All stock strictly caffed with sions cut from trees bearing good fruit (as you need not be alraid of degeneration caused by a practice of some men cutting scions off young trees in the nursery rows). My stock is young and vigorous. Please oorrospond with me or come and see my stock, as I have no agent in the field. I want every body to know I nower did employ anyone to sell trees for me_stock; all did wholesale some apples and pertantion touthing else—to Messrs. Yound & Kimball, but they were dealers in trees and mixed my trees with trees from other nurseries.
