A SEVERE LOSS.

Two Stacks of Grain and a Fine Separator Consumed by Fire

On Tuesday afternoon about 2 o'clock while Fred Noline's steam thrasher was at work on Hall Bros' place about three miles below town, sparks from the engine caught in one of the stacks. The wind was blowing quite briskly and before the thrashing crew were hardly aware of it, the two stacks of grain and the fine large separator belonging to Fred Noline were burned. An effort was made to save the separator by throwing off the burning bundles of grain, but it seems this only increased the intensity of the flames. The men were greatly excited and some of the burning bundles were thrown in front of the machine, setting it on fire. A wagon with feed draper connected was waiting between the engine and separator and was also consumed. The loss to Mr. Noline will be about \$1,200 and to Hall Bros, about 200 bushels of wheat. Mr. Noline has yet about 20,000 bushels of grain to thresh for himself and it will be some time before he can get a new separator to do the work.

The Irrigation Convention.

The convention closed last Saturday. A large number of delegates were in attendance and it is thought a great deal of good will be accomplished as a result of the meeting. Among other things the following resolutions were adopted:

Resolved, That this congress is in favor of granting in trust, upon such condition as shall best serve the public interest, to the states and territories needful of irrigation, all lands now a part of the public domain with such states and territories, except mineral land, for the purpose of developing irrigation to render the lands now arid, fertile and capable of supporting a population.

Upon request of the Kansas delegation the following was adopted:

Resolved, That it is justly due the settlers of Montana that the Dakotas, Wyoming, Nebraska, Kansas and Oklahoma, who have paid into the United States treasury millions of dollars in the purchase of their lands, and have expended other millions in fruitless attempts to farm without irrigation, that a portion of the funds so paid be expended in securing to such lands the benefit of irrigation.

The Examiner.

Ever since the establishment of the first paper on the bay of San Francisco, which we believe was the "Alta," removed from Monterey in 1849, the publications of the Coast generally have been interested in the news from San Francisco. The "Alta," like many other pioneers of '49, has succumbed to the inevitable and gone over to the great majority, and, like other pioneers, has been succeeded by younger generations. The "Examiner" has taken perhaps the most prominent place in the newspaper field of late years, and its Weekly edition is very generally taken by those who want an interesting and reliable paper published at "The Bay." Everyone is familiar with the Premium Offers made by Mr. Hearst, the "Examiner's" enterprising publisher, and it is only necessary to say that this year the aggregate value of the premiums—of which there are 5,000—is \$125,000, which are distributed among all the subscribers to the paper. In addition to these premiums, which range in value from 50 cents to \$2,000, every subscriber receives one of the four great premium pictures, which will be mailed to him in a tube direct from the "Examiner's" office as soon as the subscription is received:

"The Retreat from Moscow," by Meissonier.

"The Roman Chariot Race," by A. Wagner.

Each of these pictures is 21x28 inches, and they are elegantly reproduced in fine studio, showing every tint and color of the great originals, either one of which could not be purchased for \$100,000.

"Women and Children First," by C. Napier Henry

"Christ Leaving the Praetorium," by Gustave Doré

Each of these pictures is reproduced in photograph, size 21x28, and is engravably fitted for framing, and will adorn the walls of the most refined home.

The subscription price of the "Weekly Examiner" is \$1.50, and subscriptions may be sent either direct to R. B. Hearst, Publisher, San Francisco, through the Local Agent of the "Examiner" or the Postmaster.

The Examiner and Scout will both be sent to any address on receipt of \$2.75 each in advance. Each subscriber will also have his choice of the above pictures and a chance in the Examiner's grand drawing, call at the news office and subscribe.

Rich Ore.

Frank Gallagher and Hugh Kearns arrived in the city last Friday from the Seven Devils mining district. They are the owners of several rich claims in that section, among them the Jim Blaine which they are now down on about 40 feet. They were shown some rock from this mine which assays \$2,000 in gold and \$1,000 in silver in the ton on an average. They have quit work for the winter, but will return in the early spring and resume work. They are of the opinion that the Seven Devils camp is the richest ever struck on the coast, the only drawback being the means of access to the mines. A good wagon road from Union is greatly needed.

Abandoned Crops.

Mr. Lynn Weight, of Big Creek section, Union county, is in the city having some repairs made on his threshing machine. In conversation with Mr. Wright a Democrat reporter learned that the farmers of his section are very jubilant over the immense yield of grain and other farm products this year. He says that their most sanguine expectations were more than realized. This state of things makes money anything but a scarcity and causes a smile of satisfaction and contentment to permeate the countenance of the average farmer as the cold and chilling blasts of winter approach.

A Nightmare.

Have you ever been visited by that frisky and uncomfortable animal, called a nightmare? Have you ever had it climb upon the bed while you were asleep and go through a lively performance which would make a fortune for the proprietor of a circus? You never can tell just when this nocturnal steed will make its appearance, but you are absolutely safe from it if you happen to be reposing on one of S. C. Miller's new bedsteads, which are unsurpassed in quality and price.

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd of Groton, N. D., we quote: "Was taken with a bad cold, which settled on my lungs, coughed set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour saying that if I could stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am today a well and hearty woman." Trial bottles free at Brown's drug store, this city. Regular size 50c, and \$1.00.

Agents Wanted.

Our agents make \$100 to \$300 a month selling our goods on their merits. We want county and general agents, and will take back all goods unsold if an agent fails to clear \$100 and expenses after a thirty day's trial, or a general agent less than \$200. We will send large illustrated circulars and letter with a special offer to suit territory applied for, on receipt of three one cent stamps. Apply at once and get in on the boom. Address, RESSNER MANUFACTURING CO., Pittsburgh, Pa. 4-9-1y

GOVE CULMINES.

Items of General Interest—The Alliance Meeting and Picnic.

GOVE, September 22, 1891. Rev. La Roy held service at the Morrison church last Sunday.

Mr. Judd Geer, the fruit man of La Grande, was over this week.

Mrs. Rosetta Layne, of Union, has been visiting in Gove a few days.

Threshing continues and the prospect for crops, especially the quantity, is good.

The large shingle mill of S. B. Burroughs has been moved to the Indian creek mountains.

Miss Compton, of Eagle valley, was in Gove last week canvassing for the History of Authors. She was very successful.

Gove was visited picnic day by the usual catch penny schemes—a phonograph, ball throwing game, and a load of watermelons.

Mr. W. T. Wright, or Wied as he is better known, arrived home yesterday. He has been east with horses and reports very good success.

The Ascension school opened for the fall term Monday with a good beginning, under the circumstances. Quite a few more pupils will enter soon.

L. B. Stearns, the contractor, has resumed work on the Baptist church. He has two helpers and intends pushing the work as fast as possible.

There was an error in your last issue in the name of the person who purchased Mr. Tolly's farm. It was A. Hanson instead of A. Harsin.

Wm. Bloom, M. D., of La Grande, has been in Gove a few days. He has left La Grande for a short time, but may return and resume his practice.

The old firm of Cowles & McDaniel left to notify their debtors that all net and accounts due them must be settled immediately to save costs.

Mr. Lou Childs' smiling face was seen on the streets this week. Lou is still training on the Walla Walla track. He has some eight head of horses and has been very successful.

Considerable wheat is being received at the Gove mills. They manufacture the very best of flour, and it will pay the farmers to do their exchange business at the Gove.

The regular meeting of the Union county alliance was held on Friday evening and all the subordinate lodge delegates were present except from Elgin. The regular order of business was conducted, with the earnest discussion of important subjects and the appointment of the next county alliance meeting at Gove Oct. 16th. Closing song. The meeting concluded by the killing of a bear on the Lloyd farm east of town and a social dance in the evening, all enjoying themselves, and the home alliance was well pleased with the result of their efforts, considering the disagreeable weather.

FROM EAGLE VALLEY.

September 18, 1891. How are your Pine valley prospects by this time, Frankie?

Mr. John Graham, of Snake river, has been sick with chills for about ten days.

Messrs. Makinson and Young started east September 12th with a band of horses for the eastern market.

Alford William Graham, of Snake river, were in this valley September 13th attending the Baptist church which has been organized in this valley.

Mr. Orla Moody and lady visited Pine valley the 13th inst. in company with Miss Nadie Holcomb who is going to teach school in Pine this winter.

This weather is slow in drying the hay which the hay-diggers seem to be impatient to put up. Considerable hay to put up yet. Plenty of hay for sale. Five dollars per ton for the best of alfalfa.

Please, Mr. Editor, leave more room for your wedding notices, for the report is in circulation that about a dozen (more or less) of our young couples and one of our old ones are going to get married soon.

Mr. Noah Sitze and David Kirby talk of going to old Missouri soon. Your reporter knows not why unless on a matrimonial tour. We hope the boys will be successful for we know if they are there will be two old bachelors less.

We consider that George Moody is our champion jumper. The largest jump he has on record is 15 feet, sworn to by the other boys that were with him in his flight. At the time of his monstrous leap the other boys made good jumps, but we consider George as our champion.

Sam Saunders recently shot and killed a half grown bear in the hills adjoining the valley near the mouth of Barnard creek. Samuel thinks he is a bear slayer, but let him tackle the old one and maybe he will think that he can outrun the boys that beat the professional foot racer that was in here the 20th of August.

The O. G. M. Co's chlorinator passed through this place about a week ago on its way to Cornucopia. Your pencil pusher sincerely hopes that when it is in action that there will be no fooling about the boom in Cornucopia as there has been for the last six months. The aforesaid boom is only in words and not in actions. When it is in actions it will soon enough be in words.
