## **SOLE RIGHT FOR POLK & BENTON COUNTIES.**

This Dryer is the latest improvement in Fruit Dryers, having been patented in August, 1881. It has the largest capacity of any Fruit Dryer sold at the price, and is the most easily and economically operated of any on the market. The fruit trays are raised by an elevator, operated by a lever at the bottom, and can be put in or taken out without loss of the heated air, and without exposing the fruit to a cold draft. It has also a feature not possessed by any other dryer, to-wit: It has reflectors at the bottom that throw the fresh air on to the furnace, thus heating the air before it goes to the fruit. This is a very important feature. These dryers will be built only on orders, and orders should be sent in early, in order to insure their being filled.

The dryer can be seen at Mr. Paul Hiltebrand's on Luckiamute, or at Robert McLaughlin's, 11 miles north of Buena Vista. We guarantee satisfaction to any one who will purchase a dryer. Orders can be sent to the D. N. BURNS. undersigned at Independence, Polk County, Oregon. I indulge in no boasting, but am willing for all to see and examine for themselves.

Youngsrown, Ohlo, May 10, 1830.

De. B. J. Keynell & Co., Gentz:—I had a very valuable Hambletonian colt, which I prized very highly. He had a large bone spavin on one joint and a small one on the other, which made him very lyme. I had him under the charge of two ve.crimary surgeons who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, and I determined at once to try it, and got our druggists here to send for it. They cidered three bottles; I took them all and thought I would give it a thorough trial. I used the cording to directions, and the fourth day the solt ceased to be lame, and the humps have disappeared. I used but one bottle and the colt's lumbs are as free from lumps and as smooth as any horse in the State. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two hottles, and they are now using it. Very respectfully.

L. T. Foster.

DR. B. J. KENDALE, DER SIT.—The particular case on which I used your Kendall's Spavin Cure was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used. Yours truly.

About the time the advertisement first appeared in this paper Mr. P. G. Schermerhorn, who resides mar Colliers, had a spavined horse. He road the advertisement and concluded to test the efficacy of the romody, although his friends laughed at his credulicy. He bought a bottle of Kendall's Spavin Cure and commenced using it on the horse, in accordance with the directions, and he informed us this week that it fill the directions, and he informed us this week that it fill the directions, and he informed us this week that it has a complete cure that an expert horse-man, who examined the animal recently, could find no trace of the spaxin or the place where it had been located. Mr. Schermerhorn has since secured a copy of Kendall's Treatise on the Horse and his Diseases, which he prizes very highly, and would be loth to part with at any price, provided he could not obtain another copy.
