GENERAL RAINS IN NEVADA.

Two Cases Discharged from St. Vincent Hospital, Portland, Cured by Koch's Lymph.

Seattle is a great consumer of oleomargarine.

San Diego proposes to scale down the school teachers' salaries 10 per cent.

San Diego proposes to offer prizes for the extermination of squirrels and gophers.

The charge against miners at Wellington, B. C., for conspiracy has been dismissed.

Henry Z. Osborne of the Los Angeles Express has been appointed Collector at Wilmington.

Portland is to have weekly communication with Coos Bay through a subsidized steamer.

Point Loma seems to be the favored spot for the proposed military post and harbor defense of San Diego.

The strike in the breweries at Portland is the result of a conflict between the Pacific and National Union men.

Arizona's World's Fair Commissioners are L. C. Hughes of the Tucson Star, R. C. Brown of Florence, S. P. Behan, Buckley and O'Neill of Prescott.

Two cases have been discharged from the St. Vincent hospital at Portland, who are announced to have been cured of tuberculosis by Koch's lymph.

The government work in Death Valley is completed. Agents divided in two parties are now working through the mountains, and will visit Nevada.

Suit has been entered at Los Angeles against the Atlantic and Pacific Railroad Company for \$20,000 damages by Isabel F. Mills, who was injured in an accident last November.

Mr. Denby, United States Minister to China, has provided for the sending of the needs to the Los Angeles Chamber of Commerce, the culture of tea near that city being determined upon.

Fish Commissioner Mills shipped 100,000 brook trout from Carson, Nev., to the Humboldt river the other night. Millions of spawn are now hatching in the State hatchery, to be dispersed throughout Nevada this summer.

A company of eighteen bankers and capitalists from the East and London have arrived in Redlands, Cal., to study the Bear Valley system of irrigation with a view to investing in the stock.

Suit has been entered in equity against the Sacramento Board of Trustees to have the whole proceedings, by which the people of that city voted to pay the back salaries of policemen, declared illegal.

General rains prevail in Nevada. In the vicinity of Carson the river and irrigating ditches are swelling rapidly. The storage reservoirs are full, and there is plenty of water to insure farmers heavy crops.

An alleged special agent of the general land office has been operating through Eastern Washington for the past month with remarkable success. He goes by the name of Pemberton, and has been blackmailing settlers.

The trouble between the Anaconda Company and the Montana Union railroad has terminated in a determination to build another road between Butte, Mont., and Anaconda, and ground will be broken in a few days.

From the evidence so far obtained in the Walla Walla lynching inquiry it seems the officers of the post were as much surprised at the action of the men as were the citizens, although the former had received notification that the man Hunt would be lynched.

Maurice Lopatecki, an exile from Russia, a nobleman and a resident of Tacoma, has fallen heir to \$10,000,000. He was implicated in nihilism, and was forced to leave the country. He married in British Columbia, went into the newspaper business and failed, and has since been earning small sums for work done on the press at Tacoma.

The jury in the Carpenter will contest at Stockton, Cal., which has been on trial for two weeks, has brought in a verdict for the contestants that the deceased was of unsound mind. The estate involved is worth \$75,000. Carpenter willed his property to the children of his partner, C. K. Bailey. Vermont heirs made the contest, and have twice won their suit before the Superior Court, the result of the first trial being reversed by the Fish Commission.

The Fish Commission is making strenuous objections to the action of millmen on Lake Samamish in Western Washington, who have been dumping sawdust in the lake. The experiment of burning the sawdust was tried awhile, but proved a failure. The Commissioners are showing no favor in their fight on millmen who dump sawdust in the streams and other waters of the State, and will doubtless succeed in compelling all to cease the practice.

Assistant Secretary Chandler has affirmed the decision of the Commissioner of the general land office in the case of the Mission Indians vs. John Walsh on the appeal of the latter, holding for cancellation Walsh's pre-emption declaratory statement for land in the Los Angeles (Cal.) land district. The Assistant Secretary says the evidence submitted justifies the conclusion that this land was used and occupied by the Indians at and for many years prior to the date of Walsh's settlement and also since that time up to the date of hearing.

THE NATIONAL CAPITAL.

The President Opens to Settlement the Fort Berthold Indian Reservation.

Contracts have been let and approved by the land office for the full amount appropriated to Idaho. Senator Dubois said that Idaho would probably receive \$40,000 of the apportionment of the next fiscal year.

Representative Hermann has secured pensions for the following persons in Oregon: Mrs. Winifred Mosher of Roseburg, widow of the late Colonel L. F. Mosher, and J. C. Phelps of Lane county, a veteran of the late war.

The President is taking an active interest in the financial condition of the treasury, and has directed that he be favored with an estimate of the probable revenue from all sources for the next fiscal year, based on the changes made by the last Congress in the customs and internal-revenue laws. The result of the changes is now becoming apparent in the daily receipts of the Treasury Department. The customs receipts by the statement issued at the treasury for the first twenty days in May were less at that port of New York by \$1,000,000 than they were for the corresponding period of last May. The same ratio of decrease is reported at other ports. Inter-revenue receipts also show a decrease, but not so marked. The net surplus in the treasury despite the decrease in the receipts is crawling up, the drain from direct-tax expenditures being almost over, and at the close of business on May 21 was more than \$15,000,000. The treasury statement shows that the treasury held May 20 \$262,057,483 in gold and silver, being a decrease since the 1st of the month of more than \$12,000,000 and since January 1 of more than \$32,000,000.

President Harrison has issued a proclamation opening to public settlement about 100,000 acres of land in the Fort Berthold Indian reservation in North Dakota. This carries out the agreement entered into December, 1886, between the commissioners on the part of the United States and the Aricariens, Gros Ventres and Mandan tribes of Indians on the Fort Berthold reservation, pursuant to an act of Congress approved May 15, 1886. The proclamation sets forth that satisfactory proof has been presented to the President that an acceptance of and consent to the provisions of the amended act by the different Indians has been obtained. It further notifies all persons to particularly observe that a certain portion of the said reservation not ceded and relinquished by the agreement is reserved for the allotment and reservation for the said tribes, and all persons are warned not to go upon any lands so reserved. All that portion of the reservation lying north of the forty-eighth parallel, and all that portion lying west of the north and south line, six miles west of the most westerly point of big bend of the Missouri river, south of the forty-eighth parallel, is declared opened to settlement and subject to disposal as provided for in section 25, act of March 3, 1891.

A Belgrade cablegram says the Liberals are organizing a meeting to protest against the expulsion of Queen Natalie as a violation of the constitution.

Hundreds of Hebrews fleeing from the persecution in Corfu are arriving at Brindisi, where they expect to take passage for Alexandria. They propose to settle in Egypt.

France having refused to grant the request of the executors of the will of the late Prince Napoleon, Italy has ordered that the tomb in the church of La Sapienza be closed.

Terrible hail storms are reported from various places in Southwestern Germany. Much damage has been done by lightning, a number of houses having been struck and burned from this cause.

Swarms of young locusts are appearing in Upper Egypt. The government is issuing instructions on the best means of coping with the plague and preventing the utter destruction of the cotton and maize crops.

The misery of the defeated strikers at Westphalia is extreme. Over 20,000 who have applied for work in the Bochum district have been refused employment and threatened with expulsion from their homes.

The action of the Scotch miners at Glasgow in support of the Belgian miners' strike has aroused great hopes among the strikers, and it is feared that the strike will extend and that fresh disorders will result.

A new volcano has appeared in Armenia at the summit of Mount Nimrod in the district of Van, emitting flames and lava. Villages at the base of the mountain have been destroyed, and many persons are said to have been killed or injured.

It now appears the Czarewicz entered a Buddhist temple in Japan with his boots on. The chief bonze complained to the guard, and one of them named Thunda dealt the Czarewicz a blow with his sword. The guard was cut down. The Czarewicz' wound has healed.

Russia, having failed to secure a loan in the European markets, has been drawing in its balances. The failure of the loan is attributed to the withdrawal of the Rothschilds either as a protest against the Russian outbreak against the Jews or because of the report that Russia was intending to precipitate war in a few months.

According to comparisons made at the Paris Miners' Congress Belgian miners at present receive the poorest pay, their average wages being but 50 cents daily, while French miners receive about 75 cents and the Germans from 75 cents to \$1. This has been the case with the Germans, however, only since their strike in 1890.

The London County Council has reprimanded the Prince of Wales on account of the terrible condition of the block of tenements at Vauxhall belonging to the Duchy of Cornwall, the revenue of which goes to the Prince. The Council shows that the property is in a disgraceful condition, and peremptorily orders extensive alterations, which will give the tenants more light and air.

So disgraceful has become the penitentiary system in Georgia that juries in many cases acquit women rather than send them there.

Carpet weavers in the Dobson factory at Philadelphia have struck, owing to the importation of men by the house to manufacture velvet.

General Green B. Ramm, Commissioner of Pensions, is to resign, owing to the scandal in connection with the acts of his son, whom he defends.

It is announced that the life story of Robert Ray Hamilton is to be depicted on the stage, his alleged widow, Eva, taking the part of the heroine.

Recent information from Utah leads to the belief that the most determined effort ever made will be put forth before the next Congress to secure Statehood for that Territory.

Commissioner of Pensions Ramm says he does not intend to resign. There is a coterie of men, he says, at Washington who have formed a conspiracy to blacken his character, but he will not be driven away by them.

It is reported that John Cudahy, a big packer of Chicago and Omaha, has bought for \$600,000 two sections of land adjoining the tract recently bought by Armour, Swift & Morris, to be used for stock-yards purposes.

The last of the indictments against the bootleggers arising out of the New York Board of Aldermen of 1884 and the Broadway railway franchise have been dismissed by Judge Van Brunt in the Court of Oyer and Terminer.

The American Medical Association, which met in Washington, discussed the merits of Prof. Koch's lymph, and after making allowance for individual differences in treatment and judgment came to the conclusion that it had an undoubted value.

The establishment of a very complete mail service with the Territory of Alaska, which will be inaugurated on July 1, has been authorized by the government, the contract having been awarded to the North American Commercial Company of San Francisco.

The Commissioner of Indian Affairs has been informed that white people on the Puvallup Indian reservation in the State of Washington are negotiating to build a railroad thereon and are making contracts for the rights of settlement. The Indian agents are instructed to prevent such proceedings, as the whites have no such rights.

First Lieutenant C. A. L. Totten of the Fourth Artillery, U. S. A., who is at present detailed as military instructor in the Sheffield scientific school at Yale, believes that the end of the world is at hand, and that Christ will reappear on earth before 1899. He gave his reason for his belief to the Brooklyn Baptist Union the other night.

The Mayor of New Orleans notified the Proverenzano gang that they must cease interfering with and intimidating laborers. They had gone too far, and he would stop them by carrying out their designs if he had to use all the force at his command and sweep from the ace of the earth every man who raises his hand against persons of that community.

SPORTING NOTES.

Kilrain Commences Training for His Fight With Slavin.

Referee Brewster has decided the Bowen-Meyer fight on fouis. The purse will be divided equally, and all bets are declared off.

The fight between Jim Carney and Jack Burge has been postponed. It is the general opinion among sporting men that Carney has faked.

Jimmy Fogarty, the great baseball outfielder, formerly of California, died at St. Joseph's hospital, Philadelphia, of consumption. Fogarty has played with the Philadelphia club since 1883. He was one of the players who accompanied Spalding in his tour around the world two years ago.

Kilrain has commenced active training for his contest with Slavin, which takes place June 16. Kilrain is in poor condition, and will be obliged to work hard in order to get in shape, but Muldoon expects to bring him to the scratch in good shape. He will train under the same system as Sullivan did.

Foxhall Keene said that the rumor that he had \$5,000 for Tournament because he intended to race in England next year is incorrect. He will race the colt. Tournament, he added, is his sole property, and he will race under his own name. His father is too busy a man to take any interest in turf affairs or to bother with horses.

The selection of Van B. De Lashmutt of Oregon as one of the Board of Registration in the great Breeders' Convention at Chicago, says the Breeder and Sportsman, was fitly and properly made. He is spending a great deal of money to develop the value of light-harness horses in that State, and gives a great deal of his valuable time to matters connected with trotting, in which others may be able to share the benefits with himself. He was a practical printer in his youth, and is rapidly developing into a student as he approaches the twilight of life. His breeding farm near Reedville is stocked with better material than Mr. Backman began with at Stony Ford; and hence we predict for him success in the business, which is one that demands a student. With De Lashmutt, Salisbury and Combs to represent them in the National Board of Directors there can be no fear but the Pacific Coast breeding interests will receive full justice.

An official return now being issued shows that there are 409 females under 16 years and 3,769 above that age employed at the coal mines of the United Kingdom. The total is about 180 more than a year ago.

The Baby King of Spain.

Little Alfonso XIII, king of Spain, whose fifth birthday will be celebrated in May, leads the most joyless life imaginable. He is sensitive and sickly. He is frequently taken down with violent attacks of colic, which last for days and shake his tiny weak body into a condition of pitiable thinness. Consequently he is undersized, white and languid. His mother coddles him and watches him so closely that he rarely, if ever, has an opportunity for a bit of boy's play or other healthful exercise. He passes only one hour daily in the open air, and this by the side of his mother in the royal carriage. Occasionally he is allowed to leave the carriage and walk in the park sedately in the society of his nurse, his English governess and the Countess of Peralta.

The people of Madrid say that the total of the ages of these three companions is 160 years. The Countess of Peralta is at least ninety, and was the head governess of little Alfonso's father very many years before the miniature king was dreamed of. At all events, it is certain that the royal companions, with their 160 years, grown on all royal capers, for the occasional attempts of their pany charge to run or jump or throw stones are suppressed with military promptness.

Once in two weeks the son of the Duke of Casa-Irujo is commanded to the palace to play with his sovereign, but there is little or no benefit in this for Alfonso XIII, since the three women of the 160 years are with the children constantly to prevent all boyish exuberance. So the small, unhappy sovereign worries along his narrow royal way with a burden of childish misery that has rendered him prematurely sad and indifferent.—New York Sun.

Fast Time in Bookmaking.

The fastest time on record for the making, compiling and publishing of a statute book comes from Oklahoma. The legislature recently adjourned was in session 120 days. On the morning of the last day there had not been passed enactments that when printed would fill to exceed sixty pages of an ordinary law book. At the close of the last day the signature of the governor was placed on enough more to fill a statute book of 1,290 pages without the index.

Among these were included a code of civil and criminal procedure in both district, probate and justice courts and laws governing crimes and punishments covering 300 pages. Within thirty-five days from the final adjournment these laws were copied, corrected and arranged in a manner that Chief Justice Green, of the territory, pronounced perfect, with side and head notes for each section. Within forty-eight hours after the compiling committee had turned in its last copy the printed volume, comprising over 1,300 pages, was turned over to Secretary Martin bound in law sheep.—Kansas City Times.

A Sinking Mountain.

Two or three miles west of Hiawassee and Braestown, on the mountain dividing Hiawassee and Braestown, on lot of land No. 87, in the seventh-tenth district and first section, and on the west side of the mountain, Mr. Hamilton, of Athens, Ga., is mining for corundum. He found that his supply of water, with which he used to wash his corundum, had ceased to flow. One of his workmen was despatched to find out the cause. He quickly returned and said that the mountain was sinking. Soon the alarm spread and parties started to solve the mystery.

They soon found that a very large fissure was opening in the earth in the shape of a semicircle, and large trees were falling in every direction. The amount of land encompassed was about forty acres. By examining closely they found that other fissures were opening on the southwest and northeast, crossing the mountain. The opening in some places is as much as six feet wide and the depth is unknown.—Cor. Atlanta Constitution.

A Recent Cable Dispatch.

The Anglo-Turco-Russian complication is growing more complicatedly complex. It now appears that the English-Romanian interests, being jeopardized by the contingency, or in fact proximity, of the ulterior understanding approximated by the Montenegrin protocol, and the disintegration of the ultimate conjunction precipitated by the Herzegovinian interpolations, the elementary attitude of the signatory powers is thereby annulled and continued. This, while it insures the autonomy of the Bosphorus conference, infallibly results in lowering the toll on the Suez canal eleven cents each way, children and dogs half price. This in an immaterial degree devalizes Premier Crispin's ultimatum eliminated by the Hungarian-Austro-imbroglio, and the belligerents return to their corners.
