MINING NOTES.

Items from the Cornwall, Minn. District.

PRIVATE HOUSE BUILDING.

The Oregon Gold Mining Company have put up a substantial plant for working the placer deposit at this place.

It consists of a 400-ton grinding mill and associated machinery, and is being operated by Mr. J. J. Davis, the present manager of the company, who is well known in the placer mining business.

The mill is being driven by a 100-horsepower steam engine, and is equipped with all the latest improvements.

The ore is fed into the mill by a gravity system, and is then ground to a fine powder, which is then washed and treated with carbon dioxide to remove all traces of impurities.

The ore is then roasted in a kiln, and is then ready for shipment.

The company is now in full operation, and is making a good profit on the ore they are presently working.

The future of the company is bright, and they are expecting to make a substantial profit within the next few months.

The company is well capitalized, and is backed by the experienced management of Mr. J. J. Davis, who is known for his ability to make a profit on placer deposits.

The company is now ready to receive new stock, and is offering a good profit to shareholders.
