Editors as a rule are optimistic, but probably a certain Georgia editor has the keenest vision for the bright side of things. Every farmer should cultivate a small amount of sugar beets this year in order to test the adaptability of his soil to sugar beet production. The new goods, new styles and fine work at Mrs. Rinehart's are being appreciated by the public, as her every day increasing business stands a testimonial. It is rumored among the knowing ones that the La Grande railroad shops will soon be removed to Pendleton and further, that the Huntington shops will be removed to Willavale, the terminus of the Sumpter valley railroad, and the Grand Central Depot for the several railroads leading to Baker City will be located at the same place. Indications lead to the belief that the rumors will materialize. Should this be the case Baker City will be placed where it should be, the leading city of the interior.—Blonde.

Hereafter the ranges of Idaho will be kept for her own flocks and herds. It has long been the custom of Eastern Oregon stock owners to bring their stock into Idaho when home pastures were eaten off, and taken them in the sister state. The new revenue law which provides that all stock kept in one county of Idaho for fifteen days shall be assessed as personal property will cause these visitors to think twice before incurring such an expense, and will militate in favor of Idaho's stockmen.—Idaho Review.

FARMERS' ALLIANCE. A County Alliance and Industrial Union Organized.

According to arrangements the different delegates from the various local organizations throughout the county met at the court house yesterday for the purpose of forming a County Alliance and Industrial Union. A goodly number of delegates were present and considerable interest was manifested. Prof. Rork, organizer, acted as chairman. Wm. Randall was chosen as secretary pro tem. The election of officers was first in order. An informal ballot was taken in order to get the sentiment of the delegates for president which resulted in O. P. Goodall receiving the most votes. A formal ballot was then taken and Mr. Goodall was elected president.

The next in order was the election of a vice president. Considerable discussion followed as to means of voting. A formal ballot was taken and C. D. Huffman was elected.

A vote was then taken for secretary and on the third ballot W. A. Cates, of Telocaset was elected secretary.

For treasurer, Dunham Wright and Travellian were placed in nomination. Travellian elected.

For chaplain, Wm. Boyles and Bowman nominated. Bowman elected.

A vote was then taken for steward. There were 42 votes cast. Clark Oliver received 21 and was elected by acclamation.

The next was doorkeeper, D. A. McAllister and H. L. Dougherty were placed in nomination. McAllister elected.

For lecturer Rev. Boyles was elected by acclamation.

For county organizer, John McAllister elected by acclamation.

The following were elected as delegates to the state convention: O. P. Goodall, W. H. Huffman and John McAllister.

A business committee, consisting of H. A. Gorham, Dunham Wright and W. H. Huffman, was then appointed.

A letter was read from The Scout, in which it proffered the alliance space in which to express its views. E. S. McComas, of the Chronicle, and G. B. Swinehart, of the Elgin Recorder, also offered space in their journals for the discussion of alliance matters.

A vote of thanks was tendered the papers for their kind offers, and the matter was deferred until the next meeting.

The organization then held a secret meeting.

Prof. Rork is an able speaker and gave a lecture last night on Mental Philosophy.

The attention of our stockmen is called to the ad. of the horse sale in this issue. Capt. C. M. Branson, who has charge of the horses, is an affable gentleman and will spare no pains in showing them to the public. Mr. Joseph Roberts, who was in Union a year and a half ago, in the interests of Mr. Coad, the owner of the horses, is also here. He is well acquainted with all of the herd, having been in the employ of Mr. Coad for a number of years.

Hon. Dunham Wright, of Medical Springs, was in town yesterday to attend the organization of the county alliance as a delegate from the farmers' alliance at Big Creek. Mr. Wright informs us that a great deal of interest is taken in the new organization by the people of his section. There were 58 names enrolled as members at the first meeting, which is the largest number of any local alliance Prof. Rork has yet organized in the state.

A Pendleton man came in from the east Friday, on a train on which there was a large number of immigrants. All had purchased tickets for the Sound and Willamette valley points, and seemed greatly surprised when told that they were passing by a good country which they could not see from the train. They knew nothing of Eastern Oregon, which shows that this section of the country is not sufficiently advertised, if at all, throughout the east.—East Oregonian.

A Visit to the Cove.

We visited the Cove last Friday on a combined business and pleasure trip. The Cove is the most favored and beautiful spot in Grande Ronde valley, and the farmers and fruit growers who are so fortunate as to be located there are in a prosperous condition. Everybody is now busy plowing, sowing grain, making garden, etc., and in consequence the business men of the place are just now complaining of dull times, but they all are doing a very good business. We noticed several new dwellings being erected, and the foundation is built for a new Baptist church which will be erected this summer. The Cove can boast of a larger number of costly residences, perhaps, than any town in the valley. The Ascension school is now running, with a fair attendance. The flour mill is kept running day and night, and the Cove tannery is constantly turning out leather. We understand that a collar factory will soon be added to this last named institution, for the manufacture of horse collars, an experienced workman in that line having arrived. Only one of the cheese factories is now running. James Bloom, of the soda water factory, is turning out a good article of various mild drinks and is kept busy delivering to other towns throughout the valley. The outlook in Cove for an abundant crop of all kinds of fruit and berries is good, and it is thought the yield will be larger than ever before known. We desire to return thanks to Mr. and Mrs. E. P. McDaniel for their kind and hospitable treatment during our brief visit.

Fine Horses.

C. M. Branson arrived in the city Tuesday with a car load of fine Percheron and French Coach horses from Maple Grove Farm, Fremont, Neb., owned by Mark M. Coad. Taken altogether it is without doubt the best lot of horses ever brought to this country. We are indebted to Mr. Joseph Roberts, agent, for a brief description of the herd, which is as follows:

Rustique—Percheron mare; grey; foaled March, 1883; imported May, 1885; sire, Rustique; dam, Cleaton.

These horses will be on exhibition here for a few days only, and our stock men should avail themselves of the opportunity of at least looking at them, if they do not wish to buy. It is indeed a rare treat to gaze upon such a fine collection of horseflesh.
