

THE STAR Grocery, INDEPENDENCE

OREGON.
Our motto for 1900 is:

The Best Goods at the Lowest Possible Cash Price

We are not in business for our health nor through any philanthropic motives. We are here to make money. We do not want to make it all at once, but are satisfied with a moderate income each day. We want your trade to make part of this income. Our prices are always right and our goods are as good as the best. We have one price to everybody and try to treat each one alike. We cannot afford to let others undersell us.

Below are prices, a comparison of which is all that is necessary to convince you that we are selling better goods for the same money or the same goods for less money than anywhere else.

If you want package coffee remember we sell it two packages for 25 cents.

A one pound can of good baking powder for 15 cents.

We have the best quality of Blue Stone and sell it at 15 pounds for \$1.

Granulated sugar, Western refinery, a sack, \$5.50.

XXX roast coffee. This is a bulk coffee, fresh roasted, and at 15 cents a pound is the best bargain ever offered for the money.

We will sell you a nice and clean rice for 5 cents a pound

We will give you bottom prices on clover and timothy seed. Call and see quality of the seed.

We have many other goods that every household needs every day. Every article good and fresh and guaranteed as represented.

Remember, we sell for cash and sell just as we advertise. We deliver just what we sell. That is worth thinking about

We buy all kinds of marketable produce for which we offer cash or trade, as you wish. We want your bacon, lard, eggs and poultry.

THE STAR GROCERY, F. S. WILSON, PROPRIETOR.

Main street, first door south of postoffice.

To Cure a Cold in One Day

Take Laxative Bromo Quinine tablets. All druggists refund the money if it fails to cure. E. W. Crowe's signature on every box. 25 cents.

SALEM BUSINESS HINTS.

No humane man will go to town and leave his horse hitched out in wintry weather. Keeler's feed yard is the most convenient place for all Polk county people. Warm waiting rooms for patrons.

Work done at the steam laundry is so uniformly good that seldom does any patron find room for complaint. The Dallas stage charges nothing for carrying packages either way.

The State street undertaking establishment of A. M. Clough is among the best in the state. Full stock of burial goods always on hand and two fine hearses. Embalming done.

All who patronized the Cronise gallery last year will have pictures taken there again this year.

Henry Brown, of Dallas, has charge of the Old Postoffice stable and can in short order furnish a turnout which will satisfy you or any of your friends.

Not sometimes but always you can get a good dinner at Hellenbrand's restaurant at small cost.

I has come to be generally understood that nowhere else in town can you get the same goods for less money than at the New York Racket store. In buying a bill of goods there you would generally save from 15 to 20 per cent.

Goat Show Tomorrow.

The first annual exhibition of goats in this county will be held tomorrow at the Pioneer livery stable in Dallas. Quite a number of stalls have been built and other arrangements made to accommodate over 100 goats. If the weather is favorable fully that number is expected. Goats will be brought from the best flocks in the state to show, and the premiums will be confined to Polk county animals. Men interested in that industry are expected from various counties. There will be first and second premiums for each buck and ewe kids, for yearling bucks and ewes and for older bucks and ewes. The highest prize will be for best flock, consisting of aged ewe, buck, yearling ewe and kid, the aged ewe to be the mother of the others.

PUBLIC SALE!

I will on Saturday February 24th 1900, at 1 o'clock p. m. at the court house door at McMinnville sell to the highest bidder, for cash in hand or on day of sale, 288 acres of land, more or less, one mile south of Sheridan, and known as the Harrison T. Graves farm, one of the best in the county. And also on Saturday March 3rd 1900, at the same place, time and terms as above sale, lots 1, 2, 3, and 4 in block 6 in Bibbe's addition in the town of Sheridan. For further information and arrangements call on the Trustee, R. JACOBSON.

Trustee for estate of Harrison T. Graves, bankrupt.

Dated McMinnville, January, 23, 1900.

Coat Raisers' Agreement.

The Polk County Mohair association met in Dallas February 17th and adopted the following agreement: "We, the following named mohair growers of Polk county, Oregon, hereby agree to pool our mohair with the Polk County Mohair association and to abide by the price agreed upon by this association. We further agree to have our mohair dry, clean and merchantable, that we will brand the sacks with our names on the same, and that we will put the mohair in Cabot A sacks, containing not more than three yards to each sack. Also that when we sign this agreement we will pay to the association 10 cents for running expenses." V. B. Sears was the meeting adjourned to meet Saturday, March 3rd, at 1 o'clock in Brown's hall. U. S. GRANT, secretary.

An Editor's Life Saved by Chamberlain's Cough Remedy.

During the early part of October, 1896, I contracted a bad cold which settled on my lungs and was neglected until I felt that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something I could not, I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. S. Edwards, Publisher of The Review, Wyaut, Ill. For sale by A. K. Wilson.

CHRISTIAN CHURCH NOTES.

The meeting at Amity still continues.

The special meetings closed on Monday night.

I. N. Mulkey, of Bethel, was in town over Monday night.

We are glad to hear that the Independence church succeeded in raising the first payment of their debt to the Church Extension Fund, last Sunday.

The annual school meeting for the election of directors and clerk will be held in all districts throughout the county on the 5th of March. Both officers are of much importance and only the best men in the district should be selected to fill them. Men who give the most close and earnest attention to their own business would be most likely to best serve the district.

COUNTY SEAT SLIPS.

Blacksmith's coal at Portland prices plus freight may be had at Fall's hardware store, and blacksmiths can get these other things as they need them instead of having to keep in stock a costly variety of things. Carpenters tools and builders hardware, seeds and farming implements as well as everything else to be found in a well stocked hardware store.

J. E. Smith prides himself in doing blacksmithing equal to the best to be found anywhere.

Walter Williams keeps the best candies, fruits, nuts and tobaccos and that is the place to get the latest daily Portland papers.

Day after day the Salem stage brings to Dallas and Polk county people numerous packages from that city. It is so convenient to send by the driver who promptly and carefully fills all orders.

W. B. Wing is again in charge of the oldest Dallas meat market and takes pride in furnishing the best of everything for his customers. Pure homemade lard and choice sausage.

As you pass Gaynor's shoe store look at the footwear display in the windows. It will convince you that they have serviceable and comfortable things in that line. The prices will be satisfactory.

The horse shoeing done by blacksmith Lynch meets universal approval.

You may have valuable broken articles that you think are beyond mending. Take them to Gunsmith Risser, who has the reputation of being able to fix up almost anything.

New spring goods of all kinds will soon begin to arrive at Brown's store and you may rest assured that they will be the best to be had in any market. In groceries their aim is to buy not what they can sell for least money but what will give most satisfaction to customers.

Coll's wagon and repair shop in North Dallas has a variety of things in course of manufacture or being fixed up so as to be almost as serviceable as when new. It is most convenient for those living north of town.

When you have occasion to drive or ride into the country, go to Morrison's livery stable south of the courthouse. He keeps the best of everything in that line.

BALLSTON VISITED.

Early one morning last week we hopped it the two and a half miles from Sheridan Junction to Ballston and spent the day with the good people there. Craven's store seemed to be headquarters for everybody when not at work. Fudge Bros. were doing a variety of blacksmith jobs and G. W. Wilcox is still feeding transient hungry people. V. B. Sears owns the livery stable and is always ready to feed stock or furnish a rig. A. W. Thornton attends to all railroad business while his wife runs the postoffice. J. E. Luce and Miss Sedgwick have charge of the public school with about 75 pupils. R. C. Craven was there looking after his warehouse business, having considerable grain on storage. About 600 cords of oak grub wood is piled along the track ready for shipment, there being but a light demand for it. Within a year the price has fallen from \$2.25 to \$1.75 a cord on board the cars. The merchant, Joe Craven, said they were now shipping twelve cases of eggs a week. That means 5,184 specimens of hen fruit. The town has been at a standstill during the past year. A few loads of white lumber could be used to great advantage in stretching to homes beyond sidewalk limits. We found Grandma Bentley spending most of the time in bed under her weight of 85 years, but she is quite cheerful. Her granddaughters, Vessie and Sadie Sears, rank high as students at the state university. Annet Rachel Davidson grunts and grumbles, but is very spry for one of her years. At 3 o'clock we started up the railroad track home ward bound. The old Fairgrove store is vacant and no one lives in the house. We carried for a glimpse chat with the genial Mrs. John Campbell, two of whose children are in Arizona and two at the state agricultural college. We found Kenneth Campbell digging ar-b-holes for his milk cows. He says they yield largely and that all stock like them. By supper time we had reached the home of John McCulloch and wife, all of whose children are away from home. George in California, Bill married and living at Eugene, David studying music at Lafayette and Mattie at the normal school. Such wide awake men as Mr. McCulloch always prosper. He has put in a large amount of time and has erected 500 yards of wire fencing. As fast as his lumber fences decay they will replace them with wire. At 7:15 we boarded aboard the Dallas express and were soon at home.

There is now before the city council an ordinance requiring cows to be kept up throughout the year. It may not pass now, but such an ordinance is very apt to go into effect a year hence, for by that time the court house yard and other improvements will be in such a shape as to justify it.

Attorneys Sibley & Eakin are now at home in their new office building just east of the Observer office. The front room is neat and attractive and the consultation room back of it has all desired conveniences. Adjoining it is a good sized iron proof vault for their maps, abstract records and valuables. All the material in said vault is of home production and the workmanship first class.

The question of building a new school house or adding to the old one is being agitated and may come before the annual school meeting. It would certainly not be wise to add new rooms with modern improvements to the old structure as we doubt the wisdom of at present adding to our burden of taxation. The three additional rooms at the academy can be made to supply school needs for a while longer. Going in debt is bad business.

At the goatmen's meeting in Dallas last Saturday about 4,000 mohair fleeces were put into the pool and before selling time the number will be increased probably ten fold. The goat owners are all satisfied that they can thus get the best prices for their wool. But it must be remembered by all concerned that nothing but strictly clean, dry and merchantable mohair will be received into the pool.

The hot steam system at the court house is now in operation and works like a charm. Iron pipes conduct it from the furnace in the basement to the registers in the various offices and the warmth radiates evenly through to the rooms. After having served its purpose the steam gravitates back to the furnace in the form of water to be again heated into steam, which will again be condensed after having given off its warmth through the medium of the registers. From now on cold weather cannot interfere with work on the interior of the building.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce a grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.
