given to wearing loads of solid silver ornaments, much of which is antique, and handed down from generation to generation. The silver comes from the Andes, and is obtained by trading with their neighbors, the Aricaunians of Chili. Hunting is their business, and their amusements are gambling and horse racing. They are great smokers, but do not have the cult of their North American brothers, using cigarettes exclusively, like the Spaniards, from whom they have acquired the habit, and rolling them with the skill and grace of a haughty don.—Philadelphia Times.

Uses of the Willow.

It is an interesting fact that not only is the presence of extensive growths of the willow found to be anti-malarial in its influence, but that from a certain species of this same beautiful tree, or its bark, is derived the comparatively new but well known antiseptic preparation called salicin; it is of a pure, bitter taste, highly febrifugal in quality, is largely used in various solutions, and is in surgical operations, and is the most effective preventive of putrefaction in the system yet known. For these purposes the willow is now being extensively and systematically cultivated. LINCOLN'S MELANCHOLY.

His Sympathetic Nature and His Early Misfortunes.

Those who saw much of Abraham Lincoln during the later years of his life were greatly impressed with the expression of profound melancholy his face always wore in repose. Mr. Lincoln was of a peculiarly sympathetic and kindly nature. These strong characteristics, influenced, very happily, as it proved, his entire political career. They would not seem, at first glance, to be efficient aids to political success; but in the peculiar emergency which Lincoln, in the providence of God, was called to meet, no vessel of common clay could possibly have become the "chosen of the Lord."

Those acquainted with him from boyhood knew that early griefs tinged his whole life with sadness. His partner in the grocery business at Salem was "Uncle" Billy Green of Tallula, Ill., who used at night, when the customers were few, to hold the grammar while Lincoln recited his lessons.

It was his sympathetic heart Lincoln told the story of his love for sweet Ann Rutledge, and he, in return, offered what comfort he could when poor Ann died, and Lincoln's great heart nearly broke.

"After Ann died," says "Uncle" Billy, "on stormy nights, when the wind blew the rain against the roof, Abe would set forth in the grocery, his elbows on his knees, his face in his hands, and the tears running through his fingers. I hated to see him feel bad, and I'd say, 'Abe, don't cry! an' he'd look up an' say, 'I can't help it, Bill; the rain's a-tellin' on her.'"

There are many who can sympathize with this overpowering grief, as they think of a lost loved one, when the rain's a-fallin' on her. What adds poignancy to the grief sometimes is the thought that the lost one might have been saved. Fortune, indeed, is William Johnson of Corona, L. I., a builder, who writes June 28, 1890: "Last February, on returning from church one night, my daughter complained of having a pain in her ankle. The pain gradually extended until her entire limb was swollen and very painful to the touch. We called a physician, who after careful examination pronounced it disease of the kidneys of long standing. All we could do did not seem to benefit her until we tried Warner's Safe Cure; from the first she commenced to improve. When she commenced taking it she could not turn over in bed, and could just move her hands a little, but to-day she is as well as she ever was. I believe I owe the recovery of my daughter to its use."

New Treatment for Consumptives.

A new method of treating pulmonary consumption is described by The Medical Record from French sources. Sulphureted hydrogen was one of the alleged curative agents in the Bergeon treatment by gaseous emanations. The French experimenters have discarded that method as one of doubtful utility, but they seem determined to fill their patients' lungs with sulphur in some form. Their new system of curing consumption is based upon sulphuric acid in medicated inhalations. Sulphur slightly moistened with alcohol is burned in a brazier, a little benzoin or powdered opium being sometimes added to make the fumes less disagreeable. The patient is required to stand twice a day in this sulphurous chamber and inhale the medicated atmosphere until his lungs are saturated with sulphuric acid. The treatment is said to have been markedly successful in as many as thirty cases, sweats and fever disappearing, the lungs clearing up and the appetite and weight steadily improving. M. Dujardin Beaumetz, who has been favorably impressed with the reports made in these cases, has tested the method practically and greatly benefited, if not cured outright, seven patients. Into his sulphurous chamber fresh air is admitted from time to time, the patients being more mercifully dealt with than in the original experimenting room.

This method of treatment is said to have been suggested by the experience of a soldier in the last stages of consumption. He was employed in disinfecting barracks and obliged to pass nine hours a day in a sulphurous atmosphere. Although his condition had been pronounced hopeless by hospital authorities, he completely regained his health in sixty-five days. The sulphur burned for the purpose of destroying the germs of contagious disease in the infected barracks had a similar effect upon the tubercle bacilli of his own lungs. This is the practical explanation which the scientific followers of Dr. Koch offer of the success of this singular method of treating phthisis.—New York Tribune.

Induction Train Telegraphy.

The practical value of the new system of telegraphy, by which messages can be sent from moving trains, was well illustrated by its workings on the Lehigh Valley railroad during the recent great snow storm. In the accident near Three Bridges the induction train telegraph operator was on board, and at once telegraphed back to Flemington for a wrecking train. Within a short time Superintendent Donnelly arrived, and during the entire day messages were sent to and from the wrecking train, and surgical relief was obtained. All the beleaguered passenger trains, every one of which was equipped with the new system, were located by means of train telegraphy, and provisions were sent to the hungry passengers. Belated passengers sent dispatches to anxious wives from the various stalled trains, and all the manifold business of railroad was carried on with celerity. More than 200 messages were sent back and forth over the single line of the company during the three days of delay.

The poles used to carry the line are only sixteen feet high, and they expose little surface to the storm. The messages are transmitted by induction from the metal roof of the car to the line, a distance of ten feet, and even when cars and line were both buried in the drifts no inconvenience was suffered, as the dry snow acted as a good insulator.—Scientific American.

An Ancient Perfume.

Saffron, or the dried stigmas of a certain purple crocus, was valued among the ancients for its perfume. The floors of their halls and mansions, and even of their theatres, were strewn with it. Its flavor was greatly appreciated, and it was much employed in seasoning dishes.—Chicago Herald.

ELECTRIC FORCE.

The Great Fundamental Principle of the Universe and Its Power to Restore Health to Humanity—A Generous Offer by Dr. Darrin—They Will Treat and Cure the High and Low, the Rich and Poor, of All Grades and Stations. Free of Charge Until Further Notice.

Experiments by scientists are constantly and surely proving electricity to be the great motor power of creation. Electricity is the most powerful chemical agent, as well as the basis of chemical action. It is the primal element of light and heat, the promoter of life and the sustainer of health. Disease yields readily to its magnetic touch, and even unrelenting death is averted by its presence. Thousands of afflicted and suffering bear witness to its healing power. The electric treatment, as practiced by Dr. Darrin, has revolutionized the practice of medicine, as is shown by the following:

EXTRACTS OF TESTIMONIALS:

George C. Scotten, Albina, Or.—Ring-bird noises in the ear and deafness; cured. J. R. Cunningham, Wapinitia, Wasco county, Or.—Total deafness two years in one ear and practically so in the other; cured.

Mrs. J. E. Smith, Prineville, Or.—Nervous debility and general weakness, almost bordering on insanity; restored.

D. J. Graham's child, Springfield, Or.—Painfully afflicted with granulated conjunctivitis, complicated with ulcers of the eyeballs for nine months; cured.

J. A. Lindsey, new agent on the O. R. & N. Co., residing at 310 O Street, Portland—Consumption, bronchitis and catarrh; cured and gained fifteen pounds.

David Ross' son, Woodlawn, Wash.—Painful hip disease; had to be carried to doctor's office; cured. Mr. Ross has a daughter residing at the Merchants' hotel, Portland, and can be referred to.

Harison Metcalf, Defer, Wasco county, Or.—Deafness and terrible pain in the ear and head six months, until he was nearly crazed; restlessness and insomnia; restored to health by electricity after all other treatments had failed.

Dr. Darrin can be consulted daily at the Washington building, corner of Fourth and Washington streets, Portland, O., hours, 10 to 5; evenings, 7 to 8; Sundays, 10 to 12. All chronic and acute diseases, blood taints, loss of vital power and early indiscretions permanently cured, though no references are ever made in the press concerning such cases, owing to the delicacy of the patients. Examinations free to all, and circulars will be sent free to any address. Charges for treatment according to patient's ability to pay. The rich and poor treated free of charge with electricity from 10 to 11 daily. All private diseases confidentially treated, and cures guaranteed. Patients at a distance can be cured by home treatment. Medicines and letters sent without the doctor's name appearing. [N. B.—Dr. Darrin has a branch office at the Mc-Clelland hotel, Roseburg, October 19 to 25, and at the Oregon hotel, Ashland, October 25 to November 1.]

Graves—I should like to get your opinion on the question: "Is life worth living?" Merriman—That's all life is good for, I think.

OH, WHAT AN AWFUL BREATH!

There is nothing more healthful than onions. The trouble is that persons are afraid to eat them, because they make the breath unfragrant. But there is a less fragrant breath than that freighted with onions. We mean the breath of a person with a foul stomach. Take him away! We inwardly cry when he whistles in our ear. Do see that your breath is pure. Take a few BEANBROTHER'S PILLS and regulate your liver, stomach and bowels, and your breath will be sweet.

A cold is hard to get rid of, but it's sneezing to get.

Dr. Price's Cream Baking Powder.

A Pure Cream of Tartar Powder. Superior to every other known. Used in Millions of Homes—40 Years the Standard. Delicious Cake and Pastry. Light Flaky Biscuit, Giddle Cakes, Palatable and Wholesome. No other baking powder does such work.

I took Cold, I took Sick, I took SCOTT'S EMULSION.

RESULT: I take My Meals, I take My Rest, AND I AM VIGOROUS ENOUGH TO TAKE ANYTHING I CAN LAY MY HANDS ON; getting fat too, for Scott's Emulsion of Pure Cod Liver Oil and Hypophosphites of Lime and Soda NOT ONLY CURED MY Incurable Consumption BUT BUILT ME UP, AND IS NOW PUTTING FLESH ON MY BONES AT THE RATE OF A POUND A DAY. I TAKE IT JUST AS EASILY AS I DO MILK. SUCH TESTIMONY IS NOTHING NEW, SCOTT'S EMULSION IS DOING WONDERS DAILY. TAKE NO OTHER.

BEECHAM'S PILLS.

Cure SICK HEADACHE. 25 Cents a Box. OF ALL DRUGGISTS.

PENSIONS! NEW LAW CLAIMS.

Apply to MILD R. STEVENS & CO., Attorneys, 1415 F Street, Washington, D. C. Branch offices—Cleveland, Detroit, Chicago.

CONSUMPTION SURELY CURED.

TO THE EDITOR: Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy free to any of your readers who have consumption if they will send me their express and post-office address. Respectfully, J. A. STOCKM, M. D., 181 Pearl Street, New York.

SURE CURE FOR PILES.

Sure cure for blind, bleeding and itching Piles. One box has cured the worst cases of ten years standing. No one need suffer, ten minutes after using Kirk's German Pile Ointment. It absorbs tumors, allays the itching, acts as a poultice, cures relief. Dr. Kirk's German Pile Ointment is prepared only for Piles and itching of the private parts, and nothing else. Every box is warranted. Sold by Druggists and sent by mail on receipt of price, \$1.00 per box. J. J. Mack & Co., Wholesale Agents, San Francisco.

If afflicted with Sore Eyes, use Dr. Isaac Thompson's Eye Water. Druggists sell it. 25c.

Beware of imitations of the celebrated Seal of North Carolina Plug Cut Tobacco.

TRY GERMEA for breakfast.

Address FOTTER, DRUG AND CHEMICAL CORPORATION, proprietors, Boston, Mass.

Aching sides and back, weak kidneys and rheumatism relieved in one minute by the celebrated CUTICURA ANTI-PAIN PLASTER, 25c.

CANCER.

Successfully treated at the Wilson Cancer Hospital, 760 Thirteenth Street, Oakland, Cal. Dr. G. H. and M. D. STOCKHAM, Proprietors.

No knife or caustics used. A pamphlet on its "Causes and Treatment" mailed on receipt of a postal card.

CHICHESTER'S ENGLISH PENNYROYAL PILLS.

RED CROSS DIAMOND BRAND. Safe and always reliable. Ladies, who suffer from irregularities of the menstrual system, take one or two pills in a glass of water, after each meal, and you will find that the system is regulated, and the system effectually dispels colds, headaches and fevers and cures habitual constipation permanently. For sale in 50c and \$1 bottles by all druggists.

CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N.Y.

Faber's Golden Female Pills.

For Female Irregularities, nothing is so good as Faber's Golden Female Pills. They are the most reliable and successful remedy for all female ailments. They regulate the menstrual system, relieve constipation, and cure all diseases of the female system. They are sold in 50c and \$1 bottles by all druggists.

THE APHRO MEDICINE COMPANY.

Western Branch, Box 27, FORTLAND, OR. Sold by Wm. Duce Co., Portland, Or.

Only 25c Postpaid Two dozen large size, genuine NAPKINS, assorted colors; a very stylish, useful, beautiful and rare curiosity. Agents wanted. COOKE & COOKE, Importers and purchasing agents, 529 Clay Street, San Francisco, Cal.

IMPORTANT NEW DISCOVERY.

The Best Toilet Soap for the Skin Ever Made, 'Vaseline' Soap.

A perfectly pure and neutral soap, combining the emollient and healing properties of Vaseline.

If your druggist does not keep it, forward 10c in stamps, and we will send a full-sized cake by mail, postage paid.

CHESEBROUGH MANUFACTURING CO., 24 State Street, New York.

THE SMOKER.

Will have no other Tobacco Who once tries "SEAL OF NORTH CAROLINA" Plug Cut.

This is the secret of its Immense sale.

An education.

What folly it would be to cut grass with a pair of scissors! Yet people do equally silly things every day. Modern progress has grown up from the hooked sickle to the swinging scythe and thence to the lawn mower. So don't use scissors!

But do you use SAPOLIO? If you don't you are as much behind the age as if you cut grass with a dinner knife. Once there were no soaps. Then one soap served all purposes. Now the sensible folks use one soap in the toilet, another in the tub, one soap in the stables, and SAPOLIO for all scouring and house-cleaning.

What folly it would be to cut grass with a pair of scissors!
