Murder at Monument.
On Saturday the 13th inst. a man by the name of Mal Church shot and killed Louis Haisell at Monument, Grant county. The trouble grew out of a dispute over some blacksmith tools. Church made his escape. While riding along the road in the vicinity of Ray creek, about 20 miles east of Heppner, he came upon a young man by the name of John Zolinger whom he thought was looking for him, and immediately shot him also, but it is thought the wound will not prove fatal. It is said Church is a "bad man" and claims to be a cousin of Jesse James. On Monday night Church stopped at the farm house of Chas. Long, in the vicinity of Heppner, where he thought he was not known, but the next morning was discovered by a ruse and arrested by Long and taken to Heppner and lodged in jail.

Border Land.
The Alhambra Club of Baker City will be in the city this evening and present the excellent drama, "Border Land," which has gained quite a reputation in Baker where it was twice presented last week, the second evening's performance being more largely attended than the first. The play is a good one and well cast. W. F. Paine as Jack Halston, the guide and scout, is said to be excellent; in fact all the characters are well sustained by the different citizens of Baker, who have been in practice for some time. The evening's entertainment will no doubt be a treat to our citizens, whom we hope will turn out and give the company a good house. The company is composed of some of the best citizens of Baker City. After the drama the laughable farce, "Love in a Tub," will be presented.

WASHINGTON.
News of the Week From Our Regular Correspondent at the Capital.

WASHINGTON, June 12, 1891.
EDITOR OREGON SCOUT:—
Mr. Harrison might well have cried "save me from my friends," when the negro ex-congressman, J. M. Langston, got himself interviewed for the purpose of saying that the main issue of the next campaign would be the "force bill," and that Mr. Harrison was the strongest living advocate of that measure, and more of the same sort. It is only necessary for Mr. Harrison to endorse this position to kill himself as dead as if he never had existed. The democratic national committee would probably pay Langston to keep it up on this line, as they are just hankering to make the "force bill" one of the issues of the campaign.

The State department has placed a special train at the disposal of the diplomatic corps, and yesterday morning all of the countries whose representations happened to be in town were figuratively put aboard a Pullman and started for Chicago, where they will be shown what has been done towards the great exposition. It is expected that this visit will be productive of much good.

Director General Davis, of the World's Fair, was here this week consulting with department officials as to the government exhibit at the exposition, and perfecting arrangements for sending a commission abroad for the purpose of interesting foreign manufacturers and merchants in the exposition. He says success is already assured.

If it be true that Hon. Charles E. Mitchell, commissioner of patents, will shortly retire, as is generally believed here, the poor inventors of the country will lose a good friend, as he has just shown by changing the rules of practice so as to make it impossible for examiners in the patent office to reject applications that ought to be granted and then afterwards as patent attorneys get a fee from the same applicant for getting through what should have properly gone through on its merits in the first place. The new rule prohibits any person who has been employed in the patent office appearing as agent or attorney in any case upon which he has taken any action while so employed, and is commended by everyone except the men it is intended to hit—the ex-examiners now practicing as attorneys.

Before leaving on a speaking tour of the North and West Senator Poffler called at the White House to pay his respects to Mr. Harrison. He had an interview with Mr. Daniels, editor of the State Chronicle of Raleigh, North Carolina, that has been much commented on. "The people's party," said Senator Poffler, "will most assuredly nominate a national ticket next year, and if we gather our forces as well all over the country as we did in Kansas we can easily elect a president and congress in 1892."

"Is it not better," said Mr. Daniels, for alliance men in the South to remain in the democratic party in order to prevent the domination of the negro?"
"We do not care anything about that," replied the senator; "we want to destroy both old parties unless they will help us. It is not a part of our programme to tamper with either. We cannot concern ourselves with such matters. It is time that sectionalism ceased, and there is only one way to effect it. It is time for the people who are tired of this policy of political ostracism, whether we live in the North, South, East or West, to join hands in friendship and make a union that is worth maintaining, and which will not have to be pinned together with bayonets. Let us nationalize the people. We don't need any force bills. We don't need any standing army to see that the people vote right. What we need most in this direction is to see that the union is restored in fact as in name by going among the Southern people, black and white, and doing all that we can and as friends of peace and good government to assist them whenever they need any assistance in adjusting their relations among themselves in a just and honorable way, consulting their interests and not those of persons living in other parts of the country."

Postmaster General Wanamaker has the sympathy of everybody in the attempt that has been made to compel his name with the crookedness of the Keystone National Bank of Philadelphia.

Mr. Harrison can scarcely be accused of partisanship in the appointment of the justices of the private land claims court, as he has appointed three republicans and two democrats. The chief justice is Joseph R. Reed, of Iowa, and the associate justices William F. Stone, of Colorado; H. C. Sims, of Kansas; T. C. Fuller, of North Carolina, and W. W. Murray, of Tennessee. The U. S. attorneys are M. G. Reynolds, of Missouri, and L. W. Colby, of Nebraska. J. H. C.

Crop-Weather, Bulletin No. 18.
The observer of the Oregon Weather Bureau, of Portland, Oregon, has issued the bulletin for the week ending Saturday, June 20, 1891, the same being based upon reports received from 147 correspondents, which was follows:

WESTERN OREGON
Weather.—The weather has been cloudy with little sunshine. General rains have fallen the whole week, amounting to from one to two and one-half inches. The temperature has been from one to two degrees a day below the average. Light frost on morning of 16th in Polk county in sections. No injury done. Some hail has fallen in northern part, but no injury is reported.
Crops.—Heavy rains have hindered hay making. Fall wheat has lodged to some extent and blight is feared. Woods have grown rapidly while the ground has been too wet to cultivate. Spring sown crops are generally doing well, though sunshine and warm weather are greatly needed. Cherries are suffering from rain, in some places rotting on the trees. Although the weather has been too cool and rainy, crops in general, with the exception of hay, are doing well. The hop house is prevalent in Marion and Polk counties, but the crop is growing finely.

MEDICAL SPRINGS.
Brief Personal Mention Epitome of the Happenings of the Past Week.
MEDICAL SPRINGS, June 23, 1891.
J. B. Dolby has returned from Seven Devils.
Miss Minnie Parker is sojourning in Sanger.
Cattle buyers are in the country and are hungry for beef.
Big creek alliance booming. It now numbers 78 members.
A wedding in grand style is expected on or about the Fourth.
Mrs. D. R. Fenn is slowly recovering from a severe attack of la grippe.
Plenty of rain, farmers are jolly, and prospects good for both grain and hay.
There will be a grand ball at Medical Springs on the evening of July 3d.
The Goble Bros. have gone to Union to work on the Wright & Davis gristmill.
C. C. Fisher now handles the ribbons on the division between Union and the Springs.
J. J. Turner's fine horse that was bitten some time ago by a rattler is slowly improving.
Frank McGee, of East Eagle is now at the Springs with a bad case of inflammatory rheumatism.
Leonard Low, of Baker county, who has been doctoring at the Springs, has returned to his home much improved in health.
Parker, Connor and McCarnie have taken homestead in our neighborhood, and still they come—and still there is room.
A protracted meeting is now in progress, conducted by T. F. Campbell, of Baker, Rev. Boyles, of Pine valley, and other reverends of Cove.
Dr. Deering paid the Springs a flying visit Sunday evening in answer to a call from Dunham Wright who was suffering from severe cramping, the ill effects of measles and la grippe.
Miss Grace Wright is the P. T. Barnum of the Panhandle. She now has captured two ground hogs, two badgers, squirrels of different species, also magpies and owls of the feathered tribe.

EASTERN OREGON
Weather.—The temperature was generally below the average. There was a light rain about Walla Walla on Tuesday and general rains in Wasco, Sherman, Gilliam, Morrow, Umatilla, Union, Wallowa, Walla Walla (Wash.) counties and south of the Blue mountains. Rainfall was above the average throughout Eastern Oregon. Light frost in Baker county on the 19th. Snow in mountains in Baker, Grant and adjoining counties on the 18th, 19th and 20th.

Crops.—The rain was of great benefit to wheat. Hay has been injured to some extent. The acreage of wheat in Union, Umatilla and Walla Walla counties has been increased twenty per cent and the yield per acre will be equal or greater than last year. In some localities, especially in the west and north of Pendleton and west of Walla Walla the wheat has burnt some. Some few fields will not be cut. On the foot hills and high lands the wheat was never better. The quality of the wheat will be even better than last year. The output from Eastern Oregon and Washington from present indications will be from one to two million or more bushels than that of last year.

B. S. PAGUE,
Observer, U. S. Weather Bureau.
Happy Hoosiers.
Wm. Timmons, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, that had feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c, a bottle at Brown's drug store, Union, Oregon."

Our agents make \$100 to \$300 a month selling our goods on their merits. We want county and general agents, and will take back all goods unsold if a county agent fails to clear \$100 and expenses after a thirty day's trial, or a general agent less than \$50. A Few Questions.
SUMMERVILLE, Or., June 13, 1891.
EDITOR OREGON SCOUT:—
Will you allow me to ask a few questions through your paper?
In a recent issue of the Chronicle H. C. Emery attacks the Bible, as he thinks, from a scientific standpoint. He says: "Science and philosophy demonstrate that the atmosphere receives its moisture and rain clouds from the earth and seas, under proper conditions of heat and cold, and yet it is not and never has been capable of holding and sustaining moisture or water enough to precipitate to the earth and cover the whole mass to the top of the mountains of Ararat."
Now if what he says is true we will have to disbelieve the teachings of science.
What does science teach in regard to the formation of the earth? Does it not teach that the earth was once all covered with water? If he will read the 104th Psalm I think he will see that the Bible and science do not differ on that point.
Whenever we undertake to disprove the Bible by science we should be sure that we take both at what they teach and not at what we suppose they teach.
