THE EARLY MISSIONARIES.

From Lewis and Clark, who made a visit to Oregon in 1804-5 at the head of an exploring party, the Flat head Indians learned that the white man worshiped a Deity and that a great book had been handed down telling all about the white man's God—Sababala Teyas. Anxious to learn more of that Great Spirit, in 1832 they sent a delegation of four or five of their tribe to St. Louis, which they supposed to be the capital of the white man's country.

Another of the party died on the way back because of the cholera, and the others sadly disappointed left the place with a woeful out of playing cards. The Indians soon learned, however, that they were the subjects of a cruel joke and turned away. Two of the party died of the cholera, and the others sadly disappointed left the place with a woeful out of playing cards.

The matter was considered by the Methodist board of missions, who were first to send out their teachers. Rev. Jason Lee was placed in charge, accompanied by Rev. David Lee, Cyrus Sheppard, F. L. Edwards and Mr. Walker. In 1834, accompanied by Nathaniel Wreth, they started for the mountains, but in getting to the mouth of the Hudson Bay post. Following the advice of the doctor, they established their work in the Willamette valley instead of east of the mountains, as at first intended. Wreth's second trip to this coast. He stopped and built Fort Hall in Idaho, and the others with some Hudson Bay trappers came on to Vancouver, where they were hospitably received by Dr. McLaughlin, the then governor of the Hudson Bay post.
