

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running sound or imperfect hearing and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give \$100 for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Union Party Convention.

The central committee met in Dallas last Saturday afternoon, J. E. Sibley presiding and Oscar Hayter secretary. A number of speeches were made and a variety of opinions were expressed. It was decided to be wise and best to continue the organization as made two years ago. All who are opposed to the present national administration are invited to affiliate with the reform party. Some of the committee who would personally have preferred a different course expressed themselves as ready to abide by the judgment of the majority and give the union nominees a hearty support. Probably a few of each of the parties at interest will kick out of the traces and go over to the enemy because things did not go exactly to their liking. It is rare to find an organization of any kind without some members whose disposition is to either rule or ruin. The most broad minded and level headed men in the parties concerned are agreed that the best course is to take and nearly all the rank and file will acquiesce in their judgment and action. If any there be who can not possibly see it that way they should quietly drop out and vote as they think best. What the republicans think or say about the action taken should be a matter of indifference to the members of the union party. The members of the central committee present were W. M. Rickreall, W. E. Conner, B. F. Jones, W. M. Hunter, T. J. Butler, S. W. Miles, J. T. Ford, Wash Gibson, George Rogers, J. O. Staats, Wm. Burns, J. B. Nunn and Oscar Hayter. T. W. Brunk was represented by D. J. Holmes, D. W. Sears by L. C. Gilmore, J. M. Prather by E. V. Dalton, A. Morehead by George Rogers and J. H. Townsend by J. E. Sibley. Primaries are to be held April 19th and the convention April 21st, there being 118 delegates. Dallas was full of people last Saturday, many of them drawn by mere curiosity, many because of their real interest in the occasion and some in search of promotion.

Some Nice Monuments.

The marble works of G. L. Hawkins at Independence has on hand some beautiful works of art in the line of monuments and memorial tablets. Burch at Rickreall; a fine Barre granite monument to be erected over the remains of Senator Carter, of Benton county at a cost of \$175; and a \$350 Quincy granite monument in the Monmouth cemetery for the Murphy estate. Besides that there are numerous other small monuments and attractive markers to be erected before Decoration day. Possibly the foregoing will cause some to remember that the tombs of their loved ones are neglected and should be cared for at least to the extent of being made clean and neat instead of unsightly. Adorning the resting place of your beloved departed ought to make you happier and will be pleasing to the friends they have left behind.
