SUNDAY SCHOOL CONVENTION.

Return of an Old Pioneer—A Serious Accident Near Summerville—Cattle Badly Injured.

W. T. Carroll and family returned home last Thursday after a pleasant and extended tour through Oregon, California, Washington and British Columbia. Mr. Carroll left this city on June 1st last, stopping first at Portland where he remained a few days in the metropolis, after which he visited the principal towns in the Willamette valley. He remained for some time visiting relatives in Harrisburg and Brownsville. He then made a tour of California, going as far south as Los Angeles, stopping for a short time at all the principal towns on the way, but remained most of the time at Cambria where he has relatives. The main object of Mr. Carroll's visit to California was for the benefit of his wife's health, she being afflicted with weak eyes. While there she was under the treatment, for six weeks, in San Francisco, of one of the best oculists on the Pacific coast, and we are pleased to state, that she is much improved in health. During their visit Mr. Carroll and family improved every opportunity to "take in" the sights and enjoy the many luxuries of the Golden State. Among other pleasures they took an ocean voyage along the coast from Port Harford to San Pedro. They also "gathered shells from the sea-shore." As it were, and brought home a fine collection. After finishing their visit in California they started northward and visited all the towns in Western Washington and British Columbia, including Nanaimo, where Mr. Carroll has a sister living, after which they returned home, being glad to meet their many friends in Union once more, and were the recipients of a hearty welcome from all who know them. California, taken as a whole, Mr. Carroll thinks is a great state, and affords many luxuries, but that there are several places in Oregon with much better combined surroundings and facilities for the enjoyment of life than can be found in a majority of towns throughout California. The society, for instance, being more preferable here. As to agricultural lands Mr. Carroll informs us he saw none better than in Grande Ronde valley, and thinks our farmers are better off than in many places he has visited. Mr. Carroll has great faith in Union, and thinks an opportunity now presents itself, which, if properly met, will greatly tend to the upbuilding of our little city.

The sixth annual convention of the Oregon State Sunday School Association will be held in the Cumberland Presbyterian church, Eugene City, commencing Tuesday evening, May 19th, and closing the following Thursday evening. This is a mass convention and all interested in the Sunday school work are invited to be present. Every Sunday school in the state is urged to send one or more persons are present to represent their school. Arrangements will be made for the usual reduced fares on the railroads, and also to have a number of leading Sunday school workers present. A programme of topics to be discussed at the convention can be had by addressing E. W. Allen, Portland, Oregon.

Once again it is the pleasant duty of the Democrat to chronicle the return to Baker City of an old pioneer of the county after an absence of several years. To the surprise of all his old-time friends Joseph H. Shinn, brother of the late James H. Shinn, alighted from the east bound train yesterday afternoon and since his arrival has been kept busy shaking hands with old-time friends. In 1891 Mr. Shinn was elected clerk of Baker county and in 1898 was re-elected. After his term of office expired he remained here until 1897 when he went to La Grande as receiver of the land office. Later he moved to Union and in 1891 went to California where he has since resided. He returns after an absence of ten years and sees many changes, the greatest of which is the absence of old friends who have passed to the Great Beyond. However, many yet remain to grasp him cordially by the hand and talk of the good old days, and it brings back many reminiscences of the past.—Baker Democrat.

A Summerville correspondent to the Elgin Recorder says: A serious accident occurred four miles northwest of Summerville at the residence of J. Fincher on March 8. The parents went out visiting leaving the children at home; the oldest girl while at work around the stove set fire to her dress and observing it told her brother to throw water on her. He, being excited, seized some hot water off the stove and threw it on her burning hair seriously. The fire was put out by the children but not until the child was burned badly. She is still alive but in a dangerous condition.

Two carloads of cattle recently shipped to Portland from Eagle valley were run off the scales in the terminal yards near the Northern Pacific freight depot Tuesday night of last week. One carload belonged to Ben Longley and the other to B. S. McGowan. The car with Longley's cattle was tipped over to such an angle that the cattle were all thrown together in one end and many of them were considerably bruised and injured. The poor beasts were left in this position until half past seven o'clock the following morning, when the humane officer insisted that they be put out of their misery as soon as possible. The accident was largely due to carelessness.

The New Census.

The census has at last been completed. Chicago is now the second city in the Union. In 1890 she had but 563,000. Only ten years shows Chicago with 1,095,000, a gain of over half a million, while Philadelphia

has 1,946,000 a gain of but 200,000. It looks now as though New York would soon be playing second fiddle to Chicago as well. In 1880 New York had 1,206,000 and now she has 1,513,000, or a gain of a little over 300,000. The South is also shown to be waking up. Atlanta with 34,000 in 1880 now has 65,500 nearly doubling her former population. Birmingham, Ala., with less than 10,000 in 1880, now has 26,000. San Francisco's increase has been a little disappointing, but she has passed Cincinnati in the race in a handsome manner and is now 8th, pretty far behind Baltimore with her 143,000.

The Atlas publishers will reap a harvest this year, as the census statistics and new maps, etc., causes an immense boom in the business. We take the above figures from the Standard Atlas of the World, which will in all probability sell by thousands, as it is one of the most complete and accurate works of the kind we have ever seen.

It is safe to say, that the first agent in the field will fairly coin money, as we all want the new census statistics and the new features in this Atlas which commends it to everybody. The History Company of San Francisco, the well known publishers, control the coast rights. They want agents and we call attention to their advertisement in another column. 3-26-1w

Fond mother, mourn not, dry thy tears, Nor think thy babe is dead; The jewel lives in happy spheres, Where there is naught to dread.

The angels, for thy darling care, And teach it truth and love, Preparing its pure soul to share Their happy home above.

Altho' within the silent tomb The little body sleeps, Eternal flowers around it bloom Where the pure spirit keeps.

And when thy mind in calm repose, As seeking heaven's sphere; Angels to thee will then disclose Its beauty, and draw near. H. C. E.
