THAT BOY OF MINE.

There is no greater responsibility resting upon fathers and mothers in any, and all of the relations of life, at the present day, than that which has reference to the proper bringing up of the boys. And we might with equal propriety say that there is no responsibility that is so constantly, and shamefully shirked by parents as is this one. We are no pessimist, nor are we governed by any sickly sentimentality in dealing with the practical questions which arise in connection with the social relationship, and we believe in dealing with practical questions in a practical way. We would like (if it wer'nt for being inquisitive) to ask every father that reads this paper two questions. The first would be have you a boy? and the second, what are you raising him for? Of course we cannot escape the fact that very much of what our boys are when grown to manhood will depend upon the home training. There is a class of lawless men and women infesting society in every part of the country. We find them as prisoners at the bar of our courts; they inhabit our prisons. They rob stages and railroad trains, they burn houses and burglarize stores, and in a word they live in constant rebellion against the authority of law. Why are they thus lawless? While there may be other reasons, the main difficulty is they have been allowed to be lawless from their infancy. They have not had that healthful parental authority exercised over them that is necessary to teach them lessons of submission. They have violated and ignored almost every vestage of parental control at home during the formative period of their lives, and the consequence is, when their characters are formed they know no authority to which they ought to be submissive but their own untamed will. But the responsibility of a father in thus bringing his boy under proper restraint is a weighty one and many parents are either too weak and cowardly, or else too indolent to grapple with it, and hence the boys of such parents are turned upon the streets, to go where they please, to associate with whomsoever they choose and the result is easily guessed. We never could exactly understand how some persons could sit cozily at home during the evening and read the papers, or sit in a store or club room and smoke, and gossip, and appear at perfect ease while their little boys were running the streets like street arabs, gathering up all the moral filth and garbage that is to be picked up on the streets of any modern town or city. What can be expected of boys brought up in this way? Absolutely nothing that is good, and everything that is bad. These are the boys that will form the scabs, and ulcers of society when they have reached maturity. You cannot go upon the street of any town in Oregon of an evening but you will meet here and there squads of boys of all ages, engaged in questionable amusements, and indulging in the vilest profanity and vulgarity. But perhaps you say "they are not my boys". Well they are somebody's boys, and somebody has the awful responsibility of properly training these very same street gamins and if that somebody fails to do it they are going to swift and certain ruin.

Fathers and mothers look after that boy of yours. Keep him at home nights, compel him to read good books. Send him to school and see that he acts now just as you want him to act when he is a man, and he will doubtless honor your gray hairs.

ACKNOWLEDGMENT.

On opening a sack of flour this week received some time ago, from Wilson & Holman, of the Dallas city mills, we found a card on which was written "compliments of Wilson & Holman." There were two sacks of the flour and it was first class in every particular; Just as good as Salem mills flour. We gratefully acknowledge the favor and wish Mr. Wilson and Co. the largest success.

COAST CAMP LIFE.

Some of the Advantages of Newport as a Pleasure Resort.

Fish Scarce but Plenty of Whisky --Railroad Work Entirely Suspended.

The People have a Total Disregard for the Sabbath and Churches.

Newport, Ore., Aug. 12, 1883.

Ditor Itemizer:—Perhaps a few lines from one of your Polk county correspondents, who is at present enjoying a few days of camp life on the coast of the great Pacific ocean, would interest some of your readers. After leaving our home and traveling three days with a team, which was a somewhat noted, one of the horses was old and blind, the other a 2-year-old colt, and as lazy as they ever get to be, and our driver was an expert. I assure you we had a splendid journey. We found the road in good condition across the mountains. In fact we never traveled a better mountain road, although there is some fearful grades, where, if teams meet, they have a hard time getting past each other. We met a team on one of these grades, and by experience we found what it was to meet on such places. After arriving at Newport we could not find a good camp ground, so we went up the coast—north—three miles to John Faces' camp ground. Here we found a beautiful place to stretch our tents, and we would say to any of our friends who expect to visit the coast that this is the place to camp, for we are within two hundred yards of the beach, where we are shut in from the world by a beautiful grove, made by nature, with a splendid arteam of water running through it. Here we can breathe the pure air and eat all that is set before us. Our number at present is but two camps—Judge Piper's family, from Salem, and our own. There has been a great many, but they have gone home to harvest.

We do not see much improvements going in this part of the country. There is some work being done on the channel of the bay with the money appropriated by congress. What good may be accomplished we can not tell. The railroad has come to a standstill, work being suspended for the present, we are informed. The last of the Chinamen quit work last week. The reason assigned for the work being stopped was for want of ready cash.

This country seems to be settling up pretty well, nearly every acre of land that amounts to anything being taken, but lots of these mountains, I presume, is vacant yet. How some people calculate to make a living we fail to see. However there is a good many nice little ranches along the Yaquina river and up the bay.

Newport seems to be the metropolis of this country. Considerable business seems to be done here. There is five or six stores here, and about the same number of saloons, so anyone coming here for their health need not bring their liquor with them, for you will find plenty to quench your thirst.

There is nothing in the line of steamers or ships that come into the bay here yet, but small boats do. There is no trade here yet for large vessels to come after. One thing we notice, that there is not a church building in all this section of country. In Newport they have a hall that religious services are held in, and last Sunday we went to Newport to hear Rev. J. B. White expound the gospel, and we noticed one feature and that was, all the stores and saloons were open and running in full blast. We do not believe any country or town will prosper unless they respect the Sabbath day, to some extent any way.

At present fish is not very plenty. Salmon are not running yet, but will be about the first of next month. Flounders is all the go at present, and we are glad to get enough of them. A few mornings ago we wandered along the beach and viewed a grand sight. The night tide had washed out hundreds of fish and left them on the beach dead. Of course, not being seafaring men, we could not tell the cause, but old settlers tell us the same thing happened before, and they account for the dead fish in this way: that they are running after the little smelt, and, getting in the breakers, get their gills full of sand and drown. But we do not vouch for this explanation. As to the cause we cannot tell.

We have had two nice little showers of rain since we came here. We have no smoke, and it is very pleasant; a little fogy in the mornings, but the citizens of this country have one great advantage over us in the valley, and that is good health, which is better than all the gold and silver. They tell me a doctor would starve here. We believe it if he depends on the people here getting sick.

The First Fare Over the Brooklyn Bridge.

The first fare over the Brooklyn bridge was paid by a New York reporter. If the cent was not borrowed for the occasion it goes to show that rumors about the New York journalists being underpaid are grossly exaggerated. Perhaps the cent was a counterfeit, or the reporter may have picked it up, or possibly the whole story is a newspaper sensation, gotten up for effect. At all events, it was highly unprofessional for the reporter to have paid his way. Journalism seems to be in its infancy in New York if reporters actually pay cash for anything they get. We manage things better in Texas!—[Ex.

THE MOUNTAIN STAGE ROBBERY.

This morning at half past 4 o'clock the mountain stage, coming this way, was stopped by two masked men and robbed of Wells, Fargo & Co.'s treasure box; the robbers also taking all the money and valuables belonging to the passengers. The robbery was committed at a place called Dead Man's Hill, about eighteen miles from here.

The circumstances of the robbery, as near as we could learn, are as follows: As the stage was coming up the hill, the horses in a walk, two men stepped out of the bushes and ordered the driver to halt, and while one of the robbers covered him and George Gellenbeck, who was riding with him, with a gun, the other ordered George to throw out the treasure box, which was done, and afterward to get down and notify the passengers inside—four in number, one lady among them—to get out and stand in line. That being done, the one who had ordered the treasure box thrown off, went through them, taking their money and watches; after which they were allowed to climb in and take their seats. The driver was then asked how much money he had, and answered, "four or six bits" was all, he was then told to kept it and drive on from there as fast as possible, leaving the treasure box lying in the road where it was dropped; the way bill was inside, and consequently there was no knowing how much it contained.

The driver was W. C. Barger, division agent, who had taken the place of one of the employses and was driving that trip; he had about $60 with him that the robbers did not get. George Gellenbeck lost his watch and chain. Oscar Grœnow, traveling for Mayrisch Bros. & Co., San Francisco, lost a gold watch and chain and $150, besidas some checks valued at $200. Rev. J. C. Kirkman lost his watch and chain and about $13. —— Gilmore lost $7. Miss Ida Boyd was one of the passengers, but the robbers did not take anything from her.

As soon as the robbery was reported party started out to capture the robbers. From the description given by the passengers and identified by P. G. Stickland, as those of a couple of men who for several days have been hanging around Encampment, it is hardly possible that they can get away.—[Pendleton Tribune.

THE NEW PATENT

DUST-PROOF

Stem Winding Open Face Case,

MANUFACTURED BY THE

American Watch Co.,

WALTHAM, MASS.

This case is formed in one solid piece without joint or seam, opening in front only, thus avoiding the usual Cap, and securing greater strength and durability.

These watches are all open face. The bezel into which an extra strong crystal is fitted with an especially prepared water-proof cement, is attached to the case by screwing it thereon, and thus forms an air-tight junction with the body of the case, which is proof against dust and moisture.

To railroad men, travelers, miners, lumbermen and others who are almost constantly exposed, and who have to make frequent reference to the watch these qualities are of the utmost importance.

The following letters tell their own story.

"Valdosta, Georgia, July 20, 1882.

"I sold one of your Patent Dust Proof Cases about ten months ago, and the other day it came back to me with the request to make it wind easier. On examination I found that the stem was rusty, and I inquired into the cause of it. The gentleman stated to me that he was starting some saw-logs that had lodged in the bend of the river, when his chain caught in a bush and threw his watch into about twelve feet of water, and he was about two hours finding it. When he got it out it was running and he thought all right. In about three months he found that the stem was hard to turn and sent it to me.

I can say that the watch is all that the company claims for it and recommend it to all railroad and mill men.

B. W. BENTLY."

"Clinton, Iowa, April 29, 1881.

"I wish you would send me a spring for the Wm Ellery Watch. * * * By the way this Ellery is a watch I sold in your Screw Bezel Case to a armer last fall. The first of January he lost the watch in the woods, and found it this week in about one foot of water. It had lain three months and over in snow and water, with but slight injury to the watch—only a hair-spring

C. S. RAYMOND."

The above were very severe tests, and demonstrate beyond a doubt, that for any reasonable length of time during which a watch might be under water it would receive no injury whatever.

We make these cases in both gold and silver, and as a **Perfectly Dust-Proof Stem Winding Watch Case, Challenge the World to Produce its Equal.**

PILES! PILES! PILES!

A Sure Cure Found at Last! No One Need Suffer!

A sure Cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. William, (an Indian Remedy,) called Dr. William's Indian Ointment. A single box has cured the worst chronic cases of 25 or 30 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions instruments and electuaries do more harm than good. William's Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warmin bed,) acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts, and for nothing else.

Read what the Hon. J. M. Coffinberry of Cleveland has to say about Dr. William's Indian Pile Ointment; I have used scores of Pile Cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. William's Indian Ointment.

For sale by all druggists, or mailed on receipt of price, $1.00.

A HAPPY NEW YEAR TO ALL

By the kindness of the citizens of Yamhill, Clackamas, Polk, Benton, Linn and Marion counties, after six years business from a small starting point, I am here. And why is it! Because I never flung in your faces that "I possessed large amounts of glittering gold." I have never said you would have to trade with me and you couldn't help yourselves. I have never said "I didn't want Salem to grow any larger, for fear it might bring too much competition in business," and I did not turn a cold shoulder to the Woolens Mills last summer.

In six years of business we do not find it all sunshine; but, fellow-citizens, I must say that I thank you for your kindness and patrouage, and hope to be able to merit a continuation of your past favors.

For 1883, I have the largest stock of shelf hardware south of Portland, consisting of all articles usually found in hardware stores. I will also have a full line of engines, threshers, headers, wagons, plows, spring tooth harrows, twine pinders, harvesters, reapers, mowers fruit driers, etc., Please give me a call. Corner of State and Commercial streets, Salem, Oregon.

FROM THE AKRON COMMERCIAL, OHIO, OF NOV. 25TH, 1882, 1682.

Readers of the the Commercial can not well forget that a large space has for years been takee up by Kendall's advertisements—especially of a certain Spavin Cure. We have had dealings with Dr. Kendall for many years and the truth is fully and faithfully proven not only that he is a good honest man, and that his celebrated Spavin Cure is not only all that it is recommended to be, but that the English language is not capable of recommending it too highly

Kendall's Spavin Cure will cure spavins. There are hundreds of cases in which that has been proven to our certain knowledge, but, after all, if any person confines the usefulness of this celebrated medicine to curing spavins alone, they make a big mistake. It is the best medicine known as an outward application for rheumatism in the human family. It is the best medicine known as an outward application for rheumatism in the human family. It is good for pains and aches, swellings and lameness, and is just as safely applied to men women and children as it is to horses. We know that there are other good liniments, but we do believe this spavin cure to be far better than any ever invented.

KENDALL'S SPAVIN CURE

Hutchinson's Ranch, 12 miles north of Denver Colorado

Mar, 5th, 1883.

Dr. B. J. Kendall & Co., Gents:—For the past three years standing I have used Kendall's Spavin Cure. In every case of Spavin, of which I have treated five it has killed them all, and entirely removed them. I case of splint I find it has no equal, one case I had was of three years standing removed it entirely One year ago a two hundred pound block of ice fell out of a wagon striking my foot on thk lnstep and toes, it would be impossible to mash a foot worse without breaking any bones. I was taken home and carried into the house. I do not think amputation of the leg would cause any more pain. I went for Kendall's Spavin Cure, it was all I used and in six days I could walk around. About three weeks ago my team ran away threw me out of the wagon, the hind wheil struck my knee. After applying several kinds of liniments without obtaining any relief, I went for Kendal,s Spavin Cure. My leg was drawn up and my knee swollen badly In three days I was able to walk to the barn. I could go into details more fully, and make this a very long letter but will not weary you.

I am very respectfully yours

Oscar F. Hutchinson.

KENDALL'S SPAVIN CURE

Santa Rosa, Cal., Feb, 9th, 1883.

B. J. Kendall & Co., Gentleman:—I feel it a duty to others suffering with piles and falling of the rectum to write you. I have had the piles and prolapsus of the rectum for five years, for the past three years I have suffered the most agonizing pain. Tried everything without relief, but after ten days use of Kendall's Spavin Cure I have not seen or heard of the piles since. One who has not suffered as I have cannot comprehend the great joy that I feel at being cured of a disease almost worse than death. I had a valuable young horse that had a large bunch gather on his breast bone. I tried all kinds of liniments and had it cut open without any benefit. Saw your advertisement and bought a bottle of Kendall's Spavin Cure and ordered my teamster to use as directed. In less than one week the lump had disappeared. Thinking that a liniment that would do what Kendall's Spavin Cure has done for my horse might benefit more. I tried it as a last resort.

With gratitude and best wishes for your success. I am faithfully yours,

J. H. Glenn.

ON HUMAN FLESH!

Dr. B.J. Kendall & Co., Gents:—Sample of circulars received to-day. Please send me some with my imprint, printed on one side only. The Kendall's Spavin Cure is in excellent demand with us, and not only for animals but for human ailments also. Mr. Jos. Voris; one of the leading farmers in our country, sprained an ankle badly, and knowing the value of tin remedy for horses, tried it on himself, and it did far better than he had expected. Cured the sprain in very short order.

Yours respectfully C. O. Thiebaud.
