

An Epidemic of Whooping Cough.

Last winter during an epidemic of whooping cough my child contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy successfully for croup and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, proprietor Norwood house, Norwood, N. Y. This remedy is for sale by A. K. Wilson.

Chas. P. Olesman and Arthur Steele were admitted to citizenship.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The pro-operators have so much faith in its curative powers, that they offer \$100 for any case that it fails to cure. Send for list of testimonials.

Pleasant Birthday Party.
On Sunday last the 21st birthday of Chester Quibria was celebrated at the home of his parents, J. T. Guthrie and wife. There were enough guests to re-quire four tables, which were spread with all the good things of the land. Mrs. Guthrie was assisted by Mrs. Whitecomb, Mrs. Teats and Mrs. Jane Guthrie. Among the many gift-wer, a beautiful bible from his mother and a fine cake made by his great aunt Mrs. Jane Guthrie. Those present in-cludes the ones already named were: Mr. Shepard and wife, C. In the east where he was well edu-cated and where he filled important positions of trust to the satisfaction of his employers E. V. Dalton is a host of friends who admired his pure man-hood while among them. If chosen treasurer of this county he would prove equally honorable and efficient. His business education is such that the records of the office would be kept in the most approved manner and his integrity is so clean cut that there would never be a stain on his reputa-tion.

Mrs. KATE MARINAN, teacher.

The ancients believed that rheum-atism was the work of a demon within a man. Any one who has had an at-tack of sciatic or inflammatory rheu-matism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheu-matism and hundreds bear testimony to the truth of this statement. One ap-plication relieves the pain and this quick relief which it affords is alone worth many times its cost. For sale by A. K. Wilson.

Dr. Daly, union candidate for con-gress spent Sunday here and made a good impression on all he met. As a citizen at home no one ranks higher and his legislative record is without a flaw. Many conservative republicans concede that he is both an able and a more reliable man than Mr. Tongue. What we want in the halls of legisla-tion is not only men of ability and energy but those to be depended on in all emergencies and Dr. Daly is such a man. Hon. J. A. Jeffrey, union candidate for prosecuting attorney, spoke here Monday evening and caused unbiased people to be satisfied that he would fill the office with credit to himself and with honor to his con-stituency. For five years he has done nothing but practice law and has had two years experience as prosecuting attorney in southern Oregon.

Mill feed at Riggs' grocery store.

Spectacles and glasses at Pfennig's. Morris Jones and Tracy Staats have each gave \$10 toward the college dor-mitory fund.

Mrs. S. A. Nichols, an old time Dal-lasite, will be here in a few days and may be able to give employment to several per-sons.

"Difficulties give way to diligence," and disease germs and blood humors disappear when Hood's Sarsaparilla is faithfully taken.

Walter Williams, the confectioner, subscribed \$25 to the college, but by an oversight his name was omitted from the published list.

Mitt. Holman drove 350 young cat-tle through town Monday, enroute to pasturage at Mr. Irwin's near Mon-mouth, prior to being shipped to Mon-tana.

Nearly all the candidates on both tickets are honorable men, but in some cases there is a material differ-ence in their fitness. Vote for no man simply because he belongs to your party. If one has proved tricky either in business or politics, he would do so again. Better let the unrelia-ble fellows stay at home.

If the people of this county send Joseph Craven to the legislature they may feel certain that he will never be persuaded to vote against their inter-ests. He is a solid farmer, has had public experience and has proved him-self worthy of being trusted where the interests of his county are at stake. His votes would never have a tendency to unjustly increase taxation.

A remedy for nasal catarrh which is drying and exciting to the diseased membrane should not be used. What is needed is that which is cleansing, soothing, protecting and healing. Such a remedy is Ely's Cream Balm. Price 50 cents at druggists or it will be mailed by Ely Brothers, 56 Warren street, New York. The Balm when placed into the nostrils, spreads over the membrane and is absorbed. A cold in the head vanishes quickly.

For several years the republicans have had complete sway in the legis-lature and many of the laws made by them have been by no means satisfac-tory to the people. As a many prom-ises made in the past have been brok-en, so would it most likely be again. Shrewd, persuasive politicians and weak members from so many quar-ters have made it so. If Gregg, Simp-son and Craven are sent to the legis-lature from this county, politicians will try in vain to swerve them from what they know to be the wishes of their constituents.

At the city hall next Monday, from 1 to 4 o'clock, there will be a special meeting to vote a bonded indebted-ness to provide for increased school facilities. The amount proposed is \$5,000 and it will require every cent of it to do what is absolutely necessary in that line. Our town now has a good name in all directions and many fam-ilies are figuring on moving here for the sake of better school advantages. A niggardly educational policy would cause them to give our city the go by. Who will vote against increasing the needed school facilities of Dallas.

The people all around are inquir-ing into the capacity and trustworthi-ness of the different candidates. The more they hear about the walk of J. E. Sib-bley during his twelve years sojourn among us the better they are satisfied that he would make an ideal county judge. He is a man of mature judg-ment and would listen to nothing else than an economical administration of county affairs. Being a lawyer of ripe experience he would constantly guard the interests of the county and of widows and orphans. The promotion of Mr. Sibley to the very important office of county judge would be no mistake.

The educational interests of a county should be regarded as secondary to none other. The proper education of the children requires continuous, zeal on the oversight by a county superin-tendent of good education and much ex-perience in the various grades of pub-lic school work. In the person of Prof. Wm. Parker, a candidate for that office, the county has such a man. In the east he graduated from a col-legiate institute and then from a model training school since which he has had fourteen years experience, much of it in schools of all grades in this county. He is a man of mature judgment and untiring energy and his time and talent would be devoted solely to bettering the county schools. Not only the mental, but as well the moral welfare of boys and girls would receive his guardian watch care.

As the county clerk has more or less contact or business with almost everybody in the county it is quite important that he be not only com-petent and attentive to duty but also genial and accommodating. The present incumbent has displayed those traits to a pleasing degree and if Tracy S. Asts becomes his successor he will not be a whit less popular with those who have dealings with the clerk's office. Some men while possessed of ability and inclination to do the right thing are so constituted as to not al-ways be of genial toward the gen-eral public. Some people you like to deal with because of their warm and friend-ly natures while you almost shun those who so often appear to be cool and indifferent. Mr. Staats would al-ways make you feel welcome in his office and that it was a pleasure to serve you.

The Evangelical conference for bi-ble study and campmeeting will be held in the Dallas city park from the 21st to the 24th of June. Many members of that church will then come with a view to locating here if pleased with surroundings and pros-pects.

J. A. Jeffrey, union candidate for prosecuting attorney, has had his hands full in doing justice to his legal practice and better fitting himself for a competent lawyer. He could not have diverted his attention to any other calling without neglecting the in-terests of his clients.

The Presbyterian church Rev. Godfriend will preach in the morn-ing from the theme What Constitutes True Oweraship. The evening sub-ject will be What are the Encourag-ing Tendencies of the Times. This will be the first of a series of Sunday evening lectures.

The republican candidates will speak as follows: May 21st, Douglas and Jackson precincts; 22nd, Salt Lake and McCoy; 23rd, Spring Valley; 24th Eola; 25th, Monmouth; 26th, In-dependence; 28th, Falls City and Bridge-port; 29th, Luckiamute; 31st, Buena Vista and Sawyer; June 1st, Dallas, and June 2nd, Rickreall.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Cham-berlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this rem-edy. A few doses of it effected a per-manent cure. I take pleasure in re-commending it to others suffering from that dreadful disease.—J. W. Lynch, Dorr, W. Va. This remedy is sold by A. K. Wilson.
