Ammorda and Alum in BakingaPowders. How to detect them.

In view of what the Minnesota Senate has done, it is hoped that legislative bodies in other states will soon take up the subject of food adulteration. The subjoined list of baking powders containing ammonia and alum, compiled from official reports and published in a recent number of the Scientific American, is given below. "It deals in a direct manner with an evil which must be cut down" said the Chicago Tribune in commenting on the Scientific American report. Following is the list of

Ammonia and alum are the most common adulterants used in the manufacture of baking powders. The government report shows that a large percentage of the baking powders on the market contain either one or the other, or both these pernicious drugs.

We have two epochs or points of timethat of the flood and the law of Moses; that of the flood and the law of Moses; that of the flood 600 years prior to the law of Moses. The writer of the story (Moses) made an egregious blunder. He tells the story as if the law of Moses was prior to the flood. He has made God to say to Noah (Genesis 7: 2) "Of every clean beast thou shalt take unto thee by sevens, male and his female, and of the beasts that are not clean by twos, male and his female, and of the beasts that are the above brand—had a cow bell on when last male." There was no such thing as beasts clean and unclean in the time of Noah, and the Bible does not say anywhere that they were created so. They were only declared to be so as meats, and that to the Jews only, and there were no such people as Jews at that time. I ask those who are interested to read the story for themselves. This is the blundering condition in which this fable stands. The Bible is full of just such stories, but I think this one sufficient to question the divinity of any book that pretends to be the word of God. I cannot understand how it is that Bible Christians can entertain "Faith, Hope and Charity" to their God when so many horrible crimes have been committed under his sanction. Even "if the brutal, cowardly assassin send his bullet through the heart of his innocent victim and extinguish the flame of mortal life," there is a divine Providence in it. thou shalt give it unto the stranger that is in thy gater, that he may eat Mix one heaping teaspoonful of it; or thou mayest sell it unto an
