

UNION PACIFIC TIME TABLE.

Table with 2 columns: Train Name and Time. Includes No. 1 Pacific Mail, West; No. 2 Pacific Mail, East; No. 3 Pacific Mail, West; No. 4 Pacific Mail, East.

NOTICES.

On account of the change made in the management of this paper, all accounts due up to Jan. 15, 1891, must be settled without delay.

LOCAL AND PERSONAL.

A Paragraphic Board of Recent Happenings in and Around the City.

Haying is about over. H. L. Daugherty, of Beaverton, was in the city Saturday. Harvest will be commenced next week in some localities.

The thermometer has registered pretty high a few days the past week. Geo. Baird has been sick for several days past, but is able to be around again.

The new flouring mill is ready for the machinery, which is expected every day. For all kinds of vegetables, cheap, call at the office of the Great Central Hotel.

F. E. Harris and wife, of the Sandwiches, were in the city the fore part of the week. The regular monthly meeting of the farmers' alliance was held in this city yesterday.

Before purchasing railroad and steam ship tickets, consult agents Union Pacific System. Mrs. J. M. Berry, of La Grande, was visiting friends in Union the latter part of last week.

Jones - Brown have placed a new roof on their building at the corner of Main and A streets. A. Lory has been busy the past two weeks taking an inventory of his immense stock of goods.

Legal blanks and all kinds of office work executed on short notice at The Scott job office. A stone mason by the name of Ed. had his leg broken while at work near La Grande, Saturday.

Hall Brothers, of Union, will have the full line of Frank Brothers' line of men's Company's merchandise. Mr. Goodwood, of the Commercial bank, still continues to verify his patrons with the best of the market.

Dr. M. Dittorhart has returned from his trip east, having made only a short stay. He is now at Elgin. A violently insane man by the name of Chenoweth was taken to the asylum from Wallawa county last Saturday.

A new program has been attached to the M. E. church led by Dr. A. Martin, the blacksmith. It works well. Today the people of Milton will vote on the proposition of bonding the city for \$10,000 for water works and electric lines.

The agents of the Union Pacific System are providing with railroad and steamship tickets to all points east, as well as to and from foreign ports. The entertainment given by Miss Durbin's class at the Baptist church Sunday evening was well attended. The exercises were very good indeed.

Quite a number of our citizens have taken their departure for Eagle valley to attend the Harvest Home picnic and bring home some of the fine fruits of that valley. The farmers' alliance of Baker county think that the country is in debt about \$100,000, and need very much help with the action of the commissioners in purchasing a poor farm.

Mrs. John Martin, of the Cove, was in the city Sunday. She called at The Scott office and subscribed for a copy of the paper to be sent to Mrs. E. J. Martin, Harper, Iowa. A new bicycle has been invented which, it is claimed, can be propelled at a speed of 100 miles per hour. It is an inflatable wheel, 20 feet in diameter, and the rider sits on the inside.

A. J. Haakset, arrived in town Sunday evening from the Willamette valley and Southern Oregon, where he has been for some time past. He will probably return again in a few days. The brick work of the first story of the new school house has been completed and work is now progressing rapidly on the second story. All the brick work will be finished in about two weeks.

School superintendent Strang informed us that he will tender his resignation at the next term of the county court. He has accepted a position as principal of the Salem public school at a good salary. Wheat has taken a sudden rise in price. It was quoted at \$1.09 in Chicago on the 16th. At Salem 10,000 bushels were sold for 80 cents, and at Adams, Umatilla county, 100,000 bushels were sold for 75 cents.

L. J. Boethe, of the Union City hotel, handed us this week some fine specimens of fruit raised on his place, among them some peach plums and a fine sample of the 'S. G. French' peach. They were of good size and well flavored. All the alleys and back yards throughout the city are undergoing a thorough cleaning, by order of the health committee. This is a good move and we hope they will not stop until the town is thoroughly cleansed of the dirt and rubbish of the alleys.

The large tract of land on Catherine creek near this city, owned by Chas. McConnell, has been generally considered worthless for raising grain, but a small portion was put in grain this season and Mr. McConnell is well pleased with the prospects that he contemplates raising the entire amount, about 2500 acres, next season. He is an extensive farmer and stock raiser of 50 miles, but his wife is strong in her location and becoming a permanent resident of this valley.

Base Ball Matters.

It is a Union base ball club are not entirely satisfied with the result of the game of the Cove club on the 15th, and are not willing to play again until they can get a 'big' game. The Cove club, it is thought, is confident that the boys between 18 and 20 have sent a challenge to the Union club. This seems to look like a good move and the Cove boys are willing to back their judgment with the money. In our opinion with some of the members of the club here in regard to the matter, we are informed that the necessary 'game' will soon be forthcoming, and that the Cove men business they will certainly have a complete action on their minds. We understand they will play the Union in the last week of the month, and if the Cove men business they will play the Union in the last week of the month, and if the Cove men business they will play the Union in the last week of the month.

There will be a game played in the city Sunday between Union City and our home team. Our boys have beaten the Union in every game played with them this season, and he is a real success. The game will be played at Baker City on Sunday by a score of 10 to 1. At La Grande on Sunday a very poor game was played, and won by the La Granders by a score of 10 to 1. On Sunday Portland won the game, the score being 10 to 1.

Winn Wall will leave. The general institute, as advertised, commenced Monday afternoon. The exercises were devoted to history, physiology, reading and orthography. In the evening the following programme was given: Address - Edna Remillard. Address - Mrs. J. J. Davis. Address - 'The Old Granite State' - Mrs. and Mrs. Edna and Mr. and Mrs. Cronwell.

Response to address of welcome - S. W. Hoffman, of North Powder. Topic - 'The Roman Sea' - Miss Leah Warren and Messrs. Carroll and Wilson. Address - 'Relation of Education to the Character' - Prof. Thomas Van Sooy, of Portland. Closing song, 'America,' by the audience.

On Tuesday morning and afternoon sessions were held, devoted to various subjects of interest to the teachers. Yesterday morning, at 10 o'clock, and evening sessions were held, but as we are in press Wednesday evening, we are unable to give the programme of the exercises.

A large number of teachers throughout the county, and some very able instructors from abroad, are in attendance, and a great deal of interest is manifested in the work, which will continue until the 26th.

A New Mineral Discovery. Mr. John Walling, who lives a few miles from town, presented us, this week, with a specimen of gold bearing quartz, taken from a lode recently discovered by him about fifteen miles east of this city. An expert estimates that such rock will assay several thousand dollars to the ton. Mr. Walling has been prospecting in this neighborhood for two or three years past and we are in hopes that he has at last 'struck it' and will be amply rewarded for his time and trouble. There is no doubt but that the large mineral belt lying only a few miles from this city is very rich. The only trouble is, it has not been prospected. We were also shown some fine specimens by Mr. Fenn, who made the recent discovery on Big creek. Mr. Fenn is a thorough mineralogist and has great hopes in his discovery. He will soon make a trip on Catherine creek, in company with Mr. Walling, to make a survey of that country.

Methodist Conference. Appointments for the Idaho conference for the ensuing year: Presiding Elder, S. H. Bowers; Baker City, B. Frank Harper; Elsie, G. G. Galloway; La Grande, G. G. Galloway; Union, J. S. Anderson; Pine Valley, the applicant; North Powder, W. T. Chapman; Prairie City, A. Eads; Oregon City, W. S. Zellers; Willow Creek, the applicant; Payette, T. F. Alexander; Emmet, E. L. Lewis; Stibbs, to be supplied; Shoshone, J. B. Kay; Boise, C. G. Galloway; Boise City, J. H. Skidmore; Shoshone, to be supplied; Shoshone, W. T. Chapman; Burns, to be supplied. The next conference will be held at Elgin.

Electric Bitters. Mr. Frank Huffman, a young man, of Burlington, Ohio, states that he had been under the care of two prominent physicians, and that their treatment until he was not able to get around. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for consumption, coughs and colds and at that time was unable to walk across the street without resting. He found before he had used half of a dollar bottle, that he was much better, he continued to use it and is today enjoying good health. If you have any throat, lung or chest trouble try Dr. King's New Discovery. Trial bottles free at Brown's drug store, Union, Or.

A Wanderer Worker. This remedy is becoming so well known and so popular, it has had special mention. All who have used Electric Bitters along with their regular doctor's medicine, find it does not cost and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, and all other ailments caused by impure blood. It will drive out all the impurities and prevent all other ailments. For every ailment, consumption and all diseases of the liver and kidneys, it is guaranteed to be refunded. It is a true and reliable remedy for all ailments. It is a true and reliable remedy for all ailments. It is a true and reliable remedy for all ailments.

They Dig Through the Brick. Last Sunday evening three prisoners made good their escape from the county jail at Baker. The Democrat gives the following account of their escape and their description: 'As is the custom at the county hostelry prisoners incarcerated for minor offenses are allowed the liberty of exercising in the hallway outside the iron cage, especially in hot weather, every afternoon, the jailer locking them up in their cells at about 7:30 o'clock each evening.

When the time arrived last Sunday evening for the boys to be locked in their respective cells, Jailer Travillan unlocked the door at the entrance to the jail and as he stepped in three of the inmates were standing apparently taking special interest in something at the north side of the jail. That something was a hole in the wall about 18x20 inches in size and through which three others of the gang had passed and secured their freedom. Jailer Travillan took in the situation instantly and quickly unlocked the cage ordered the prisoners to their cells. They complied, but in a very sheepish sort of way. As soon as possible the jailer gave the alarm and deputies were dispatched to overhaul the escaped prisoners, but up to the present time no success has attended their efforts. The names and descriptions of the escaped are as follows:

'C. S. Belmont, alias 'Doc' Sullivan, a well known western crook, aged 35 years, dark complexion, red moustache, brown hair, weight about 165 pounds, five feet ten inches tall. Charged with misdemeanor and under \$100 bonds.

'Thos. Howard, small in stature, dark complexion, black hair, and dark eyes. Charged with burglary and under bonds of \$500.

'Chas. Cooper, 22 years, light complexion, small light moustache, weight about 160 pounds, five feet nine inches tall. Charged with burglary and under \$500 bonds.'

Bad Employment for Boys. Tuesday evening Miss Durbin and little Gerald Carter (a favorite of all who know her) were coming up town, and while in front of the residence of Chas. Myers, two lads aged respectively 8 and 6 years, who commenced throwing stones at the ladies. Miss Durbin was hit by a stone, but fortunately, was not hurt. In a kind manner she asked the boys not to throw any more, but they appeared bent on mischief and did not stop until a stone hit little Gerald on the temple, cutting quite a gash from which the blood flowed freely, and it was thought for a time that it might terminate quite seriously, but the bleeding was finally stopped. Marshal Johnson took the boys in charge and locked them up for the night in the county jail. Yesterday they were brought before his honor, Esquire Blakeslee, and arraigned on the charge of 'assault and battery,' but owing to their youthfulness they could not receive sentence to correspond with their crime. Their father gave bond for them to keep the peace hereafter, and they were released.

Throwing rocks seems to have been the principal occupation of these boys, and it is a great wonder that they have kept out of trouble from this source as long as they have. It has only been a short time since one of them hit another boy on the arm with a stone and it was thought for a time that the boy's arm was broken. When parents leave to control over their children it is time for someone else to take hold of the matter and see that they are taken care of. It is to be hoped that the experience through which they have just passed will be a lesson to the parents, and one which the boys will never forget, and that they will in the future try to find some better employment than throwing rocks at persons on the street.

Entertainment. The entertainments given for the teachers' institute under the supervision of Miss Durbin will doubtless be of a high order. On Tuesday evening, August 25th, the entertainment will be musical and elocutionary. Miss Durbin, Mr. Evans of Pendleton, Mr. Arzyle of La Grande, and members of Miss Durbin's elocution classes in Union and La Grande will assist either in music or recitation. Local talent will render valuable assistance in furnishing music, both instrumental and vocal.

On Thursday evening, August 27th, a drama entitled 'Better Than Gold' will be presented by Miss Durbin's advanced elocution class. This is an interesting amateur drama of four acts. The following is the cast of characters: Gilbert Murdock, M. C. Carter; Richard Gordon, Preston Ellis; Tom Payson, Wm. Wright; Peter Perchant, Fred Davis; Belle Gordon, Francis Wright; Annie Garfield, Mabel Carter; Mrs. Garfield, Jennie McGillis; Jennie Joy, Mollie Foster; Gyp, Maud Sommers.

These entertainments will be held in Wright's hall and a full house is expected for each evening. Reserved seats will soon be placed on sale.

Hung Himself. F. L. Boyer, a fur dealer and real estate agent, who has been stopping in La Grande for the past three years, committed suicide last Saturday by hanging himself with a pair of reins in his barn. He was engaged to a young lady and was soon to be married. On Saturday morning he told her he was in trouble and left the house, which was the last seen of him until the body was found about 10 o'clock in the evening. He was 26 years of age and of German descent. Financial trouble and partial insanity is thought to be the cause of the deed.

Talks It Before Breakfast. The great appetizer, tonic and liver regulator. In use for more than 50 years in England. Positive specific for liver complaint, bad taste in the mouth on arising in the morning, dull pains in the head and back of the neck, blood poisoning, dizziness, languor, eruptions of liver complaint. Remedy - Dr. Henley's English Dandelion Tonic. Believes constipation, sharpens the appetite and tones up the entire system. Get the genuine from your druggist for \$1, and take according to directions.

They Dig Through the Brick.

The next county alliance meeting will be held at the Cove on Friday September 18th. An alliance picnic will also be given on Saturday, Sept. 19th, at the same place. The railroad company have made the survey and will immediately put in a 'Y' at the Union depot. This is something much needed, as there is not sufficient side track to accommodate the increased business. It is also rumored that the line will soon be extended to this city. We are in hopes that it will.

According to the annual report of the Knights of Pythias the membership during the last year has increased by 44,000, making a total of names on the roll on July 1st of not less than 308,000. The amount of cash on deposit in the name of the order is also \$7,000,000 larger than any preceding year, while the endowment rank is also in a flourishing condition.

Union is the Venice of Eastern Oregon - a quiet, beautiful, cool retreat. There are shade and water galore. Fruit is abundant, and the people are hospitable. Union has attractions which insure a steady growth. She will soon have water works, a woolen mill, and other strokes of enterprise on the part of her citizens. - East Oregonian.

The attention of our readers is called to the advertisement and speed programme of the third annual fair of the First Eastern Oregon District Agricultural Society which appears in this issue. A large amount is donated in premiums for farm products, handwork and domestic exhibits, besides \$5,750 in premiums for trials of speed. It will no doubt be a grand affair and a success in every particular.

It looks like a very bad move to use the same old frame for a door for the main entrance to the new school building as was used in the old one. In the first place it is entirely too low and small, and does not line with the front windows. If anything it should be higher than the windows instead of lower, as it is. With such a building the main entrance should be large and ornamental. It would have cost but a few dollars more and we are sure it would have looked much better and given better satisfaction.

One John W. Home and lady were in Union last week. He is in the piano and organ tuning business and we think is doing very well. He had several jobs while here, but we are inclined to the belief that his most paying 'job' was in beating W. E. Bowker out of a week's use of a team and buggy and having Mr. Bowker pay the feed bill upon the team at La Grande, where he left them when he skipped on the west bound train. His bill at Mr. Good-brod's hotel also remains unadjusted. He is a very well-dressed man about six foot tall, with dark moustache, and carries the air of a foreign missionary. His love for music has caused him to neglect the important matter of settling his bills. Treat him as kindly as the circumstances and his disposition will admit of.

Messrs. F. Shaw and J. O'Bryant will soon leave for college. They go to Missouri. Good luck to them. A young man by the name of Caspar was violently thrown from his horse, recently, and perhaps fatally injured.

Mrs. J. A. White and son, Master Goldman, have returned from an extended visit with relatives in Long Valley. J. F. O'Bryant, a licentiate, delivered a sermon at the Baptist church Sunday night to a large audience. His text was, 'Arise, He calleth thee,' which he handled in a highly creditable manner.

The farmers alliance is prospering finely and members steadily increasing. We now have an alliance meat market and will soon have another store. Their motto is 'Right is sure to win.'

Mrs. J. H. Vandecar, of Michigan, who is making a visit with relatives in Washington, will return here Wednesday evening, to her sister's, Mrs. Byron Vandecar. Anyone desirous of taking lessons in oil painting, or have painting done for them, will do well to call on her. She will remain two months.

The entertainment given in Mr. D. Beveridge's hall by Miss Durbin, the talented elocutionist, assisted so ably by that popular vocalist, Miss Snodgrass, was well appreciated. The audience was small, owing to the fact that it was not generally known; but should they again visit our town, we will give them a hearty welcome and a full house. 'LISTENER.'

THE QUESTION SETTLED. This cut is a faithful picture of the well known establishment of Thomas Price & Son, at 524 Sacramento street, S. F. As the leading chemists of the west, they were asked to settle the question as to what sarsaparilla were in fact purely vegetable. We present their report.

'We have made careful chemical analyses of several well known brands of sarsaparilla, and have found them all with the single exception of Joy's to contain iodide of Potassium. As a result we are enabled to pronounce Joy's to be the only purely vegetable sarsaparilla now on the market, which has come under our observation.'

Modern medicine has proven that all ordinary eruptions are not caused by disease of blood, but by indigestion and sluggish circulation, which call for vegetable alteratives, instead of mineral blood purifiers like Iodide of Potassium. Joy's Vegetable Sarsaparilla being the latest, is the first to discard the old notions and proceed under the modern theory. Its cures attest the soundness of the theory. It is the talk of the hour.

Joy's Vegetable Sarsaparilla being the latest, is the first to discard the old notions and proceed under the modern theory. Its cures attest the soundness of the theory. It is the talk of the hour.

They Dig Through the Brick.

The next county alliance meeting will be held at the Cove on Friday September 18th. An alliance picnic will also be given on Saturday, Sept. 19th, at the same place. The railroad company have made the survey and will immediately put in a 'Y' at the Union depot. This is something much needed, as there is not sufficient side track to accommodate the increased business. It is also rumored that the line will soon be extended to this city. We are in hopes that it will.

According to the annual report of the Knights of Pythias the membership during the last year has increased by 44,000, making a total of names on the roll on July 1st of not less than 308,000. The amount of cash on deposit in the name of the order is also \$7,000,000 larger than any preceding year, while the endowment rank is also in a flourishing condition.

Union is the Venice of Eastern Oregon - a quiet, beautiful, cool retreat. There are shade and water galore. Fruit is abundant, and the people are hospitable. Union has attractions which insure a steady growth. She will soon have water works, a woolen mill, and other strokes of enterprise on the part of her citizens. - East Oregonian.

The attention of our readers is called to the advertisement and speed programme of the third annual fair of the First Eastern Oregon District Agricultural Society which appears in this issue. A large amount is donated in premiums for farm products, handwork and domestic exhibits, besides \$5,750 in premiums for trials of speed. It will no doubt be a grand affair and a success in every particular.

It looks like a very bad move to use the same old frame for a door for the main entrance to the new school building as was used in the old one. In the first place it is entirely too low and small, and does not line with the front windows. If anything it should be higher than the windows instead of lower, as it is. With such a building the main entrance should be large and ornamental. It would have cost but a few dollars more and we are sure it would have looked much better and given better satisfaction.

One John W. Home and lady were in Union last week. He is in the piano and organ tuning business and we think is doing very well. He had several jobs while here, but we are inclined to the belief that his most paying 'job' was in beating W. E. Bowker out of a week's use of a team and buggy and having Mr. Bowker pay the feed bill upon the team at La Grande, where he left them when he skipped on the west bound train. His bill at Mr. Good-brod's hotel also remains unadjusted. He is a very well-dressed man about six foot tall, with dark moustache, and carries the air of a foreign missionary. His love for music has caused him to neglect the important matter of settling his bills. Treat him as kindly as the circumstances and his disposition will admit of.

Messrs. F. Shaw and J. O'Bryant will soon leave for college. They go to Missouri. Good luck to them. A young man by the name of Caspar was violently thrown from his horse, recently, and perhaps fatally injured.

Mrs. J. A. White and son, Master Goldman, have returned from an extended visit with relatives in Long Valley. J. F. O'Bryant, a licentiate, delivered a sermon at the Baptist church Sunday night to a large audience. His text was, 'Arise, He calleth thee,' which he handled in a highly creditable manner.

The farmers alliance is prospering finely and members steadily increasing. We now have an
