At Tacoma Indian Agent Eels has sworn out a warrant for the arrest of Robert Allard, proprietor of a railroad lodging house, charged with selling liquor to Indians. This is a test case. Agent Eels will endeavor to prosecute under the State law and will carry the case to the Washington Supreme Court if necessary.

Tacoma lumber men are again devising measures to maintain uniform rates and prevent the disastrous cutting in prices which has been going on for some time past. At a meeting held at the Tacoma Hotel most of the mills in the city were represented. A plan which seemed to find favor was to pool the output and engage a manager to make a fair distribution of orders and sales on the basis of production. This question, however, stood in the way of immediate action, and it was referred to a special committee to prepare a plan and report.

On the question raised by the District Attorney of Siskiyou county, Cal., as to whether railroad lands and lands sold by railroads are assessable, and that railroad companies and purchasers from them, holding lands, could not be assessed because no patents have been issued for them by the government, Attorney-General Hart has decided against the railroads. Unless overruled, this decision will compel the payment of the taxes on 10,000,000 acres of land in that State, much of which is worth \$5 an acre. Taxes thus gathered by the State and respective counties will aggregate \$500,000 per annum.

The census bureau has announced that there are 1057 irrigated farms in Arizona, having a total area of 65,321 acres. The average cost of the land, including purchase price, fencing, plowing and water right, is \$16.92 an acre, of which \$7.05 represents the cost of water right, and the average valuation placed upon the land by owners is \$48.68 per acre. This includes the buildings. The average annual cost of water is \$1.55 per acre, and the average annual value of the products is \$13.92 per acre, ranging from \$9.26 in Maricopa to \$31 in Yavapai county.

The average now under irrigation approaches the maximum possible with the present water supply, and the methods of utilization, but conversion of flood waters that now annually run to waste would largely increase the area susceptible of successful cultivation.

The opponents of the Pacific cable subsidy scheme have a new weapon to use in their fight against the subsidy act. Another company has appeared which proposes to build a longer cable without a subsidy. The Pacific Cable Company asks the government to give them \$5,000,000 to aid in laying the cable to Honolulu, a distance of 2,000 miles; the other company proposes to build to Shanghai, 6,500 miles, and asks for nothing but a revival of the charter granted to it by Congress, August 15, 1876, and which expired in 1879, no cable having been laid. This old company was formed by Celo Cesar Marino, and in it were Senator Leland Stanford, J. C. Flood and several other California millionaires. They were promised a subsidy of \$1,000,000 by the Hawaiian government as soon as the cable was laid. The capitalists did not see a sufficient and speedy return for their money, the scheme fell through and the charter lapsed. Marino now represents to Congress that the company is ready to go ahead without any subsidy if the charter is revived. Opposition to the subsidy idea is very strong, and to defeat it an extension of the old company's charter will be urged.

Considerable satisfaction is felt in France over the coolness with which the Pope treated the Duchess D'Uzes, the noted friend of General Boulanger, who in her own behalf and that of the Count of Paris supplied the General with funds for his conspiracy against the Republic.
