use of Ayer's Cherry Pectoral. "One of my children had Croup. The case was attended by our physician. and was supposed to be well under control. One night I was stariled by the child's hard breathing, and on going to it found it stran-gling. If had nearly ceased to breathe. Realizing that the child's aiarring condition had become possible in spite of the medicines given. I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house. I gave the child three doses, at short intervals, and anziously waited results. From the moment the Pectoral was given, the child's breathing grew casier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well today, and I do not hesitate to say that Ayer's Cherry Pec-toral saved her life."
