SOLE RIGHT FOR POLK & BENTON COUNTIES.

This Dryer is the latest improvement in Fruit Dryers, having been patented in August, 1881. It has the largest capacity of any Fruit Dryer sold at the price, and is the most easily and economically operated of any on the market. The fruit trays are raised by an elevator, operated by a lever at the bottom, and can be put in or taken out without loss of the heated air, and without exposing the fruit to a cold draft. It has also a feature not possessed by any other dryer, to-wit: It has reflectors at the bottom that throw the fresh air on to the furnace, thus heating the air before it goes to the fruit. This is a very important feature. These dryers will be built only on orders, and orders should be sent in early, in order to

insure their being filled. The dryer can be seen at Mr. Paul Hiltebrand's on Luckiamute, or at Robert McLaughlin's, 11 miles north of Buena Vista. We guarantee satisfaction to any one who will purchase a dryer. Orders can be sent to the undersigned at Independence, Polk County, Oregon. I indulge in no boasting, but am willing for all to see and examine for themselves. INDEPENDENCE, Oregon, January 26, 1882.
