

Baby Raw as Beefsteak
Baby very sick with worms when three months old. Had been on cod liver oil and other medicines. One week ago he was very ill. He was given a few drops of **WATERBURY'S** and he was cured. **WATERBURY'S** is a safe and reliable medicine for all ailments of infants.

Baby Bad with Eczema
Our baby boy, four months old, was very bad with eczema. He was given a few drops of **WATERBURY'S** and he was cured. **WATERBURY'S** is a safe and reliable medicine for all ailments of infants.

Baby Itched Terribly
Baby three months old broke out with white pimples on red face. Itching terribly. He was given a few drops of **WATERBURY'S** and he was cured. **WATERBURY'S** is a safe and reliable medicine for all ailments of infants.

Baby Suffering Agony
Baby three months old was suffering with colic. He was given a few drops of **WATERBURY'S** and he was cured. **WATERBURY'S** is a safe and reliable medicine for all ailments of infants.

CUTICURA WONDERS
And its cure are the most remarkable performed by any medicine. It cures all skin diseases, such as eczema, psoriasis, and all other ailments of the skin. It is a safe and reliable medicine for all ailments of the skin.

BABY'S Skin and hair purified and beautified by Cuticura Soap. A healthy baby is a happy baby.

An Incident of the War Recalled.
David Hoerner, a native of Danphin county, died at his home in Hutton, Cumberland county, about two weeks ago. It is related that he was taken to Harrisburg to inform General Smith that the rebel general, Fitzhugh Lee, was in that vicinity. On his return he found himself in the midst of the enemy and saw General Lee sitting on a fence resting, and the general, when he found him, said, "Come, let us have a smoke." Hoerner accepted the invitation, climbed upon the fence and for half an hour argued the political question of the day, all the time with a pass from General Smith in his pocket, which, if found, would have condemned him as a spy.—Shippensburg News.

Digestion.
There is a difference in the time of digestion between one meat and another and between different conditions of the same meat. Raw beef disappears from the stomach in about two hours, the same beef boiled takes three hours, while thoroughly roasted beef is not digested until four hours have elapsed.—Exchange.

Genuine Democracy.
Switzerland was the first European nation to incorporate into its constitution the principle that it is the duty of the state to protect its working classes by prohibiting excessively long hours of labor. Through the initiative it now asks to pledge these classes a much larger measure of protection. Fifty-two thousand signatures have been secured to the demand that the federal constitution be amended to recognize "the right to work." A proposition to be submitted to the voters includes provisions for public workshops, shorter hours of labor, employment bureaus conducted by the state and arbitration in labor disputes.—Outlook.

For and Wide.
Not in this broad continent alone, but in malarial breeding tropical regions, in Guatemala, Mexico, South America, the isthmus of Panama and elsewhere, Hostetter's Stomach Bitters affords to inhabitants and sojourners protection against malaria. The milder, the freshly arrived immigrant, the tiller of the virgin soil newly robbed of its forests by the axe of the pioneer, find in the superb anti-febrile specific a preserver against the poisonous miasma which in vast districts rich in natural resources is yet fertile in disease. It annihilates disorders of the stomach, liver and bowels, fortifies morning and evening meals and vapors laden with hurtfulness; strengthens the weak and conquers incipient kidney trouble.

Notary Public.
Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & Co., Toledo, O.
This country now sees the evil results of allowing other countries to use this as a dumping for their refuse. The country is over run with a vicious foreign element, who are causing serious disturbances in labor circles.

Baltimore, Md., Oct. 14, 1891.
DEAR SIR—Will you please be kind enough to let me know who is your agent in Baltimore, Md., for the sale of Kraus's Headache Capsules? I have tried to get them at a number of drug stores but have always failed. I had several boxes of the capsules sent me from Washington, and found them to be the very best remedy I have ever had for severe headaches.

Very truly yours,
1500 Patterson Ave. Mrs. A. L. DAVIS.

The medical journal asserts that people who drink cow's milk are more prone to consumption than those who use the milk of the reindeer, the buffalo, the ass or the goat.

Shiloh's Cure, the great cough and croup cure, is for sale by all druggists. Pocket size contains twenty-five doses, only 25 cents. Children love it.

Though Labrador was probably the first point of the American mainland visited by Europeans, yet it now contains the largest unexplored region on the continent.

Shiloh's Vitalizer is what you need for dyspepsia, torpid liver, yellow skin and kidney trouble. It is guaranteed to give you satisfaction. Price, 75 cents.

The most expensive fur is the skin of the black fox of Kamchatka. These animals are scarce and hard to kill, and a single skin sells for about \$1,000.

"The best in the world," this is what W. D. Woodring, of Bondville, Ky., says of Chamberlain's Cough Remedy. He spoke from personal experience in the use of it, himself and family. Having just been cured of bad coughs and colds by it. For sale by druggists.

Some of the steamship companies employ more men than are enlisted in the second class navies of Europe. The Cunard Line employs 10,000.

Catarrh is Colorado.
I used Ely's Cream Balm for dry catarrh. It proved a cure.—B. F. M. Weeks, Denver.

Ely's Cream Balm is especially adapted as a remedy for catarrh, which is aggravated by alkaline dust and dry winds.—W. A. Hoyer, druggist, Denver.

I can recommend Ely's Cream Balm to all sufferers from catarrh from personal experience. Michael Herr, pharmacist, Denver.

Ely's Cream Balm has cured many cases of catarrh. It is in constant demand.—W. Hoyt, pharmacist, Cheyenne, Wyo.

A piece of ancient wooden water pipe which was unearthed recently in New Britain, Conn., is claimed to have been nearly two centuries old.

How Over Fifty Years.
An old and well tried remedy. Shiloh's Kidney and Bladder Regulator has been used for over fifty years by millions of people. It is a safe and reliable medicine for all ailments of the kidney and bladder.

It is the mind that makes the man.
Watts, and modern ethics deny this, and give the credit to the tailor. It is question-able, however, if either are right.

Food has some claims
In this respect, therefore those parents who would build up the physique of their children pay strict attention to their diet. Children are all fond of food, and it is their duty to eat it properly.

COTTOLINE
Must be used as a shortening. It is recommended by the best cooks.

Consult your physician up to his healthfulness.
Send three cents to stamps to N. K. FAIRBANK & CO., ST. LOUIS and CHICAGO, NEW YORK, BOSTON.

Shuttles.
The most extensive manufacturers of shuttles in Great Britain, Kirk & Co., are said to market their products in all continents and in almost all parts of the world. None but the most expensive material is utilized for this purpose, including Persian oak wood, coral and perlmutter, and for some classes of shuttles the boxwood is employed, being a subject to the jurisdiction thereof, are citizens of the United States and the state wherein they reside. No state shall make a right of citizenship to work against the privileges or immunities of citizens of the United States, nor shall any state deprive any person of life, liberty or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

The court held substantially that a man has a right to contract to work any length of time he chose. The case was brought by an employee of the Barber Asphalt Paving company, which had naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and the state wherein they reside. No state shall make a right of citizenship to work against the privileges or immunities of citizens of the United States, nor shall any state deprive any person of life, liberty or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

Mr. Johnson's compliments to Mr. George Gould, and may he live long and prosper, by his example to increase the number and bloodthirstiness of Mr. Most's following.

Can any one conceive of a greater incentive to the history of this Gould family has been? They furnish Most and his mob of froxy de-structivists with ammunition, which is obtained by remark that during a spent cannot offset. George J. Gould has outlined a course of conduct that will cheer the shade of his illustrious father, and may be paying the streets of New York with the blood of the Goulds.

The tax commissioners in New York city having levied an assessment that seemed just to them on the Gould millions, the young Goulds, and their county of town, made his home in New York city, the technically the repository of the personal property of the estate. Of course the more is a mere trick, a double bluff, and the Goulds are now in the hands of the law.

It will be an unfortunate thing for the Goulds, the Goldmans and their successors when the law takes the Goulds by the throat, as it may one of these fine days.—Chicago Post.

A Few Remarks on Aviaric.
In the heart of the burning desert an oasis is reached, and many live long and prosper, by his example to increase the number and bloodthirstiness of Mr. Most's following.

The clock, which was put up by Langley Bradley in 1788, is in splendid condition and might, to all appearances, go on for another two centuries without failing to bear accurate record of the passing time. It is a grand old clock, remarkable for the magnitude of its wheels and the fineness of its work. It cost \$1,500 to build. Its two dial plates are 31 feet in circumference, and the hands are 24 inches in length. The minute hands are 9 feet 8 inches long and weigh 75 pounds each, and the hour hands are 5 feet 9 inches long and weigh 44 pounds each. The pendulum is 16 feet long. It is an eight day clock, striking the hour on the great bell, which is suspended about 40 feet from the floor. The head of the hammer weighs 145 pounds, and the clapper 180 pounds.—London Daily Press.

Hard Times For Australia.
Mr. Buxton Hodges, who is traveling in western Australia, sends an melancholy account of the condition of that country. The country, he says, is almost bankrupt, and the government has been compelled to hold over almost indefinitely all public works. The land railway construction is in like manner at a standstill for want of funds, and the building trade is quite stopped. From the new goldfields the latest report is "No flour and 900 starving men."

The farmers have much the same story to tell, while, to make matters worse, steamers are landing men from the eastern colonies by the hundred. As for women coming, continues our correspondent, it is out of the question. My advice to people thinking of leaving England to better themselves is: "Keep your half loaf. It is considerably better than the chaff out here."—London Daily News.

A German Deserter In France.
From Berlin comes the news of a great sensation produced in that town by the arrival of a German deserter, a lieutenant in an infantry regiment stationed in Brandenburg, from which he is alleged to have deserted. Presenting himself yesterday at the headquarters of the local gendarmierie, he stated, according to the story which has reached Paris, that he had had a violent altercation with his captain in the course of which he had struck his superior officer, and that, dreading the consequences of his conduct, he had left his country with a view of taking service in the foreign legion. It is added that he volunteered a number of details concerning the German army and other interesting matters. The deserter is now on his way to Algeria to join the foreign legion.—London Daily Telegraph.

A new punch that will satisfy the eye and gratify the taste of the most exacting is made by adding a little marshmallow and red curcuma to the best of red reggie.

AGAINST THE EIGHT HOUR LAW.
Judge Reed of the District Court declares the Kansas law unconstitutional, and the decision of Judge Reed, a Kansas district judge, declaring the eight hour law of that state unconstitutional, will be of interest to labor people generally, as it is said to be an able opinion from an able judge, but as the Kansas law is quite different from any other eight hour law, and as a district judge in Kansas, however able, is not an expert on the subject, it will have no effect on the eight hour movement in general. The Kansas law provides substantially that eight hours shall constitute a day's work for all laborers, workmen, mechanics or other persons who may be employed by or on behalf of any county, township or other municipality of said state except in cases of extraordinary emergencies which may arise in time of war, or in cases where it may be necessary to work more than eight hours per calendar day for the protection of property or human life, and in all such cases the party working more than eight hours shall be paid, not on the basis of eight hours, but on the basis of a day's work. The law also provides that laborers employed shall receive for the eight hours work the same rate of wages prevailing in the locality where the work is done; that subcontractors for state, city, township and other municipalities shall observe the same rate of wages prevailing in the locality where the work is done; that any of them to permit laborers, and that any contractor, subcontractor, etc., violating the same shall be punished with a fine, and imprisonment.

FOR FEEDING COEN FODDER.
An Improved Plan That May Be Adopted With Small Expense.
Thoroughly familiar upon the ground for the coen to trample under foot while the feeder is descending the steps or coming around the back way is the ordinary method of feeding fodder from the two story or "bank" barn. Those who have been pursuing this plan will greatly appreciate the improvement represented in the following cut, which was originally drawn for The Rural New Yorker and thus described in that journal:

FOR FEEDING COEN FODDER.
The cost of this arrangement is comparatively small and within the reach of all. Platform 12 to 14 feet long and as wide as the small donkey doors—7 feet or more—is hung to the rear of the barn. One upon this the feeder is carried and dropped into a feeding rack placed on the ground just below. The side beams of this hanging platform are made of light wood, pine or poplar, 3 inches x 8 inches, connected below by four crosspieces of stouter material, 3 inches by 4 inches, all firmly bolted together. Boards nailed down upon these crosspieces form the floor. A bell is hung in a hook above is inserted near the outer end of each side beam of the platform.
