He was indicted in Baker County under the name of James Corbett.

ANOTHER MYSTERY.

Wm. Ashmead Suddenly Disappears at La Grande.

Wm. Ashmead, a young farmer living near Island City, went to La Grande on Tuesday of last week to do some trading. He put his horse up in the McClure stable, saying he would return for it in the evening. He made some purchases at some of the stores and paid bills to the amount of \$200 or \$300, after which he returned to the stable and tied some bundles on the back of his saddle, preparatory to starting home, but before departing invited the hostler at the stable to repair to a saloon and take a drink. The hostler accepted, and the two men went to a saloon. After taking a drink the hostler returned to the stable. Ashmead left the saloon but never called for his horse, and up to the present time nothing has been seen or heard of him. It is the opinion of a majority of the citizens of La Grande that he skipped out, but others think that he was foully dealt with, as it was thought that he had about \$900 on his person. An attachment was served on some of his property a short time ago and it may be that he has left the country. At any rate the affair is shrouded in mystery and has the appearance of another Skiff case.

Mrs. Isaac Haller, of Antelope, while returning home from a school meeting last Saturday, was thrown from a cart and quite badly bruised.

The supper for the dance tonight will be given by the ladies of the Episcopal church, and will be served in the Jones & Brown building on the corner of Main and A streets.

"It is a fine establishment!" is the verdict of every one who passes by Sam Miller's furniture store. Not only that, but he sells goods cheaper than any house in the county.

M. D. Abbott, of the Baker City Reveille, was in the city several days last week, being summoned as a witness in the Giroux Amalgamator case. We acknowledge a pleasant call.

Work is progressing on the New Year edition of THE SCOUT. It will be ahead of anything ever attempted in this county. Send in your orders for extra copies and advertising space.

Get some of those superb satin finish photographs at Jones Bros.' gallery. Their work is not surpassed anywhere. Pictures taken as well or better in cloudy weather than when it is clear.

From parties over from La Grande we learn that the Island City stage was held up by three men, while just entering the town of Island City, Tuesday evening. The robbers secured \$1.75.

Mr. Sam. Haynes, of this city, while trying to back a wagon last Saturday met with an accident in which one of his hands was badly mashed, one bone being broken. He also received some injuries in his side.

The tramp swindler has taken a long breath, spit on his hands and grasped a firm hold upon a new swindle. Two rogues watched the newspapers for stray notices and one of them goes and looks in the animal. Of course the unsuspecting farmer, on application, shows the beast and the fellow decides it is not his, and then returns to his partner and describes the animal minutely to him. No. 2 then goes to the farmer and after proving by a thorough description that he is the rightful owner of the animal, says he cannot well take it away and offers to sell it at a bargain. The farmer buys and in a few days the rightful owner comes along and claims the animal and the farmer is out just that much.—Exchange.

Mining Notes.

Geo. Lindgreen came down from Cornucopia yesterday. He informs us that he and his partners, Fred Stein and Chas. Delta, have just placed a Huntington mill on their property, the Norway mine, but owing to the early fall of snow they will be unable to put it in running order this winter. They will resume work in the early spring. They have a good ledge with a five foot vein of free milling ore.

The Davis quartz mill at Cornucopia has been shut down for the winter on account of the deep snow, but will be started up again in the spring.

The O. G. M. Co., of Cornucopia, are still running their chlorinator, successfully treating ore.

While the mining camp of Cornucopia is quite dull at present, everyone connected with the mines has great hopes of the future prosperity of the camp. Several small deals are under way which promise to be of great benefit to all concerned.

There is about twenty inches of snow at Cornucopia at present.

Another rich strike is reported in the vicinity of Sanger, near the Lily White mine. The ore is said to be the richest ever exhibited from any mine in Union county.

A. Howard was down from Telocaset Tuesday. He is interested in some of the mines in that section and reports great hopes of the future prosperity and permanency of the camp.

Mr. H. C. Deirks, of Milwaukee, Wisconsin, who is interested in the Telocaset mines, is in the city and gives a very favorable report concerning their development and feels confident that his property is very valuable. A few days ago Mr. Luther Wagner, a gentleman of prominence in the mining world as an expert, visited these mines and he, also, reported favorably on them. Mr. Dierks and associates will continue development of the mines all winter and it is very probable a mill will be in operation on them in the near future.—Democrat.

A \$1000 Foot Race.

Quite an interesting sporting event will take place in Pendleton on Thanksgiving Day, November 26. Thursday night \$200 forfeit was deposited with E. J. Horton by each contestant for a foot race for \$500 a side to be run at 2 p. m. on the day mentioned between P. J. Kelley, a sprinter from Montana who has been here a week or two, and C. J. Doyle of Portland. Doyle's backer is Alfred P. Nelson, proprietor of the Telephone saloon at Portland, and Kelley's Mr. Hughey of this city. E. J. Cameron, a sprinter of note, who defeated Ben Wingard at Union and La Grande is in the city, and will be ready to challenge the winner of the contest. A course will probably be selected near the depot. The distance is seventy-five yards.—E. O.

Union Is In It.

We were somewhat surprised last week while in Union, to see the substantial improvements that are going on at that place, among which are the large flouring mills and the new school house, which stand second to none in this section of the state. The enterprising people of that little city have just right to be proud of their school building, since they have put their right foot forward to secure its construction, and now that this is done they need not fear that a stranger will go away, after having visited their place, saying that Union is in need of educational advantages. The board has used good judgment in its selection of teachers for the present term, and no doubt a prosperous year will be the result.—Elgin Recorder.

A Nightmare.

Have you ever been visited by that frisky and uncomfortable animal, called a nightmare? Have you ever had it climb upon the bed while you were asleep and go through a lively performance which would make a fortune for the proprietor of a circus? You never can tell just when this nocturnal steed will make its appearance, but you are absolutely safe from it if you happen to be reposing on one of S. C. Miller's new bedsteads, which are unsurpassed in quality and price.

Photograph Gallery Reopened.
