

A Needed Reform.

It is time to discuss the wisdom of swearing witnesses in courts. Every trial shows that the custom does next to nothing, if indeed it does anything at all, towards securing veracity.

Conscientious persons don't need to be put under oath. They will abstain from untruthfulness as scrupulously—rather, as honorably and righteously—as from perjury.

To make a false person perjure himself in swearing from the truth is to intensify his badness. He believes in the solemnity and awful danger of lying in God's name; but his will is weaker than his inclinations, and he will leave the stand the more reckless for the consciousness that he has been led into swearing to untruth.

The panorama of perjury that our courts are passing before the public view is terribly demoralizing. Nothing is doing so much to destroy men's faith in men and making them unworthy of trust.

There is no reason why evidence that can be proved to be wilfully false may not be punished as severely though not sworn to as though sworn to. The oath administering is only a custom based on notions that consist more of superstition than of religion.

Scandinavian Emigrants.

New York Sun, April 7th, 1891. Aboard the Thingvalla Line Steamship "Hekla," that arrived in this port on Sunday, there were 700 Scandinavian immigrants, healthy, hearty, pithy, and light-haired young people of both sexes. They were bound for the West, the far West, even for Dakota, where they will take up land and begin a new life as American farmers, raising grains, fruits and cattle for their own nourishment and for the service of mankind.

They had come to America as hundreds of thousands of other Swedes and Norwegians have come during the past forty years; they have struck out West to take land as those others did; and they are pretty sure of enjoying the prosperity that so many of their countrymen already enjoy here.

Now, if all our other immigrants, from Europe, including those from Italy, Poland, Hungary and Russia, were as spirited as these Scandinavians and would follow their example, how much better it would be for them than crowding into cities, struggling for daily hash and spending years in complaining.

God's Blessing to Humanity—So Says an Oregon Pioneer, Ninety Years Old. FOREST GROVE, Or., March 19.—I have used the OREGON KIDNEY TEA and obtained immediate relief. It is God's blessing to humanity. I take pleasure in recommending it to the afflicted. I am now nearly ninety years old, came to Oregon in 1842 in the employ of the Hudson Bay Company, and since I began using the OREGON KIDNEY TEA I enjoy good health. DAVID MUNROE.

Encouraging Prospects for Fruit Crops.

WORK OF PRACTICAL JOKERS.

Subscription School Commenced—Party at Medical Springs—Natural Advantages.

Cove, Oregon, May 6, 1891. Service and Sunday school at the Morrison church last Sunday.

The alliance is making great progress. It now has some thirty members.

A land slide occurred a few days ago, doing considerable damage to the Lawrence ditch.

Mr. L. B. Haggerty is the leader of the milk-men, the product being 1000 lbs. of milk per day.

Mr. John Magan and Mr. Jesse Jackson have gone to Idaho, and Mr. Ed. Stearns goes this week.

Some of the young people of Union were very pleasantly entertained by our munificent people last Sunday. Come again, all of you.

Some of the Coveites have gone to Indian creek on a fishing expedition. They took a good supply of provisions, as they have enormous appetites.

The future prospect for a fruit crop in the Cove is very encouraging. The orchards are a beautiful sight and their fragrance like unto a flower garden.

A subscription school has commenced under the tutorship of Miss Collison, the former teacher of the primary department of the public school.

Last of letters uncalled for in the Cove postoffice May 6, 1891: David Findley, P. P. Horner, Bruno Martzold, E. F. Sanders, F. W. Wagner, B. D. Wright.

Some of the ladies and gentlemen of the town made a startling discovery, the other day, of possessing families in the form of rag babies fastened to the door knobs and in the several apartments, the result of some one's hard labor to make them.

The young people who attended the ball, at Medical Springs last Friday evening, report a most enjoyable time. You may travel many miles before you find as hospitable a people as Hon. Dunham Wright and family. We all thank them for their generosity.

Mr. Snider and brother have just returned from a trip to the Seven Devils country in search of homes. They say Grande Ronde is good enough for them. All seem better satisfied with their own locality when they have visited others. So it is with this little village, situated as it is in a most productive and favored locality, surrounded by mountains covered with an almost inexhaustible supply of timber, furnishing lumber and fuel. There is also an abundance of water for both irrigation and manufacturing purposes.

At least the Cove can boast of producing more manufactured goods, and of greater variety, than any other town in Eastern Oregon. Her social and educational advantages are surpassed by none, which can be vouched for by those who have visited the place this season already, for the sake of a convivial resort. There are many more advantages the Cove has that I would mention if space would permit, in the way of improvements, opportunities, etc., but will respectfully invite all to come and judge for themselves as to the reliability of these remarks, and more that may follow.

NO LONGER A TERROR. Modern Treatment That Cures Constipation. According to the San Francisco daffles a remedy has been discovered that with almost unerring certainty overcomes constipation. It is the new laxative principle in Joy's Vegetable Sarsaparilla. The papers are full of recent occurrences confirming its efficiency, and we give place to their last sensation, a card from San Francisco's well known lady maudite. She says: "I am willing to relate the following experience. I have for years had a weak stomach attended with constipation, and never found but one preparation that helped me and that soon wore out and lost its effect, and I was again a sufferer till I tried Joy's Vegetable Sarsaparilla. It helped me in every way and has thoroughly reorganized me. I had one of the most sensitive of stomachs and was in continual distress, but with the aid of Joy's Vegetable Sarsaparilla now eat and everything with my old accustomed freedom without any evil effects. I am both surprised and delighted, and gladly recommend it."

Crop-Weather, Bulletin No. 8.

The observer of the Oregon Weather Bureau, of Portland, Oregon, has issued the bulletin for the week ending Saturday, May 2, 1891, the same being based upon reports received from 161 correspondents, which is as follows:

The weather throughout the state during the month of April was very favorable to the growth of crops. The temperature was slightly below the average. There were no injurious frosts. The rainfall retarded spring seeding in Western Oregon. Fall and early spring sown grain have had an unusually good growth. The fruit was never more promising. The grass is good and stock are fattening rapidly. May opens most auspiciously for a fruitful harvest of all productions.

WESTERN OREGON.

Weather.—The fore part of the week was cloudy, cool and rainy, while the latter part was cloudless and warm. Douglass, Josephine and Jackson counties were warmer and had less rainfall than the Willamette valley and coast. There were light frosts on the 27th and 29th, but no damage was done. The usual frost period is now past and no damage need be now expected from it.

Crops.—The sunshine was greatly desired, and is proving of great benefit to the growing crops. The present weather is excellent for all vegetation which is now making rapid growth. Poplars, lindens and other deciduous trees are coming into leaf. Spring seeding on low lands is now being rapidly pushed. Early wheat is very heavy and is lodging in places. The farmers are all jubilant over present crop prospects. Fruit never promised better yields than it does at present. Apples are blossoming, peaches, pears and cherries are dropping their bloom and the calyx is enlarging. The grass is remarkably good and stock are fattening.

Health.—The late cool, damp weather appears to have revived the la grippe; many communities are suffering from it.

EASTERN OREGON.

Weather.—Showers occurred in the fore part of the week in most sections. On the 23d snow and ice were experienced along and south of the Blue mountains. On the 24th, 25th and 29th frosts were general, but no serious damage is reported. Cherries and wheat were slightly injured in a few places. The temperature continues cool, but gradually rising. Not quite an average temperature prevails.

Crops.—Fall and early spring wheat continues to be promising. Late sown spring wheat is not so good on account of lack of rain. More rain would prove of great benefit to the wheat crop. While the wheat prospects at present are of the best, reports indicate that the promising conditions will not continue unless more rain falls. The fields are dusty and the lack of rain is already apparent. The grass is good. Stock are reported to be doing well.
